GOVERNMENT FINANCE OFFICERS ASSOCIATION

*Distinguished
Budget Presentation
Award*

PRESENTED TO

**City of Bloomington
Illinois**

For the Fiscal Year Beginning

May 1, 2013

Executive Director

The Government Finance Officers Association of the United States and Canada (GFOA) presented an award for Distinguished Budget Presentation to the City of Bloomington for its annual budget for the fiscal year beginning May 1, 2013.

In order to receive this award, a governmental unit must publish a budget document that meets the program criteria as a policy document, as an operations guide, as a financial plan and as a communications device. The award is valid for a period of one year only. We believe our current budget continues to conform to program requirements, and we are submitting it to the GFOA to determine its eligibility for another award.

City of Bloomington Mayor and Council Members Elected to Four Year Terms

Mayor Tari Renner
(2013-2017)

Ward 1—Kevin Lower
(2013—2017)

Ward 2—David Sage
(2011—2015)

Ward 3—Mboka Mwilambwe
(2013—2017)

Ward 4—Judy Stearns

- City of Bloomington Organization Chart

HOW THE CITY BUDGET IS ORGANIZED

The City of Bloomington budget is organized into two books, “Budget Overview and General Fund” and “Other Funds and Capital Improvement Program”. There are eighteen sections in total, eight in book one and ten in book two. Each section is described below.

Introduction

This section includes How the City Budget is organized, the City Manager’s budget, the City of Bloomington narrative, a map of Bloomington and the City’s organization chart.

Demographics

This section includes details on demographic and economic statistics, principal employers, capital asset statistics by function/program, assessed value and estimated actual value of taxable property and direct and overlapping property tax rates.

Procedural Information

This section includes information on the City’s Financial Policies and Strategies, Long-Term Financial Plan, City Budget Process, City of Bloomington Rates, and Full Time Employees by Department.

Action Plan-Summary for Calendar Year 2014

The City’s Strategic Plan was adopted by the City Council on January 25, 2010. The yearly action planning document is a planning tool used to guide the City toward goals set by the citizens and City Council through the year 2025.

Budget Overview

This section reports on all funds and their department/fund relationship used by the City for operations and includes the following:

- Fund Structure chart for FY 2015 Budget
- Fund Structure narrative including definitions
- Basis of Budgeting and Accounting
- Overall summary of all revenues and expenditures
- Fund Balance Summary
- Fund Balance Notes

Revenue Summary

This section provides insight into the City’s overall revenues and includes the following:

- Major Revenue Analysis
- Revenue comparison by department/fund
- Statement of Proposed Property Tax Levy

Expenditure Summary

This section details the City's overall expenditures including:

- Expenditure Overview
- General Fund Expenditure Comparison
- Consolidated Funds Expenditure Comparison
- Expenditure Comparison by Department/Fund
- Interfund Transfer Summary

General Fund Departments

This section includes a narrative for all General Fund departments including performance measures and line item budget details on revenue and expenditures by department.

Special Revenue Funds

This section budgets for Motor Fuel Tax (MFT), Board of Elections, Drug Enforcement Funds, Community Development, Library and Park Dedication.

Debt Service Funds

This section includes a description of the City's debt and budgets for the payment of principal and interest.

Capital Project Funds

Narratives and line item budgets for all Funds related to Capital Projects. These include the Capital Improvement Fund (CIF), Capital Lease Fund, the Central Bloomington (Downtown) Tax Increment Financing District (TIF), and the Pepsi Ice Center Capital Project Fund.

Enterprise Funds

This section includes narratives with performance measures and line item account budgets for City Funds accounted for and reported in the same manner as a private entity. Examples include Water, Sanitary Sewer, Storm Water, Solid Waste, Golf Courses and the U.S. Cellular Coliseum.

Internal Service Funds

This section includes narratives, performance measures and line item account budget information for the Casualty Insurance, Employee Group Health Insurance and Employee Retiree Group Health Insurance Funds.

Fiduciary Funds

This section includes narratives, performance measures and line item account budget information for the John M. Scott Health Resources.

Appendix

This section includes the City of Bloomington employee count by department and the budget glossary.

Capital Equipment

This section provides a list of capital equipment proposed for all funds. Included is a proposed list of items that the City will pay cash for and items that the City is proposing as part of a capital lease.

Capital Improvement Program

This section includes detailed project list by fund for every proposed Capital project for FY 2015. Also included is a detailed list of projects and whether or not the project is recurring or non-recurring. Finally, a detailed project sheet is provided explaining why the project is needed, cost and a picture if applicable.

Capital Improvement Program-Proposed Future Years

This section includes detailed project list by fund for every proposed Capital project for FY 2016-FY 2019. Also included is a detailed list of projects and whether or not the project is recurring or non-recurring.

June 17, 2014

The Honorable Mayor Tari Renner
City Council Members
Citizens and Stakeholders of Bloomington

Subject: Budget Message Fiscal Year 2015

Dear Mayor Renner, City Council members, Residents, and Stakeholders of Bloomington:

I am pleased to present the City of Bloomington's adopted Fiscal Year 2015 Budget for May 1st, 2014 through April 30th, 2015. The Budget for all of the City's 35 funds is \$180,426,393 in expenditures which represents an overall budgetary increase of 6.5%. Corresponding revenues excluding planned use of fund balance are increasing 5.6% from the prior year budget.

The fiscal year 2015 budget is a financial blueprint which balances the desire to maintain the high quality of services that those who live, work, and do business in Bloomington have come to expect with the need to secure the financial future of the City and its citizens. The current state of City finances brought about pointed challenges in maintaining a "Status Quo" level of services using the same sources of revenue. A structural deficit beginning in late FY2014 resulting from only moderate growth in sales tax revenues has been addressed in the FY2015 budget. However, long term strategies need to be employed in order to address future years.

The budget for fiscal year 2015 begins to address the structural deficit with a measured combination of revenue increases and expenditure cuts. Many fiscal challenges lay ahead which must be addressed including deferred capital maintenance, rising labor costs, and inefficiencies tied to understaffing and underfunding. The Mayor and Council put forth a concerted effort to confront fiscal challenges in the FY 2015 budget, including addressing some of the City's long-term pension liabilities by passing an ordinance that increased funding to police and fire pensions while also enacting a utility tax increase earmarked for partial funding of this strategy. The effort to address our challenges must continue.

Bloomington has a unique local economy and has been shielded from many economic factors that affect other parts of the region. Up until FY2014, the City has been able to rely on growth in consumer spending rather than raising sales tax rates or other significant rates which has been a fruitful strategy for the City over the last five years. The City's credit rating was reaffirmed in

FY2014 and refinanced debt has provided financial savings. By strategically managing resources, the City has been able to keep infrastructure needs moving along in many areas while undertaking extensive master planning which identify long term costs in FY2015. All master plans are intended to be consolidated into a five year capital plan which will incorporate a funding proposal. The City has been able to replace many key pieces of equipment and maintain its rolling stock of vehicles while maintaining a 15% fund balance in its General Fund.

The City has seen significant turnaround since the great recession but new challenges presented themselves throughout the FY2015 budget process and considerate long term strategies will be necessary moving forward.

The fiscal year 2015 budget is the result of an extensive budget process. This process includes considerable involvement from stakeholders and citizens of Bloomington who relay their expectations and concerns through emails, town hall meetings, and mayoral open houses. The Mayor and Council integrate citizen feedback into their decision making process and provide clear direction to the City manager and staff. The City manager works with staff and department heads to formulate a plan of action that reflects the thought, discussions, and critiques of the council while also taking into account responsible business practices, sound fiscal management, and the overall financial stability of the city. The end result is a budget that incorporates the direction that the citizens of Bloomington have for the City with responsible fiscal management practices that will ensure the City's long term fiscal health.

Budget Assumptions

The initial planning stage of budget preparation involves the evaluation of the many outside forces that affect funding decisions. These factors include: national, state, and local economic conditions; federal and state mandates; political environment; social environment; residents' concerns; and outside agency collaboration. The following assumptions were made to guide the development of the budget for FY 2015.

- Marginal growth in population
- Continued low unemployment rate - holding at 2 % below the state average
- Precipitous drop in mortgage defaults – trend since 2010
- Marked increase in home sales and resales – new home sales prices up 2%
- Decreased retail spending from FY13 to FY14 across the region – FY13 a standout year

- Continued low inflation
- Potential for commercial and industrial growth
- Continued funding from State and Federal agencies

Budget Priorities

Budget priorities are scrutinized each year through the lens of the City’s strategic plan adopted in January 2010. The Council adopts an annual action plan based on the strategic plan which links directly to department goals and objectives providing measurable outcomes that can be tied back to the City’s vision.

The area’s Economic Development Commission is currently undertaking a large visioning plan for the region, with extensive engagement of the citizens and other stakeholders. This plan will likely be a major additive to the City’s annual action plan going forward.

The Council unanimously adopted the Strategic Plan in January 2010. The goals outlined in the plan include: a beautiful city; family friendly; downtown as the heart of the community; great neighborhoods; diverse local economy; convenient connectivity; quality education for a lifetime; choices for entertainment and recreation; and pride.

Goals were adopted in the following order:

- Goal 1: Financially Strong City Providing Quality Basic Services
- Goal 2: Upgrade Infrastructure and Facilities
- Goal 3: Strong Neighborhoods
- Goal 4: Grow the Local Economy
- Goal 5: Great Place – Livable, Sustainable City
- Goal 6: Prosperous Downtown Bloomington

Major FY2015 Budget Priorities:

- Adoption of the Sanitary Sewer & Storm Water Master Plan
- Adoption of the Facilities Master Plan
- Adoption of the Downtown Streetscape Master Plan
- Adoption of the Sidewalk Master Plan
- Creation of a Streets Master Plan

- Creation of a Water Master Plan
- Completion of a Five Year Capital Plan
- General Fund Major Revenues Audit
- Procurement Ordinance and Policy Revision
- Downtown Hotel Feasibility Study
- Provide more cost effective services
- Enhance Public Safety
- Facilitate Bloomington and Regional Comprehensive Visioning Plan

Local Economy

Bloomington was ranked #1 in the State of Illinois and #28 nationally on [Forbes](#) list of “The Best Small Places for Business and Careers.” The economic strength of the Bloomington-Normal metropolitan area is well diversified with many substantial medium-sized businesses and institutions. Diverse and stable employment sources include State Farm, Illinois State University, Illinois Wesleyan University, COUNTRY Financial, Mitsubishi Motors of North America, Advocate BroMenn Regional Medical Center, and OSF St Joseph Medical Center. These, along with many other employers, contribute to Bloomington-Normal experiencing the lowest unemployment rate of any metro area in Illinois.

Bloomington is located in one of the most productive agricultural areas in the nation, but the economy is diverse and well-balanced. In addition to the major manufacturers and industries, there are two universities, two hospitals, a convention center, one indoor mall, one outdoor mall, and many banks and Savings & Loan Associations located in Bloomington-Normal. The City of Bloomington is one of the fastest-growing metropolitan areas in Illinois. New construction continues to enhance residential, industrial and commercial growth.

The Bloomington-Normal area has become nationally known as a strong transportation/distribution region as it is centrally located at the intersection of interstates 39, 55 and 74, US Routes 51 and 150, and State Route 9. Numerous motor freight carriers and major railroad lines such as Amtrak connect Bloomington-Normal to most major cities within the continental United States. In addition, the expansion of the infrastructure at the Central Illinois Regional Airport has allowed this airport to attract users throughout the Midwest. The airport has established relationships with several airlines with daily jet service to numerous hubs.

There are multiple shopping areas located within Bloomington-Normal which serve a large retail trade area including more than 230,000 residents. One enclosed regional mall and one lifestyle

shopping center account for approximately 1,210,000 square feet of leasable retail space. The area enjoys the presence of several major national retailers such as Lowe's, Macy's, Kohl's, Von Maur, and Wal-Mart, in addition to numerous chain and local restaurants and is well insulated from competition with the next closest regional shopping center being more than 40 miles away.

Most major employers within the community have remained stable and the issuance of commercial building permits has increased over the prior year. New projects and renovation continue to occur throughout the City, including the announcement of a new 108,000 sq. ft. Hy-Vee grocery store along Veteran's Parkway and a Route 66 Visitors Center in Downtown Bloomington.

The following higher education facilities are located in Bloomington or in close proximity: Heartland Community College was established in 1990 and classes were first offered in the fall of 1991. Since then, enrollment has grown to over 10,000 credit students and 20,000 non-credit students. HCC offers associate and transfer degrees and certifications in 58 different areas. Illinois State University was founded in 1857; ISU was the first public university in Illinois. With a 2012 enrollment of 20,502 and faculty numbering 1,394, ISU has six colleges and 35 academic departments offering more than 160 fields of study. Illinois Wesleyan University is a private university founded in 1850. IWU has a student enrollment of 2,000 undergraduates. Recognized as one of the nation's premier private residential liberal arts universities, IWU offers 39 majors and three pre professional programs with 184 faculty members. Lincoln College - Normal is a private residential college, offering academic and vocational programs to 500 students. Accredited by the North Central Association, Lincoln offers associate degrees as well as bachelor's degrees in business management and liberal arts with a student/faculty ratio of 15:1.

Bloomington-Normal home sales for calendar year 2013 reflect 2,812 sales with the average price per residence of both new and existing stock increasing over the prior year. The median family income for the Metropolitan Statistical Area (MSA) for FY 2014 was \$86,800 continuing to be the highest in Central Illinois.

Fiscal Overview

The City has over 35 funds for which it appropriates. The General Fund is the City's main operating fund which funds all general operations, capital equipment and capital improvements represents 50% of the overall City budget.

The City has nine enterprise funds of which the Water Fund is the largest making up another 27%. Each of these enterprises funds their own operations and capital needs. The Water fund has had regular rate increases to prepare for upcoming capital needs and begins the year with 100% fund balance. Through the development of a water master plan in FY2015, prioritization of capital projects and a funding plan will create a road map going forward. The Sewer and Stormwater Funds each have a completed master plan outlining infrastructure needs over the next twenty years. A comprehensive five year capital plan will be developed in FY2015. The Solid waste fund has recently raised rates and adopted a new low income program; early analysis reveals the need for continued support from the General Fund for the time being. The Abraham Lincoln Parking Garage (ALPG) is a joint financing venture between the City and the County which is expected to break even on its operations but will need continued support for its capital needs. The City has three golf courses each with their own fund; similar to the ALPG, continued support for capital improvements is expected. The U.S. Cellular Coliseum fund is managed by an independent management company and has come close to breaking even on its operations. The City appropriates a budget for the related debt service payments and capital maintenance needs which is funded through a share of the home rule sales tax and through general operations.

Budgetary Challenges

During the FY2015 budget process, the Mayor and City council were forced to confront several challenges not seen in previous years. Sales tax revenues began to slow in FY2014, a trend that continued throughout the budget season causing \$1.8 million in revenue revisions during the budget process. In addition, multiple union contracts were settled and non-union employee wages were brought current during FY2014 by adjusting salary and benefit expense projections up by approximately \$2.5 million. These adjustments and having expenditure growth that is expected to outpace the growth in revenues created a structure deficit in the General Fund.

This chart depicts the growing structural deficit in the General Fund if revenues and expenditures remain the same as the FY2015 budget.

Analysis of sales tax revenues across the region revealed that FY2013 was a standout year for spending in both automotive and furniture industries which did not re-occur in FY2014. To recapture this lost revenue, the City would have to raise sales tax rates barring any major economic development opportunities.

To close the FY2015 budgetary gap, council adopted two new taxes: an amusement tax and a local motor fuel tax and increased the City's utility tax rates adding estimated new recurring revenue streams of \$3.7 million. Further, \$2.6 million in cuts to operations were also made only adding expenses for the Police and Fire Pension Funding Ordinance and four new public safety positions. The FY2015 General Fund budget was not able to address much of its recently measured infrastructure needs, however no fund balance reserve was utilized to balance and the majority of the rolling stock of capital equipment and vehicles remained intact.

Budget Highlights

The Amusement Tax is a four percent (4%) tax levied on exhibit entertainment, including, but not limited to sporting events, any theatrical, dramatic, musical or artistic performance; motion picture show or movies; video or videotape; or digital versatile disk (DVD) rentals; subscription video programming services (such as Cable TV). This tax is not intended to be levied against religious, charitable, or not-for-profit person or organization, park district, school district, a public or private university, any other unit of local government, or interscholastic events. Estimated revenues for FY2015 total \$1,000,000.

The FY 2015 budget includes the creation of a 4 cent per gallon Local Motor Fuel Tax (LMFT). Beginning August 1, 2014, the City of Bloomington will tax the sale of motor fuel at a rate of 4 cents per gallon. The revenue generated by this tax is earmarked for the City's street resurfacing program and is estimated to generate \$1,000,000.

The City also increased utility tax rates on water, natural gas, electric and phone usage which is specifically earmarked for the contributions to the Police and Fire pension plans and addressed in the City's new Police and Fire pension funding ordinance.

The creation of new revenue streams assisted the City of Bloomington in balancing the FY 2015 budget with \$1,000,000 in amusement tax available for general operations. Nevertheless, salary and benefits expenses alone are estimated to increase by \$2.5 million annually.

The City of Bloomington has regained much of its fiscal health through major cuts in expenditures made during the great recession. These cuts included early retirements and significant staff reductions as well as deferral of capital maintenance needs for streets, sewers, water, stormwater and facilities. This plan was temporary and needs a more permanent solution; restoration of staff and assessments in key areas as well as growing infrastructure needs will be critical components of future budgets.

City of Bloomington Employees

The City of Bloomington is the fourth largest employer in Bloomington and has a relevant effect on the local economy. The City's culture and staff morale have been greatly affected by staffing and budget levels. Reduced staffing levels prevent current staff from providing the quality and efficiency expected of them. Understaffing in the support departments, such as information services and human resources, has been particularly unfavorable in meeting the basic needs of outlying departments. Until recently, the finance and legal departments had a similar affect. Reduced staffing levels impede the City's ability to plan for the future, become proactive and retain qualified staff, provide safety and other training opportunities and further remain in compliance with state and federal regulations.

Infrastructure Improvements

In an effort to minimize unplanned capital maintenance and quantify long-term risk and affordability, the City has undertaken the development of several infrastructure master plans. The "back to basics" master plan process focuses on overall assessment of City streets, storm water pipes, sanitary sewers, water supply, facilities, and the location and condition of public safety facilities. Elements of these plans will be included in the City's 5-year Capital Improvement Plan. A crucial part of the capital planning process is the analysis of funding streams. In FY 2015, the budget includes earmarked funds such as a new Local Motor Fuel Tax for street resurfacing. Complete master planning must contemplate the appropriate rate and fee structure for subject and potential debt issuances.

Master Plans, Assessments and Feasibility Studies Completed:

- **Fire Facilities** - A feasibility and program study was prepared by Five Bugles Design Consultants in FY 2013 to provide direction to the Fire Department as fire station improvements are integrated into the City budget. This study was supplemented by an independent analysis of staff levels and facility location by the Illinois Fire Chiefs' Association. In response to the Five Bugle Study, \$160,000 is incorporated into the capital improvement budget for vehicle exhaust drops at fire stations.
- **Street Assessment** – A street inventory was completed and a rating system was implemented in FY 2009 noting significant needs in deferred maintenance. Funds for street repairs have increased significantly in the FY 2015 budget including the creation of a \$1 million resurfacing program funded by the Local Motor Fuel Tax (LMFT) and the continuation of projects funded by the \$10 million increase from a bond issuance in FY 2014.
- **Sanitary Sewer** - The City has approximately 411 miles of sewer lines, almost 23% of sewer lines are between 73 and 163 years old, with another 20% between 33-53 years old. This aging infrastructure coupled with increased demand is a significant concern. In FY 2013, the City completed the sanitary sewer master plan which provides an assessment of the current condition of the sewer system, recommendations and priority for a repair and replacement plan to protect this aging infrastructure. The FY 2015 budget includes over \$3.5 million in Capital Improvement repairs to the Sewer System.
- **Storm Water Master Plan**- The Storm Water Master Plan was completed in March 2013. It reviews over 14 miles of streams and 400 detention basins and aims to develop strategies for long-term investment and maintenance. The Storm Water Master Plan surveys selected creeks and streams to determine current conditions and future maintenance needs. In addition, the planning process surveyed residents regarding drainage and sewer problems and compiled the results for further analysis. The plan contains hydraulic modeling, a city-wide greenways plan, locations for regional storm water detention areas, drainage channel improvements, and recreational opportunities along the stream corridors.

- **Sidewalk Master Plan** – Over the past two years, the City has worked on a Sidewalk Master Plan. The process began with the systematic rating of all 423 miles of Bloomington sidewalk. The FY 2015 Budget includes an appropriation of \$100,000 to begin the repair and replacement of sidewalks and ADA sidewalk ramps.
- **Zoo Master Plan** – The Zoo Master Plan, funded mostly by the Miller Park Zoological Society, was started in FY 2012 and adopted by City Council in FY 2013. The \$16.7 million overall plan will be phased over the next 15+ years, and will be funded by a yet-to-be-determined split of public and private funds. The plan includes new exhibits, business strategy goals and suggestions for improved fundraising for the Miller Park Zoological Society. The City has started the process of implementing this master plan in the Fiscal Year 2015 budget.
- **Parks Master Plan** – The Parks Master Plan was updated and adopted by City Council in January 2010. This plan updated the park system inventory and provided recommendations for parks and trails improvements. Financing to implement this plan was not adopted by the City Council. The Parks Master Plan also did not include an assessment of the programming needs of the community. These important elements should be included in any upcoming Community Visioning project.

Capital Improvement Program

The FY 2015 Budget does appropriate \$18,195,750 to capital improvement projects: \$1.4 million in Motor Fuel Tax Funds for the design of future projects; \$1 million from Local Motor Fuel Taxes (LMFT) for street resurfacing; and another \$1.3 million to begin work in the facilities plan, zoo master plan, and Abraham Lincoln Parking Garage. Water projects for \$9.9 million include: \$2.5 million in expansion of the water plant; \$1.0 million in well construction; and the remaining \$6.4 million in various capital maintenance projects. Sewer projects for \$3.6 million include phase II of the Locust Colton CSO project and \$1.0 in Stormwater projects.

Planning for Future Years

The budget for fiscal year 2015 makes great strides towards securing the City's fiscal health in the coming years, but more progress will need to be made to guarantee the City's fiscal solvency. The City will face many fiscal challenges including some from deferred capital maintenance, rising pension expenses, and inefficiency due to under staffing or underfunding. It is important now more than ever to formulate prudent, responsible financial planning in order to overcome the fiscal obstacles facing the City.

Respectfully,

David A. Hales

The City of Bloomington

General Information

The City of Bloomington, incorporated in 1856, is a home rule unit of government under the 1970 Illinois Constitution. The City of Bloomington is located in the heart of Central Illinois, approximately 125 miles southwest of Chicago, 155 miles northeast of St. Louis, and 64 miles Northeast of Springfield, the State Capital. The City of Bloomington is the County Seat of McLean County, the largest county in Illinois (approximately 762,240 acres). The results of the 2010 Census shows the City now has a population of 76,610 citizens.

History

Prior to the 1820s, the area of today's Bloomington was at the edge of a large grove enjoyed by the Kickapoo people before the first Euro-American settlers arrived in the early 1820s. Springing from the settlement of Keg Grove, later called Blooming Grove, Bloomington was named as county seat on December 25, 1830, when McLean County was created. When the County of McLean was incorporated a county seat was established; however, the legislation stated the site of Bloomington would be located later. James Allin, who was one of the promoters of the new county, offered to donate 60 acres of his own land for the new town. His offer was accepted and Bloomington was laid out. Its lots were sold at a big party on the 4th of July 1831. At this time there were few roads, but rich soils brought new farmers who began commerce by conducting their business in the newly formed county. People came from all over to trade and do business at the town's center, known today as Downtown Bloomington, including Abraham Lincoln who was working as a lawyer in nearby Springfield. In 1856, the City of Bloomington incorporated.

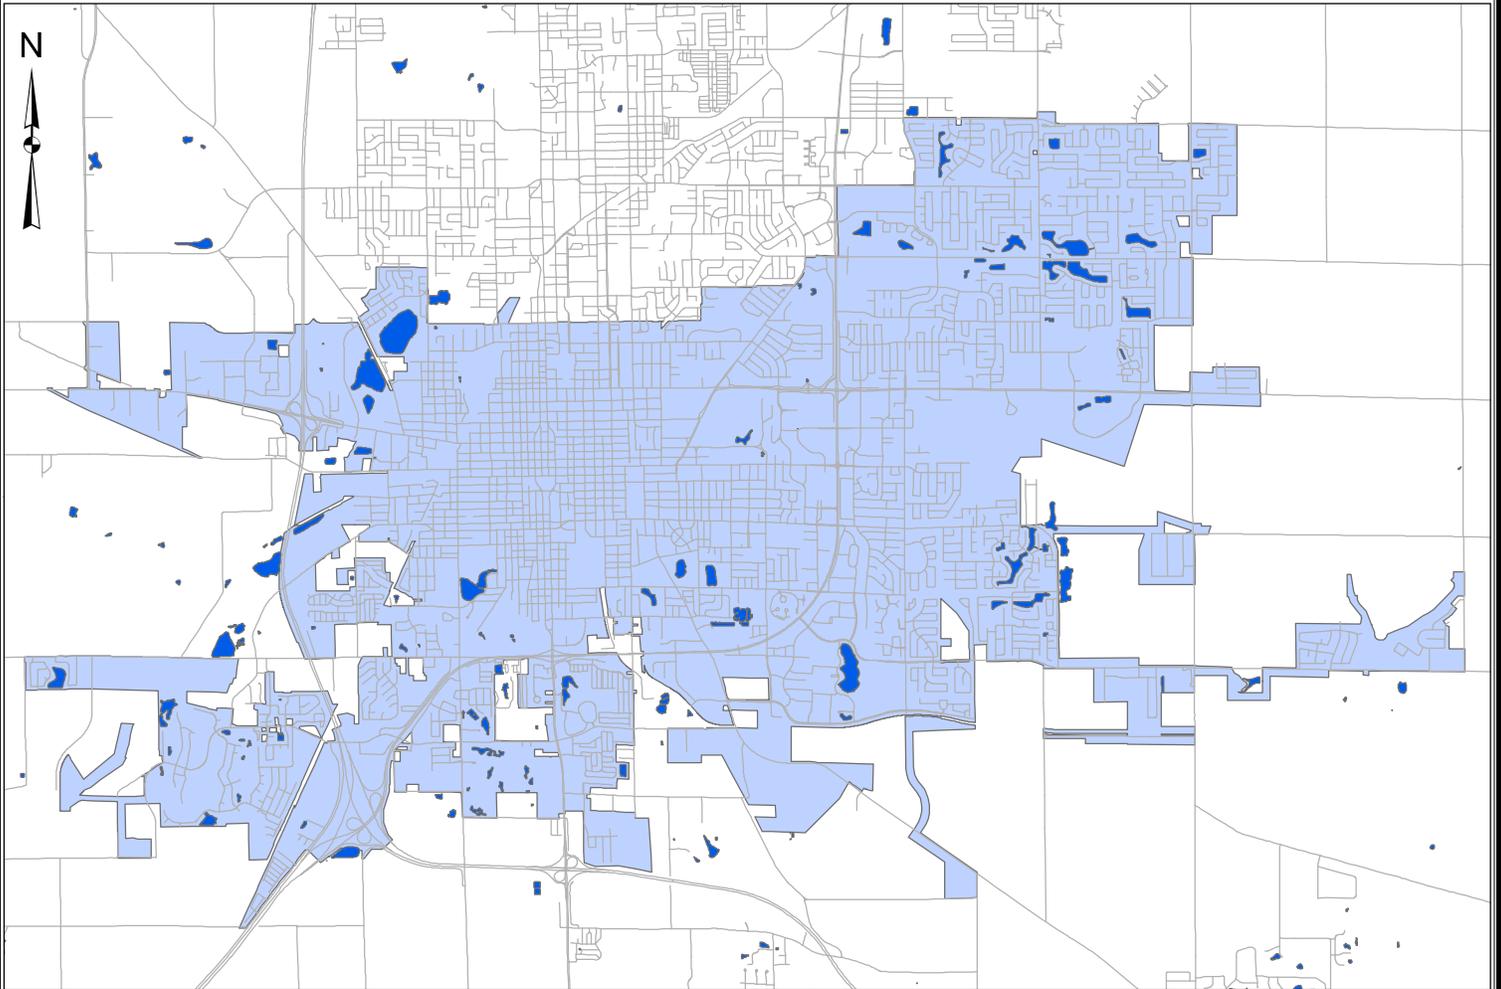

City Organization

The City is governed by a City Council elected on a non-partisan basis composed of nine Council members and a Mayor. The City Council is responsible to enact ordinances, resolutions, and regulations which govern the City, adopt the annual budget, as well as appoint members of various statutory and ordinance boards. The City's manager is responsible to carry out the policies and ordinances established by City Council, oversee the day-to-day operations of the City, and appoint the department heads of the City's departments. The Council is elected to four-year staggered terms, while the Mayor is elected to a four-year term. The Mayor is elected at large, the Council members by ward.

Economic Environment

The economic strength of the Bloomington-Normal metropolitan area is well diversified with no single dominating industry, although there are many substantial medium sized business and institutions. Diverse and stable employment sources include State Farm, Illinois State University, Illinois Wesleyan University, Country Insurance & Financial Services, Mitsubishi Motors of America, Bromenn Medical Center, and OSF St Joseph Medical Center. Multiple mid-size and small companies have insulated the Bloomington-Normal economy from severe economic swings that other communities have experienced and this has allowed the community to maintain steady, balanced growth.

Notes: As a home rule unit of local government, the City of Bloomington, Illinois has no statutory tax limit

Overlapping rates are those of local and county governments that apply to property owners within the City. Not all overlapping rates apply to all City property owners, although the county property tax rates apply to all City property owners; the Airport Authority rates apply to the property owners within that Authority's geographic boundaries.

City of Bloomington, Illinois
2015 Budget
Overview of Financial Policies and Strategies

Budgeting and Revenue Management

1. Maintain a diversified revenue structure.
2. Maintain a General Fund balance 10 to 15% of expenditures.
3. Maintain a balanced General Fund budget (i.e., expenditures less than or equal to revenues) except for planned drawdowns of the fund balance when the fund balance exceeds the target expressed in item 2 above.
4. The budget of a fund shall be considered "**balanced**" if the fund's budgeted expenditures for the year do not exceed the total of its budgeted revenues and unreserved, undesignated fund balance at the beginning of the fiscal year.
5. Contribute to the Illinois Municipal Retirement Fund, Bloomington Firefighters' Pension Fund, and Bloomington Police Pension Fund the full amounts recommended each year by independent actuaries for employer contributions so as to ultimately achieve a funded ratios as required by statute or local ordinance.
6. Impose moderate annual water and sewer rate increases so as to avoid large increases at irregular intervals.
7. Update the five-year Capital Improvement Plan on an annual basis.
8. Budget for items that will be capitalized for financial reporting purposes in distinct expenditure accounts to facilitate the preparation of the Comprehensive Annual Financial Report.

Debt Management

1. Limit the period during which debt is outstanding to a time period not greater than the useful life of the asset financed by the debt.
2. In General, for debt issued after 2009, the City will strive to maintain a debt structure under which 50% of the outstanding principal will be repaid within ten years.
3. Sell bonds through competitive, rather than negotiated, sales whenever possible.
4. To provide assistance in debt issuances, the City will select a financial advisor and/or investment banker and bond counsel on a competitive basis. These advisors will be retained for several years to provide continuity and allow these professionals to develop an understanding of the City's needs. The City will abide by the Municipal Security Rulemaking Board (MSRB) standards in selecting a financial advisor.
5. The City will follow a policy of full disclosure on every financial report and bond prospectus (Official Statement), voluntarily following disclosure guidelines provided by the Governmental Finance Officers Association unless the cost of compliance with the higher standard is unreasonable.
6. Consider the refunding of outstanding debt when a goal of at least a 4% net present value savings can be obtained.

Cash Management and Investments

1. Require that all bank deposits not insured by the Federal Deposit Insurance Corporation be collateralized with high-quality securities having a market value of 102% of the underlying deposits.
2. Deposit on-hand cash no later than the next business day.
3. Maintain liquidity adequate to promptly pay financial obligations.
4. Purchase only those investments allowable under the Illinois Public Funds Investment Act.
5. Place all investment securities with a third-party custodian for safekeeping.
6. Earn a market rate of return on investments. The benchmark for short-term investments is the three-month Treasury Bill.

Purchasing

1. Conduct a formal competitive bidding process for purchases in excess of \$10,000.
2. Conduct an informal competitive quotation process for purchases in excess of \$5,000 up to \$10,000.
3. Obtain City Manager approval for all proposed purchases in excess of \$10,000.
4. Obtain City Council approval for all proposed purchases in excess of \$25,000.
5. Use purchasing credit cards for small-dollar purchases wherever possible.

Accounting and Financial Reporting

1. Issue a Comprehensive Annual Financial Report within 180 days of the end of each fiscal year that complies with generally accepted accounting principles.
2. Capitalize building improvements, land improvements, and infrastructure with a purchase price of \$100,000 or more. Capitalize vehicles, machinery, furniture, and equipment with a purchase price of \$5,000 or more.
3. Controlled non-capital items (e.g., police weapons, audio-visual equipment) will be physically inventoried as required by law or as directed by the responsible department head, but shall not be inventoried less frequently than once each year.

Interim Financial Reporting:

1. The Finance Department provides the City Council and City Management a monthly financial report that illustrates the following information:
 - Financial summary of all fund activity;
 - Detailed information on the General Fund year to date budget to actual performance by department;
 - Detailed information on major revenue as compared to the budget expectation; and
 - Detailed information on the City's investment portfolio.

LONG-TERM FINANCIAL PLAN

The City of Bloomington's long-term financial plan is closely tied to the budget process. Annually the City develops a 5 year budget for operating and capital. The first year of this budget, after revisions, is the budget that the City Council adopts and the City Staff implements on the citizens and City Council behalf. The 4 (future or out years) of the budget serve as a planning process for operating and capital expenditures with staffing, capital assets and projects on the radar for the future. The City has developed a 10 year fleet replacement plan. This is revised yearly as is vehicle replacement priority, other options such as electric vehicles and cost. The City is developing a 20 year plan for major Capital Projects. These include streets, parks, water mains, sewer mains and storm water management. This plan allows Council to prioritize future needs with funds that are expected to be available. This in turn allows staff to identify available federal or state grants and future bond issues or bond refinancing which provide an additional option to fund Capital Projects. The City's Strategic Plan, a long term planning document runs through 2025. The City revisits the Strategic Plan each year to help develop a yearly Action Plan. There are six goals in the City's Strategic Plan. This plan was unanimously approved by the City Council on January 15, 2010. The Strategic Plan is tied to the basis of long-term plan, budgeting and daily operations. The goals include what they mean to you as a citizen, objectives, and challenges and opportunities.

Strategic Plan

Goal 1: Financially Sound City Providing Quality Basic Service

Goal 2: Upgrade City Infrastructure and Facilities

Goal 3: Grow the Local Economy

Goal 4: Strong Neighborhoods

Goal 5: Prosperous Downtown Bloomington

Goal 6: Great Place to Live-Livable, Sustainable City

More information on the City of Bloomington's Strategic Plan is accessible through the City website. The path to the Strategic Plan is: [**http://www.cityblm.org/index.aspx?page=426**](http://www.cityblm.org/index.aspx?page=426)

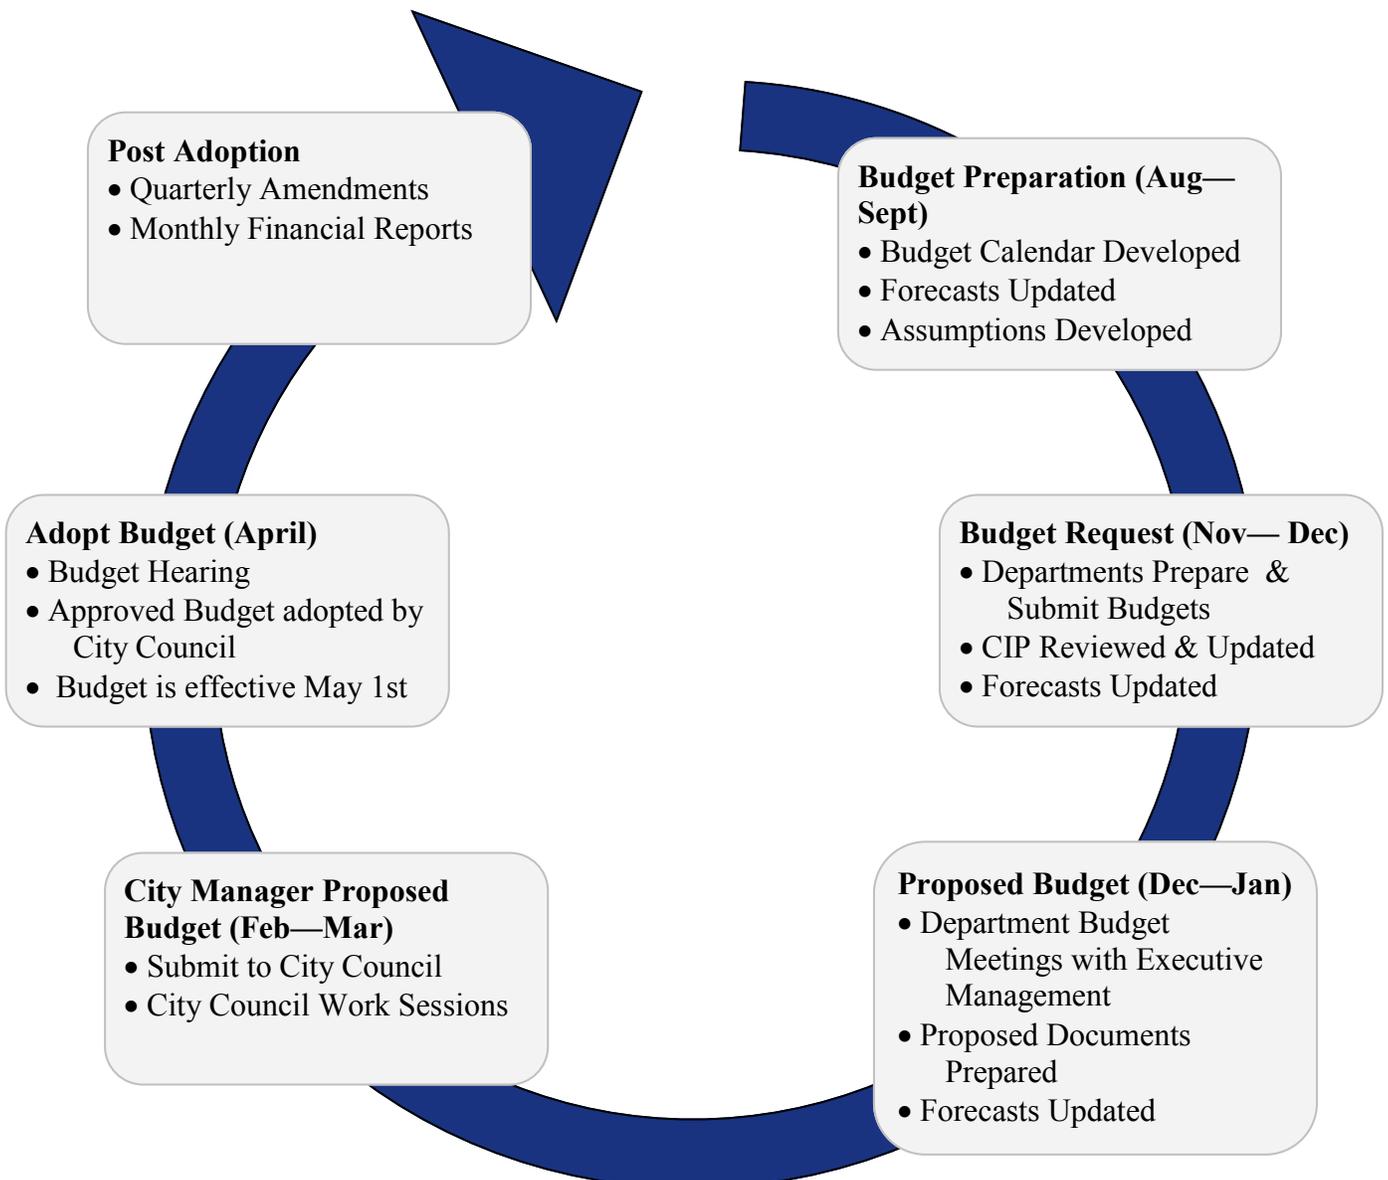

The City of Bloomington's FY 2015 Action Plan is located in this budget document.

City of Bloomington, Illinois

2015 Budget

Budget Process

Background - The City of Bloomington adopts a legally binding annual budget in accordance with Chapter 65 of the Illinois Compiled Statutes. The City's Fiscal Year runs from May 1st to April 30th. The City's budget serves as a roadmap for the fiscal year's expenditures and reflects the goals and priorities of the City's elected officials. The budget is formulated with the aid, support and input of the Citizens of Bloomington, City staff and various Boards and Committees. The City's Budget process begins in August with the formation of a budget calendar and ends in April with the final budget adoption. Formulation of the budget is a critical and difficult decision. The process involves analyzing citizen input and data, projecting available revenue sources, identifying priorities, allocating resources and expenditures, reviewing City performance data, negotiating and deliberating department budgets and establishing the fees, charges and taxes necessary to provide adequate levels of services to the Citizens of Bloomington.

Budgetary Control - The City maintains budgetary control throughout the year by encumbrance accounting. All purchase orders and contracts are entered into the City's Financial System which shows the dollar amount entered as a commitment versus the current year budget. This allows departments to determine the budget dollars available throughout the fiscal year. Open encumbrances at year end are reported as assigned fund balances. The level of budgetary control is at the fund level.

Budget Amendments – The annual budget may be amended by a two-thirds vote of the City Council. On a quarterly basis, budget staff will prepare an itemized register of recommended budget amendments. Council must vote to amend the operating budget if the following circumstances exist within any fund: increase in personnel, increase in the overall expenditure of the fund, or a new source of revenue is identified.

Balanced Budget - The City's budget is considered to be balanced if the proposed expenditures do not exceed the available resources, including proposed revenue and fund balance.

Legal Debt Limit - The City of Bloomington is as Home Rule form of government. Under the Illinois Revised Statutes, Home Rule governments may issue notes in excess of any statutory limitation and they shall not reduce the debt incurring power otherwise authorized for any such unit of government. **Thus, the City of Bloomington has no statutory debt limit.**

Fund Balance - The difference between revenues and expenditures reported within a fund.

CITY OF BLOOMINGTON RATES

Current Sales Tax Rate within City Corporate Limits – Increased last in FY2009 local portion by .25%.

City Water Rate

Inside the City-per month

May 1, 2014 \$4.01 per 100 cubic feet for first 2,300 cubic feet
 \$3.87 per 100 cubic feet for next 11,700 cubic feet above 2,300 cubic feet
 \$3.42 per 100 cubic feet for next 486,000 cubic feet above 14,000 cubic feet
 \$2.69 per 100 cubic feet for over 500,000 cubic feet

Outside the City-per month

May 1, 2014 \$9.06 per 100 cubic feet for first 2,300 cubic feet
 \$8.86 per 100 cubic feet for next 11,700 cubic feet above 2,300 cubic feet
 \$7.75 per 100 cubic feet for next 486,000 cubic feet above 14,000 cubic feet
 \$6.12 per 100 cubic feet for over 500,000 cubic feet

Monthly Service Charge		
5/8 x 1/2" meters	\$1.25	\$2.75
5/8 x 3/4" meters	\$5.00	\$6.50
3/4" meters	\$6.00	\$7.50
1" meters	\$8.00	\$10.00
1.5" meters	\$10.50	\$13.00
2" meters	\$16.00	\$20.00
3" meters	\$28.00	\$39.00
4" meters	\$46.00	\$66.00
6" meters	\$92.00	\$131.00
8" meters	\$146.00	\$196.00
<i>(City Code Ch. 27 Sec. 27) 7.48 Gallons = 1 cubic foot</i>		

Fire Protection Charges

Effective January 1, 2012 the monthly rate for private fire protection, in the form of a fire booster pump, sprinkler system, private fire hydrants or any other fire suppression equipment connected to the City’s water system shall be charged the rate of \$6.80 per inch, or fraction thereof rounded to the next highest inch, of fire service connection. Fire suppression systems that utilize a combined domestic and fire service line shall be calculated using the size of the combined line connection at the water main for determining the proper charge.

City Sewer Rate-per month

May 1, 2014 \$1.60 per 100 cubic feet
Minimum monthly bill is \$1.50

Bloomington-Normal Water Reclamation District

May 1, 2014 \$2.022 per 100 cubic feet
Minimum monthly bill is \$5.40

Storm Water Rate-per month

May 1, 2014

Single Family Residential:

Gross area less than or equal to 7,000 square feet	\$2.90/month
Gross area greater than 7,000 square feet and less than 12,000 square feet	\$4.35/month
Gross area over 12,000 square feet	\$7.25/month

Parcels other than Single Family Residential:

Charge per Impervious Area Unit (IAU)	\$1.45/month
---------------------------------------	--------------

Parcels less than 4,000 square feet will be charged a flat rate equivalent to (4) IAUs=\$5.80/month

Garbage Collection Rate-per month

May 1, 2014

A new variable rate structure enacted by the City Council on December 9, 2013, produces a more equitable method to charge for solid waste, and it puts the Solid Waste Enterprise Fund on a path toward becoming self-supporting, rather than receiving General Fund subsidies.

Bloomington residents have a choice of 35-, 65- or 95-gallon refuse carts, priced at \$16, \$18 and \$20 per month respectively. In addition, residents will pay \$3.00 per “Pay as you Throw” stickers for each additional bag in excess of their cart. For FY 16, the rates increase to \$16, \$20 and \$23 per month. Also adopted by Council, a \$25 charge for a second bucket loader of bulky waste rather than giving two free.

City of Bloomington, Illinois

Fiscal Year 2015 Budget

Fund Structure

The accounts of the City are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts which comprise its assets, liabilities, reserves, fund balance/net assets, revenues, and expenditures as appropriate.

Funds are classified in the following categories: governmental, proprietary, and fiduciary. Below is a list of funds and a brief description that are included within the City's financial statements. Many funds are composed of multiple divisions (ex. General, Debt Service, Water, etc) and these divisions are consolidated for the purpose of financial statement preparation.

Governmental Funds – are those funds through which most governmental functions typically are financed.

Major Governmental Funds

- General – The General Fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.
- Library – The Library Fund accounts for the tax and other resources used to provide library services to operate the Bloomington Public Library.
- Debt Service – The Debt Service Fund accounts for the servicing of the general long-term debt not financed by a specific source. The Debt Service Fund is composed of the General Bond and Interest Fund, Market Square TIF Bond Redemption Fund, 2004 Coliseum Bond Redemption Fund, and the 2004 Multi-Project Bond Redemption Fund.

Non-Major Governmental Funds

- Motor Fuel Tax – The Motor Fuel Tax Fund accounts for the revenue and expenditures related to projects financed by the Motor Fuel Tax funds collected and distributed by the State of Illinois.
- Board of Election – The Board of Election Fund accounts for the tax resources used to provide for the Election Commission expense.
- Drug Enforcement – The Drug Enforcement Fund accounts for police department revenues from drug raids.
- Community Development – The Community Development Fund accounts for the federally funded block grant program designed to assist low and moderate income families and eliminate slum and blight conditions.
- IHDA Grants – The IHDA Grants Fund accounts for the state funded grant program for single family rehabilitation projects for low to moderate income households.

- Park Dedication – The Park Dedication Fund accounts for collections to be used for future park development.
- Capital Improvement – The Capital Improvement Fund accounts for the receipts and disbursements of monies used for the acquisition of capital facilities.
- Capital Lease – The Capital Lease Fund accounts for equipment purchased with proceeds from capital leases.
- Central Bloomington TIF Redevelopment – The Central Bloomington TIF Redevelopment Fund accounts for the construction expense in the tax increment financing district.
- Pepsi Ice Center Capital Project – The Pepsi Ice Center Fund accounts for the construction of the City’s public ice rink.

Proprietary Funds – are used to account for government’s on-going organizations and activities which are similar to and often found in the private sector.

Enterprise Funds – are used to account for those operations that are financed and operated in a manner similar to private business or where the City has decided that the determination of revenues earned, costs incurred, and/or net income is necessary for management accountability.

- Water – The Water Fund accounts for the operation of the City’s water treatment facilities and services.
- Sewer - The Sewer Fund accounts for the operation of the City’s waste disposal activities.
- Storm Water – The Storm Water Fund accounts for the operation of the City’s storm water management activities.
- Solid Waste - The Solid Waste Fund accounts for the activities of operating the City’s Solid Waste Program.
- Abraham Lincoln Parking Facility – The Abraham Lincoln Parking Facility Fund accounts for the activities of operating a parking facility owned by the McLean County Public Building Commission.
- Golf – The Golf Fund accounts for the activities of operating the City’s three golf courses.
- US Cellular Coliseum – The US Cellular Coliseum Fund accounts for the activities of operating the City’s Downtown sports and entertainment facility.

Internal Service Funds – are used to finance and account for services and commodities provided by designated departments or agencies to other department and agencies of the City.

- Casualty Insurance – The Casualty Insurance Fund accounts for the premiums and payments of claims for insurance for the City.
- Employee Group Healthcare – The Employee Insurance and Benefits Fund accounts for the premiums and claims of all covered City employees and their covered dependents and Township employees.
- Retiree Group Healthcare – The Retiree Group Healthcare Fund accounts for the premiums and claims of all covered City retirees and their covered dependents.

Fiduciary Funds – are used to account for assets held on behalf of outside parties, including other governments, or on behalf of other funds within the government.

- J M Scott – The J M Scott Fund accounts for health services, supplies, medical equipment, special nutritional support and health care programs in McLean County for indigent area residents. These costs are funded through a private trust.

Identification of Unbudgeted Funds

The City has a fund which is included in the audited financial statements but is not included in the budget. The Foreign Fire Insurance Board (FFIB) which is considered outside the normal operations of the City.

- 1 Decrease in Home Rule and State Sales Tax are a result of declining revenues through 10 months of FY 2014.
- 2 Tax increases relate to the adopted increase in Utility Taxes, Amusement Tax and Local Motor Fuel Tax combined with General Fund revenue projections.
- 3 Increased intergovernmental revenue relates to Phase 2 of the Locust Colton CSO project loan proceeds.
- 4 Increases in charges for services reflect increased solid waste fees as well as contributions to the self-insurance funds.
- 5 Police realized a slight increase in their violation, penalty and court fines.
- 6 Increase due to budgeting for potential unrealized gains for JM Scott.
- 7 Decreases in miscellaneous revenues relate to one time FY14 bond transactions not recurring in FY15 - \$10 million road resurfacing bond and refinancing the 2003 bonds \$8.7 million.
- 8 Transfers in have decreased based on FY14 budget amendments and a decrease of \$3.1 million in cash to the Capital Improvement fund.

- 1 Major increases in salaries and benefits related to Public Safety, contractual salary adjustments, and the addition of four new staff positions.
- 2 Increases in contractuals are related to increased premiums and projected claims for Workers Compensation and General Liability insurance.
- 3 Major decreases in Capital Improvement Fund relate to \$3.1 million decrease in the General Fund transfer to fund capital projects in FY 2015 and the FY 2014 Revised Budget reflects the \$10 million bond for street resurfacing.
- 4 Increases are from the expansion of the capital lease program to fund capital equipment.
- 5 Reflects the increased funding provided for the Police and Fire pension ordinance.
- 6 FY 2014 included payment to reissue the \$10 million street resurfacing bond.
- 7 Transfers out is decreasing due to less cash being transferred from the General Fund to the Capital Improvement Fund and a one time budget transfer in FY14 for Coliseum financing.
- 8 The majority of the decrease is from Motor Fuel Tax spending less in FY 2015 in anticipation of some larger projects in the next 4 years.

- 1 Budgetary Fund Balance is almost a cash balance but does account for the timing of short term receivables and payables.
2 May includes both current year budgeted expenditures and prior year expenditures related to carryforward encumbrances.
A Timing difference in grant proceeds.
B City Council raised Solid Waste fees in late FY14 on a phased in basis; further analysis will be done now that the program has been implemented and more data is available.
C A fiscal year end budget amendment will be proposed to eliminate the negative fund balance.
Z The difference between proposed revenues and expenditures is a planned use of fund balance reserves.

City of Bloomington, Illinois
FY 2015 Budget Fund Balance Notes
for projected changes of 10% or higher

- **Motor Fuel Tax** – The fund balance is increasing as the City’s prepares for larger capital projects in future fiscal year.
- **Market Square TIF** – This fund is in the process of being closed.
- **2004 Coliseum Bond Redemption Fund** – The fund balance will decrease as anticipated and is sufficient to cover the following fiscal years bond payment.
- **2004 Multi-Project Bond Redemption Fund** – The fund balance will increase in order to cover the following fiscal years bond payment.
- **Central Bloomington TIF** – This fund balance is in the process of being closed.
- **Water Fund** – The fund balance will decrease as budgeted for water capital projects.
- **Sewer Fund** – The fund balance is planned to decrease to help fund sewer capital projects. A sewer rate study is proposed for FY 2015.
- **Storm Water** – Fund balance will decrease to help fund basic operations. The storm water rate has not increased since its inception in 2004. A storm water rate study is proposed for FY 2015.
- **Solid Waste** – Fund balance may continue to be negative until FY17 when the full phase of solid waste fee increases takes effect.
- **Abraham Lincoln Parking Deck** – Fund balance is expected to increase as proposed revenue for monthly rentals are maximized.
- **Golf Course Fund** – Fund balance is expected to decrease due to increased capital needs. A policy decision will need to be made by the City Council in regards to how the Golf funds should be funded. A year end proposed budget amendment in FY 2015 may be presented to City Council to transfer funds from the General Fund to offset any remaining negative balance.

- Revenue Comparison by Department/Fund
- Statement of Adopted Property Tax Levy

Major Revenue Analysis

The total projected revenue collections for FY 2015 are \$172.5 million, including inter-fund transfers and city contributions to the Health Funds and Casualty Insurance Fund. This section of the document provides explanations of each of the City's sixteen major sources of revenue for the FY 2015 Adopted Budget across all City funds. These revenues total \$116.4 million, which is 67.5% of total revenues. The remaining 32.5% are miscellaneous revenues which include charges for services, federal and state grants, miscellaneous fees, and reimbursements for City expenditures. The City projects those on a detailed level; however no detail discussion is provided in the budget document for practical reasons. The following table summarizes major revenue sources:

Source	FY 2013 Actual	FY 2014 Projected	FY 2015 Adopted Budget	Percentage to total revenue
Property Tax Levy*	\$ 23,733,551	\$ 23,318,742	\$ 23,369,066	13.55%
State Sales Tax	\$ 14,716,743	\$ 13,643,809	\$ 13,700,672	7.94%
Home Rule Sales Tax*	\$ 15,357,311	\$ 15,360,725	\$ 14,647,149	8.49%
Income Tax	\$ 6,904,133	\$ 7,529,874	\$ 7,529,874	4.37%
Food & Beverage Tax	\$ 4,184,431	\$ 4,163,447	\$ 4,363,447	2.53%
Ambulance Fee	\$ 4,340,753	\$ 4,608,255	\$ 5,022,998	2.91%
Hotel & Motel Tax	\$ 1,929,584	\$ 1,680,000	\$ 1,759,003	1.02%
Franchise Fee	\$ 1,975,390	\$ 2,020,307	\$ 2,190,809	1.27%
Replacement Tax*	\$ 1,725,839	\$ 1,607,810	\$ 1,857,810	1.08%
Utility Tax	\$ 4,867,329	\$ 4,641,575	\$ 6,132,913	3.56%
Total Major Revenues	\$ 79,735,064	\$ 78,574,544	\$ 80,573,741	46.71%
Motor Fuel Tax	\$ 2,214,382	\$ 2,246,766	\$ 2,207,047	1.28%
Water Utility	\$ 16,672,938	\$ 16,625,000	\$ 16,800,000	9.74%
Sewer Fee	\$ 5,343,417	\$ 5,380,066	\$ 5,253,515	3.05%
Storm Water Fee	\$ 2,815,435	\$ 2,744,090	\$ 2,819,213	1.63%
Solid Waste Refuse Fee	\$ 4,868,757	\$ 4,916,915	\$ 5,906,000	3.42%
Golf Operations	\$ 2,550,174	\$ 2,948,763	\$ 2,877,700	1.67%
Total Major Revenue	\$ 114,200,166	\$ 113,436,144	\$ 116,437,216	67.50%
Other Revenue	\$ 60,095,368	\$ 72,712,440	\$ 56,067,430	32.50%
Total All Revenues	\$ 174,295,534	\$ 186,148,584	\$ 172,504,646	100.00%

Note: The City adopted two new general operations taxes: amusement tax and a local motor fuel tax although neither is considered a major revenue a narrative has been included for reference.

Revenue Projection Approach -All revenue accounts are projected by the Finance Department and carefully reviewed by the City Budget Review Committee. The Committee consists of the City Manager, Deputy City Manager, Finance Director, Budget Manager, Chief Accountant, other City Accountants and the Budget Analyst. The City projects annual revenues five years into the future through the use of an analytical and objective process.

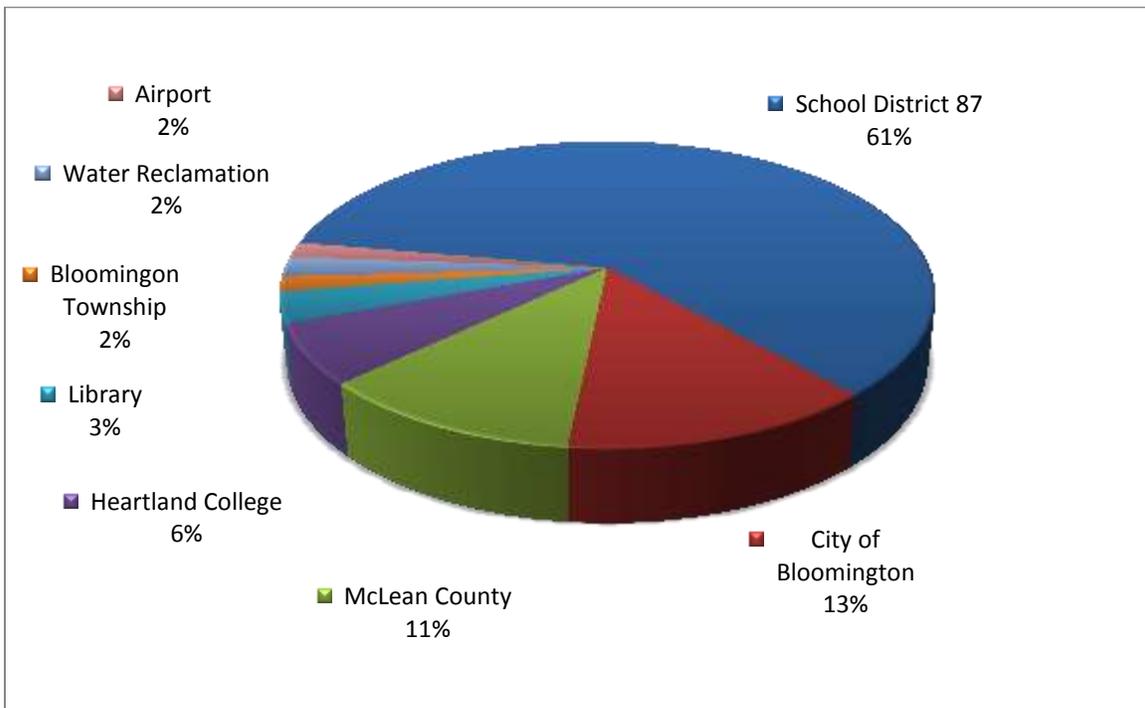

This process includes the examination of local, state (Illinois Municipal League) and national economic forecasts in addition to legislative issues and rate changes when applicable. The City closely reviews historical data and trends, leading indicators and specific performance of retail, including any new businesses or entities that may have opened or closed during the previous budget year. All City revenues are estimated in a conservative manner. The Finance Department reviews revenue and expense data on a monthly basis for adjustments that may need to occur during the fiscal year.

Property Tax Revenue

Background – There are eight overlapping tax districts that levy property taxes on real property within the City of Bloomington. The following entities levy property taxes in this area: School District 87, the City of Bloomington, McLean County, Heartland Community College, the Bloomington Library, Bloomington Township, the Bloomington Normal Water Reclamation District, and Central Illinois Airport Authority. These districts approve and file levies with the McLean County Clerk who applies the appropriate tax rate per district.

The following chart depicts the percentage of the total property tax received by each taxing district.

2013 Tax Levy for all Taxing Districts – Estimates

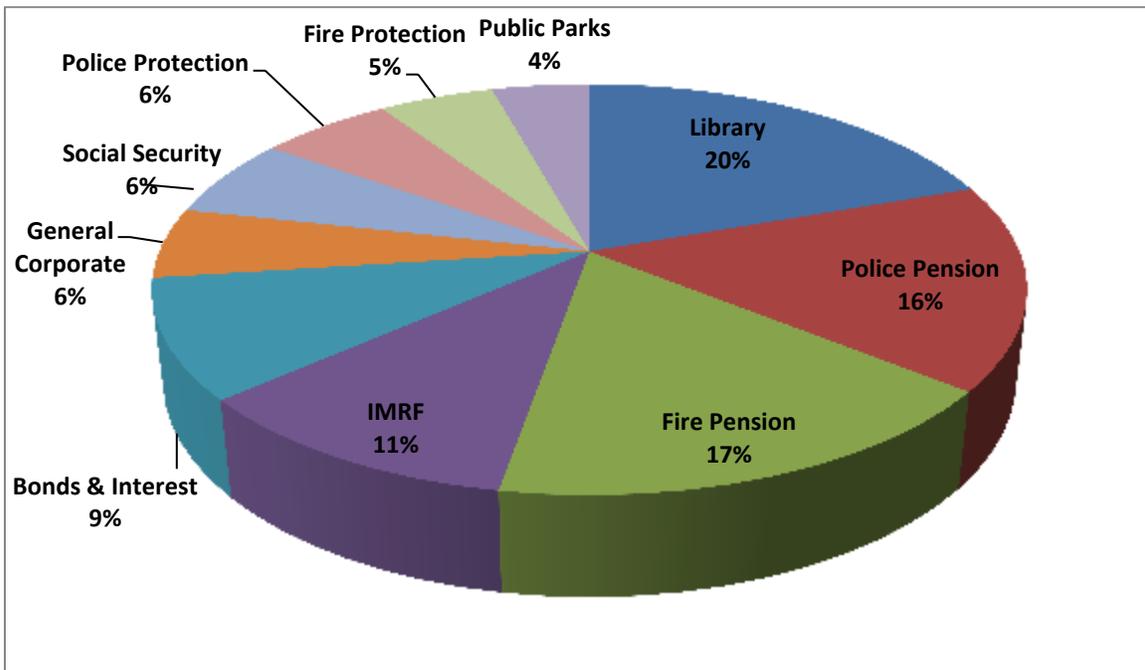

Bloomington's 2013 Adopted Property Tax Levy

The tax rate resulting from the 2013 adopted tax levy is 1.31932 which is a .24% increase in the property tax rate from the 2012 levy. The council approved a \$23,219,066 for the 2013 levy which incorporates a \$33,233 increase in the overall property tax levy to fund Library's FY 2015 budget request. A redistribution of the remaining components of the levy enables the city to increase its pension funding for both police and fire pension plans in accordance with the new Pension Funding Ordinance without increasing the overall levy; however the street resurfacing program is reduced.

Property taxes are used for a variety of purposes and the amounts levied are governed by various policies. In the 2013 adopted tax levy, pension funding needs to account for 44% of the total City and Library Tax Levy. This amount is based on actuarial recommendations for each of the three Pension Funds. The Library Levy comprises 20% of the total Levy and serves as the primary revenue source for the Library. Bond and Interest expenditures are 9% of the total. The remaining 27% is spread throughout the general corporate fund. The graph below shows the amount of the levy adopted by the City Council and how it is allocated to different purposes.

2013 Property Tax Levy
\$23,219,066 or 13% of all City revenues

Water

Background - Revenues generated by the City’s water rates fluctuate due to rate increases, weather conditions, and population growth. The Water Rates collected by the city are comprised of two sources. The first source is a flat fee determined by the size of the meter being used on the property. The second source is a fee for every 100 cubic feet of water used by a resident or business. Water fees help build the Water Fund’s reserves and fund current system maintenance in addition to known future capital intensive projects such as the major building improvements and filter expansion at the Water Treatment Plant, Phase 2 of Locust Colton CSO Elimination, well construction and a significant upgrade to the computer operated system for water processing and monitoring (SCADA). For budgetary purposes, water usage is estimated through deterministic techniques and informed, expert judgments.

(in units of millions)

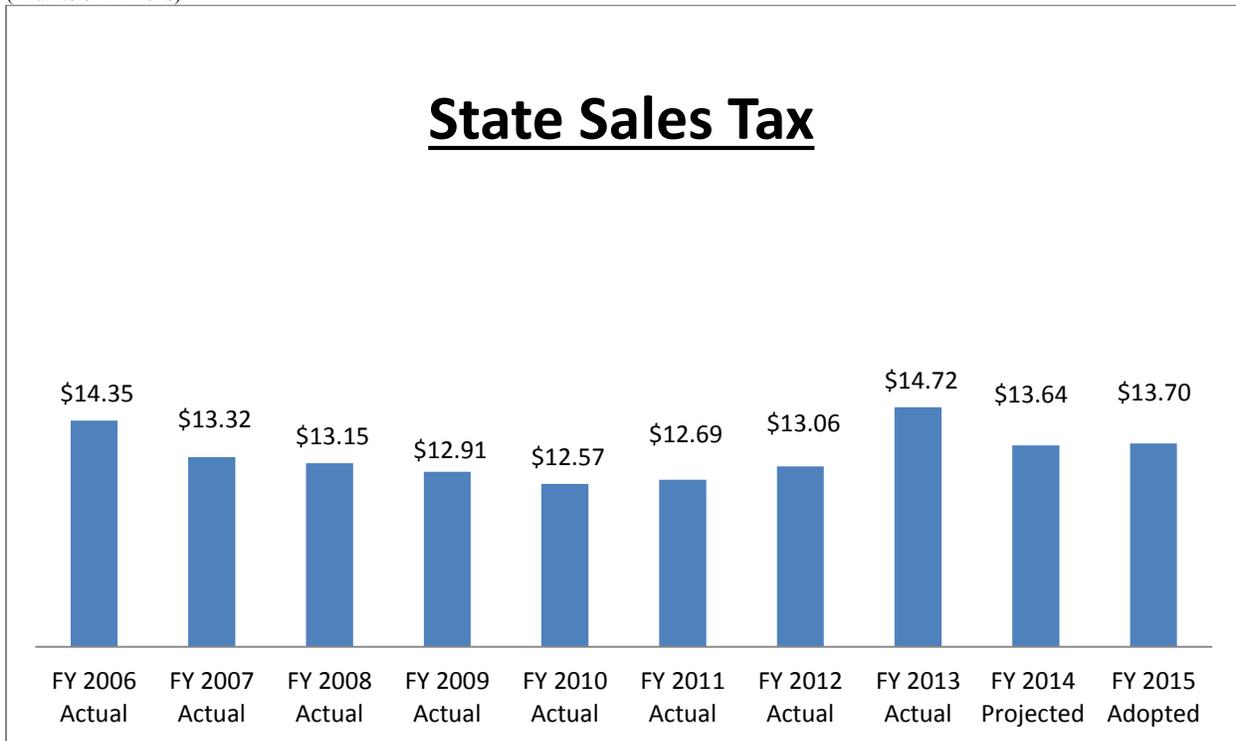

Statutory - Water rates are established through local ordinance. The current water rates were instituted per Ordinance 2008-24 passed by City Council on March 24, 2008.

State Sales Tax

Background – There are four different types of sales taxes: Retailers’ Occupations Act (ROT), the Service Occupations Tax Act (SOT), the Service Use Tax Act (SUT), and the Use Tax Act (UT). The ROT is imposed on Illinois businesses that make retail sales of tangible personal property for use of consumption. The SOT is imposed on service persons who sell or transfer tangible personal property as an incident to performing their service. The SUT is imposed on service persons who sell or transfer tangible personal property as an incident to performing their service and whose supplier is out of state. UT is imposed on the user of tangible personal property purchased at retail. The state portion of the sales tax is 6.25% (with the local HR Sales tax it totals 7.75%) The State Sales Tax is collected by the State and distributed to the City. In FY 2015, this tax is projected to remain flat. State Sales Tax is allocated to the General Fund. This projection is based upon historical trends and economic indicators in conjunction with deterministic techniques and informed/expert judgment.

(in units of millions)

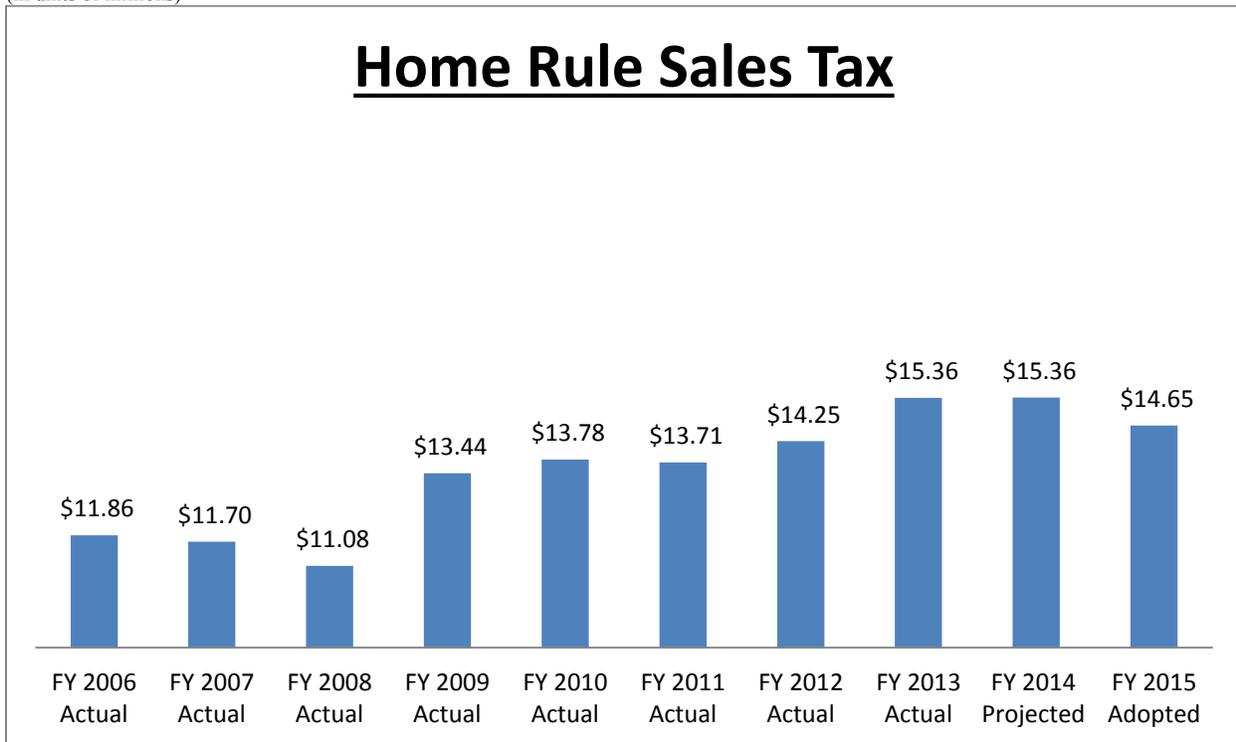

Statutory – The State sales tax established by State Statute is 6.25% overall. The State retains 5%, the City receives 1%, and the County receives 0.25%. **(35 ILCS: 105, 110, 115, 120)**

Home Rule Sales Tax

Background – Home Rule Units (cities with elected officials and more than 25,000 people) have the authority to impose a tax upon all persons who are in the business of selling tangible personal property at retail in their jurisdiction. The Home Rule Sales Tax is collected by the State and distributed to the City. The 1.50% rate is set by the City and is the locally adopted portion of the Sales Tax. Home Rule Sales Tax does not apply to groceries, drugs, and personal property licensed through the Secretary of State's Office (vehicles, campers, trailers, motorcycles, etc.). The last increase approved by City Council took effect in FY 2009. In FY 2015, this tax is projected to remain the same. Home Rule Sales tax is allocated between the City's General Fund, BCPA, and US Cellular Coliseum Fund. This projection is based upon historical trends and economic indicators in conjunction with deterministic techniques.

(in units of millions)

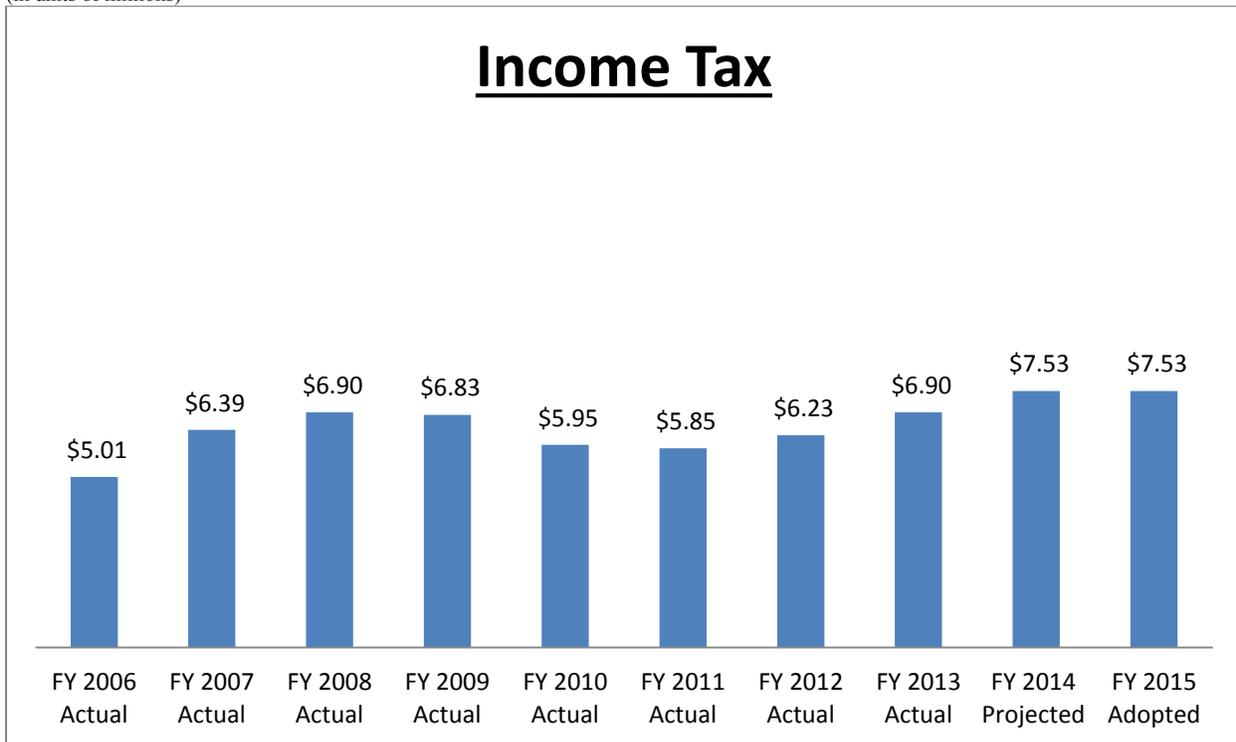

Statutory – The corporate authorities of a home rule unit (municipality or county) may impose a tax upon all persons who are in the business of selling tangible personal property at retail in their jurisdiction. The City of Bloomington's Home Rule Sales Tax is 1.50% and was established by local ordinance. **(Chapter 39: Article XI)**

Income Tax

Background - The State of Illinois taxes the income of individuals and corporations at the rate of 5% and 7%, respectively, and shares 6% of the net tax collections with cities and counties. The amount each locality receives is based on its population in proportion to the total state population.

(in units of millions)

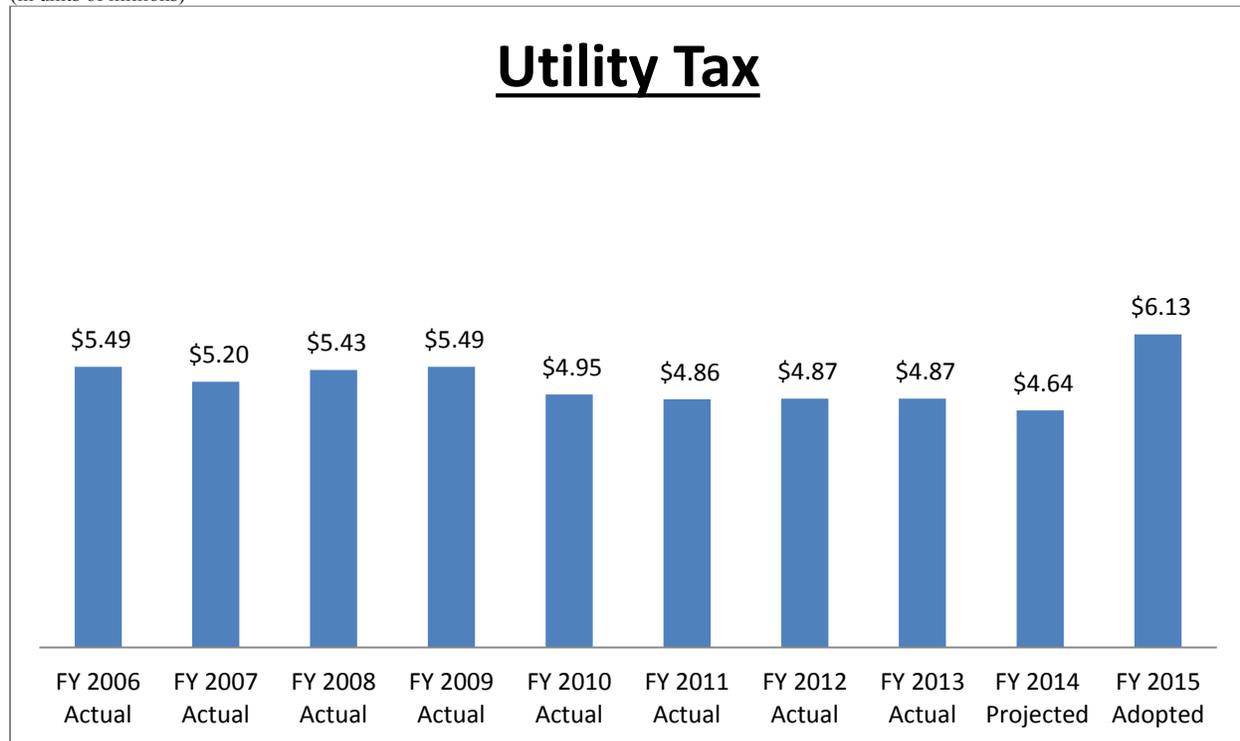

Statutory – (35 ILCS 5/) Illinois Income Tax Act

Utility Taxes

Background – The City’s utility taxes are broken into four components: Natural Gas, Electric, Telecommunications, and Water. Over the past decade, revenues from the utility tax have remained flat. In order to generate a dedicated revenues stream for the city’s pension funds, a rate increase was approved by the City Council on April 28, 2014. The increased revenue generated by this rate adjustment is earmarked specifically to pay for Police and Fire pensions. Due to the logistics of each utility company the City has projected a partial increase in revenues of \$1.7 million in FY 2015 with an additional \$1.0 million in FY 2016 when the new rates are in effect for a full year.

(in units of millions)

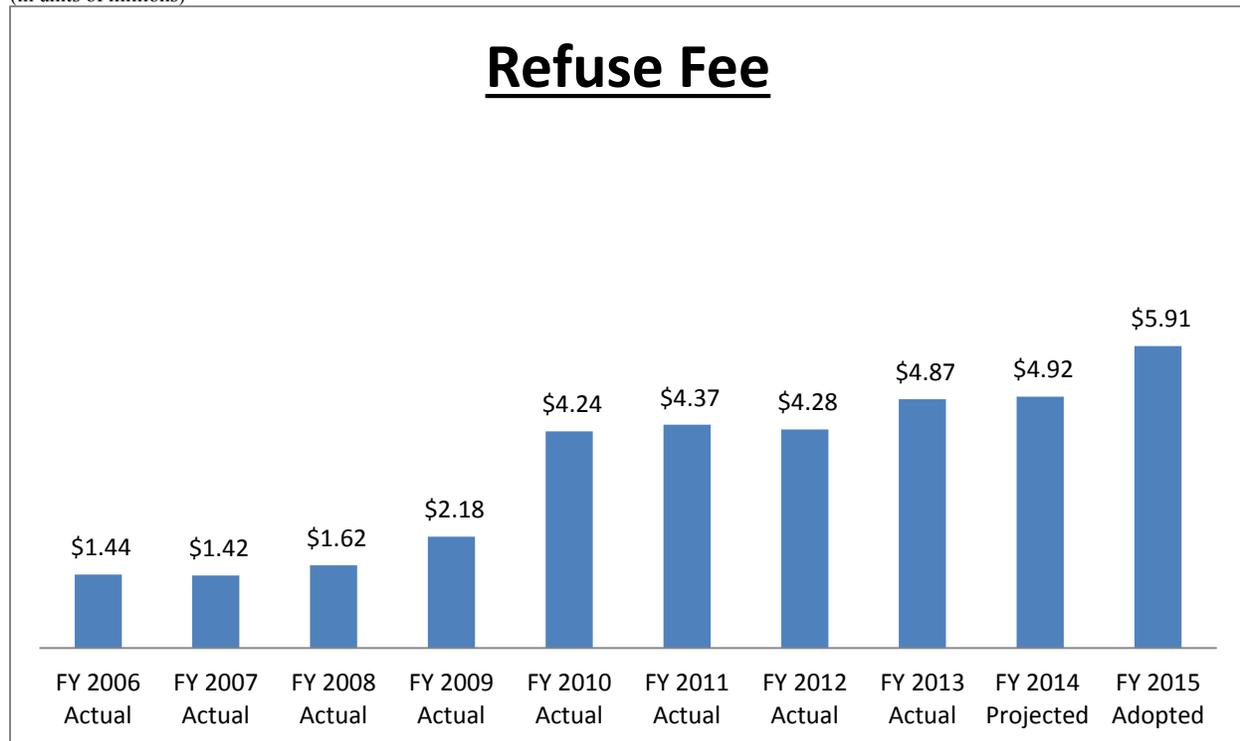

Statutory – The City’s utility tax rates are set by City ordinance. (**Chapter 39: Article II; Article IX; and Article X**)

Refuse Fees

Background – The City’s Solid Waste Program is accounted for within the Solid Waste fund. A new variable rate structure was enacted by the City Council on December 9 2013, (Effective May 1, 2014). Bloomington residents will have the option of choosing from a 35, 65, or 95 gallon cart, priced at \$16, \$18, and \$20 per month respectively, and raise again in FY 2016, to \$16, \$20, \$23. The City is also introducing a ‘Pay as You Throw’ sticker program in FY 2015 that will work supplementary to the carts. There will also be a \$25 charge implemented in FY 2015 on every additional bucket of bulk waste after the first bucket collected. In addition, a low income program was enacted concurrently to rate increases therefore revenue estimates remain subject to change in FY2015.

(in units of millions)

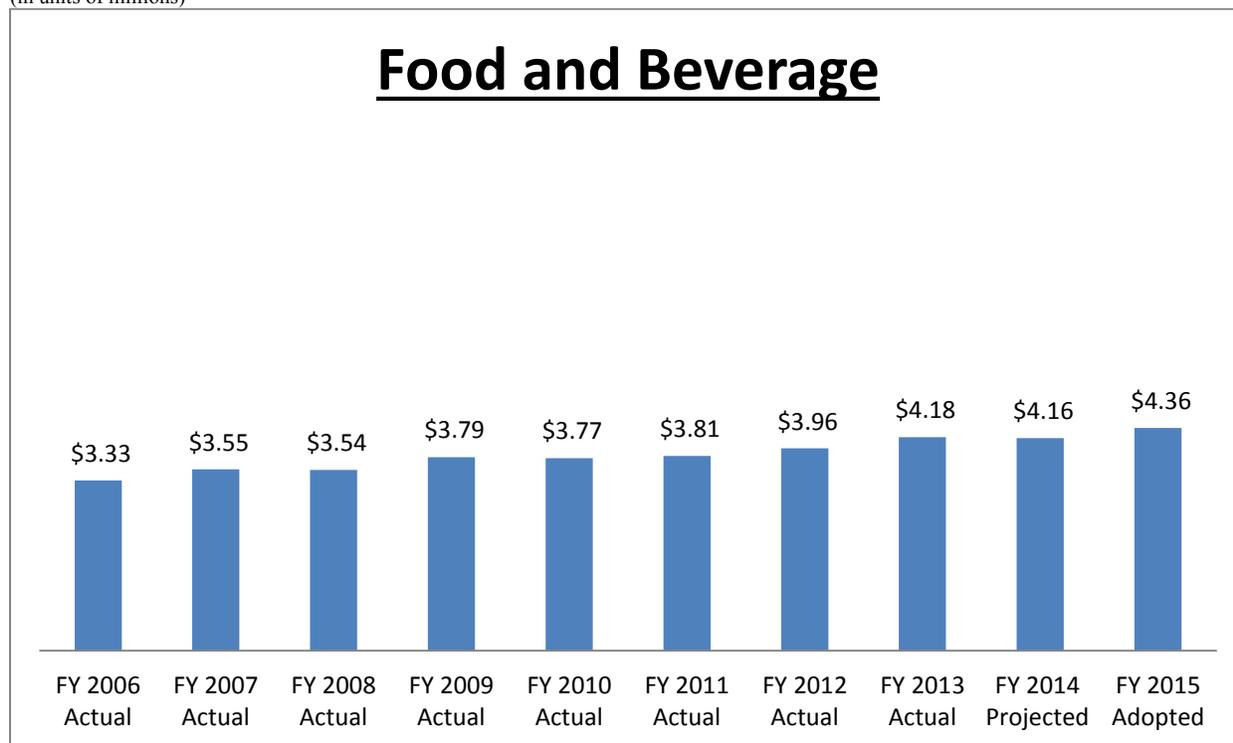

Statutory – The City’s refuse fees are set by City ordinance. (**Chapter 21: Section 301.6**)

Food and Beverage Tax

Background – This 2% tax is imposed on prepared food and beverages served within the City’s corporate limits. Increases and/or decreases within this tax are determined through customer demands at any point in time. The Food and Beverage tax has remained steady over the nine previous years represented in this graph and FY 2015 budget and is projected accordingly. The Food and Beverage Tax is used to offset expenditures within the General Fund.

(in units of millions)

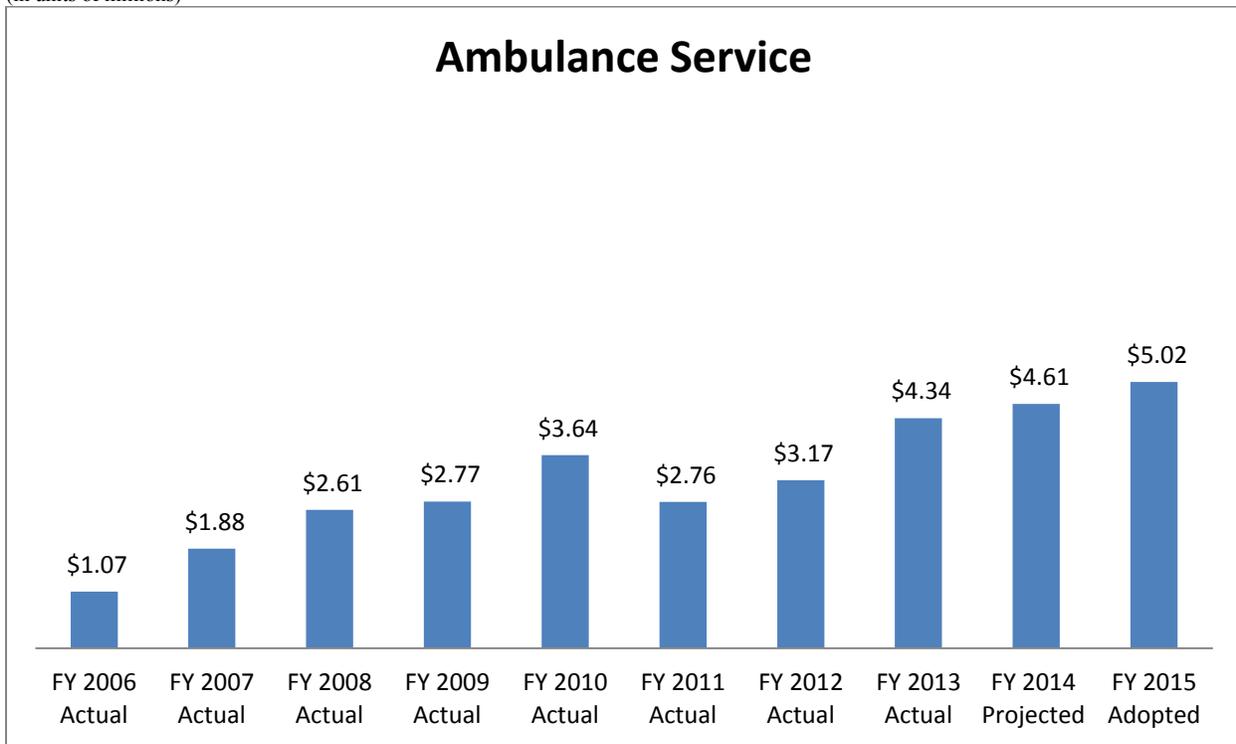

Statutory – The City’s food & beverage tax rates are set by City ordinance. (**Chapter 39: Article XVI**)

Ambulance Service

Background – The City began to provide ambulance service in FY 2006 after the closure of the areas private ambulance service. The City provides basic and advanced life support to Bloomington and invoices for these services. The City does not provide transport services between nursing homes and physician offices. The Ambulance Fee is used to offset expenditures within the Fire Department and increase by 3% annually and are offset by approximately half industry insurance write offs and bad debt expenses.

(in units of millions)

Statutory – The City’s ambulance fees are set by City ordinance. (**Chapter 17: Section 92 Ordinance 2011-28**).

Sanitary Sewer Fees

Background – Revenues from this fee are allocated to the Sewer Fund to support the maintenance and rehabilitation of the City’s sanitary sewer system. Sewer rates have not been increased with consumption flat revenues are not expected to rise. The City’s Master Plan for sewers and storm water management conclude that the City’s effort in sanitary sewer maintenance and rehabilitation should increase substantially. A rate study is recommended to fund capital needs.

(in units of millions)

Statutory – The City’s food & beverage tax rates are set by City ordinance. (**Chapter 37: Article IV**).

Golf Related Revenue

Background – Revenue from these fees are allocated to the Golf Course Fund to support the operations of the three City owned golf courses. The budget for FY 15 will remain relatively flat. Revenue is budgeted through staff expertise and golf trends in Central Illinois.

(in units of millions)

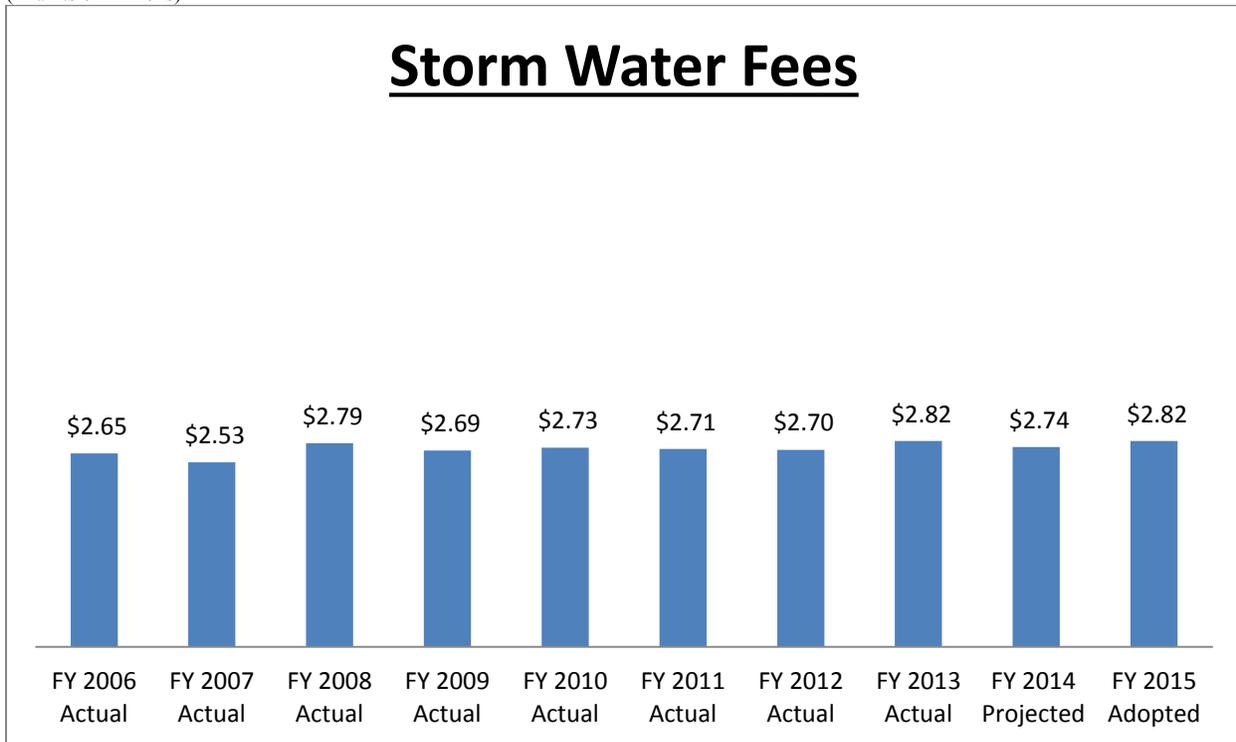

Statutory – Golf rates are examined and reviewed at the end of each season.

Storm Water Management Fee

Background – Revenue from this fee is allocated to the Storm Water Fund to support the maintenance and rehabilitation of the City’s storm water system. The City’s Storm Water fees have not been increased since the program was enacted in FY 2004. The City’s Master Plan for sewers and storm water management conclude that the City’s effort in storm water maintenance and rehabilitation should increase substantially. A rate study is recommended to fund capital needs.

(in units of millions)

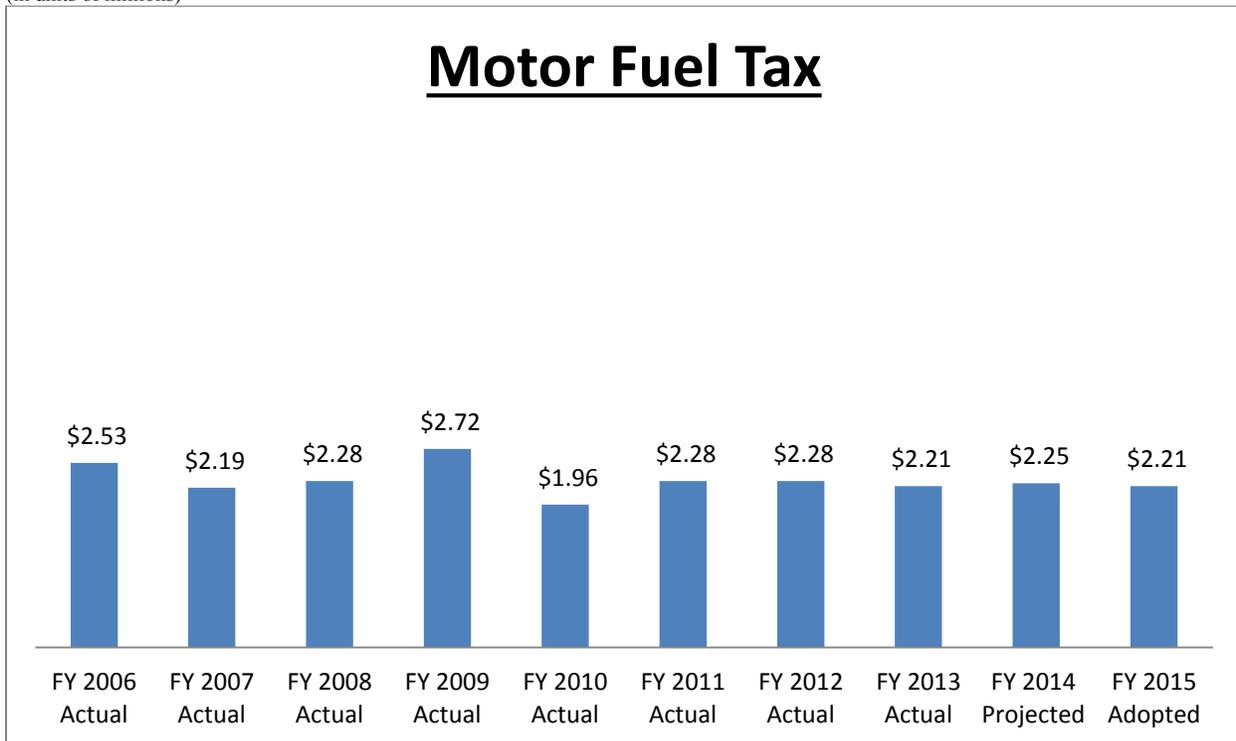

Statutory – In accordance with **Chapter 37 Article V Ordinance No. 2004-23**, there is an established monthly storm water rate.

Motor Fuel Tax

Background – Illinois has imposed a motor fuel use tax on fuel in part, to build and maintain roads and highways. When gasoline is purchased in Illinois, a portion of the sales tax goes to the State of Illinois for distribution into the MFT program. The State divides these tax dollars to cities based upon population. Each unit of local government receives these tax dollars to provide improvements or maintenance to the roadways under their jurisdiction. The tax on motor fuel is 19 cents a gallon and 21 cents a gallon for diesel. Staff incorporates the recommendations of the Illinois Municipal League to project this source of revenue. Municipalities have the local option to add to the Motor Fuel Tax. The FY 2015 budget does not include any local option.

(in units of millions)

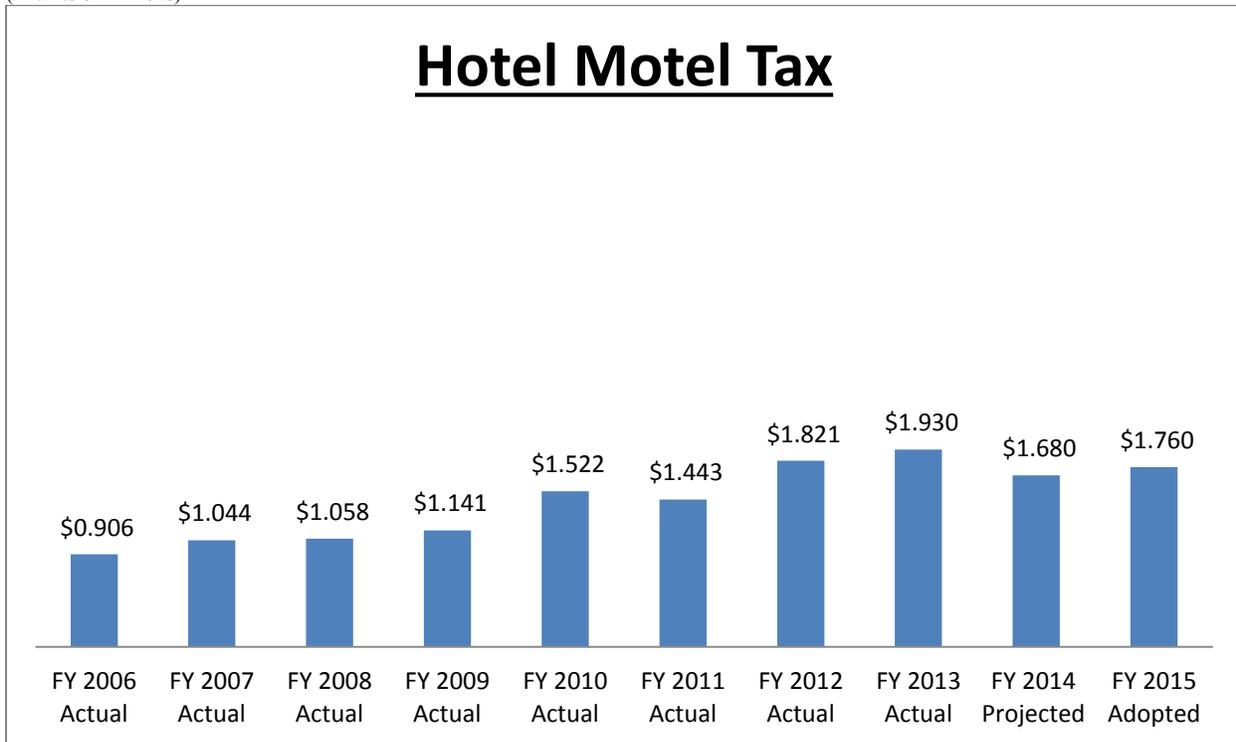

Statutory – Statutory regulations in the Illinois Compiled Statutes can be found at **35 ILCS 505/13a**.

Hotel/Motel Tax

Background – The City of Bloomington has incorporated a 6% Hotel/Motel Tax. The City uses a portion of this tax to fund the Convention & Visitors Bureau (CVB). In FY 2015, the City will contribute \$500,000 to the CVB, which is equal to the funds provided in FY 2014. The CVB uses these funds to attract tourist/travel to our area. The difference between the \$500,000 and total tax collected is utilized to offset expenditures within the General Fund. The FY 2015 budget for hotel/motel tax is based upon analytical trends, staff expertise, and an economic forecast prepared by City staff; it is projected to increase by 5%.

(in units of millions)

Statutory – In accordance with **Ordinance No. 2002-93**, there is an established hotel/motel tax.

Franchise Tax

Background – The City of Bloomington’s current franchise tax rate is 5%. Comcast (cable television), ITV (television), Ameren Illinois (electric), and Corn Belt (electric) currently pay a franchise tax to the City. Comcast and Ameren Illinois disburse this fee to the City on a monthly basis, while Corn Belt disburses the fee to the City each January. The Franchise Tax is used to offset expenditures within the General Fund. The FY 2015 budget for franchise tax is based upon analytical trends, staff expertise, and an economic forecast prepared by City staff; it is projected to remain the same.

(in units of millions)

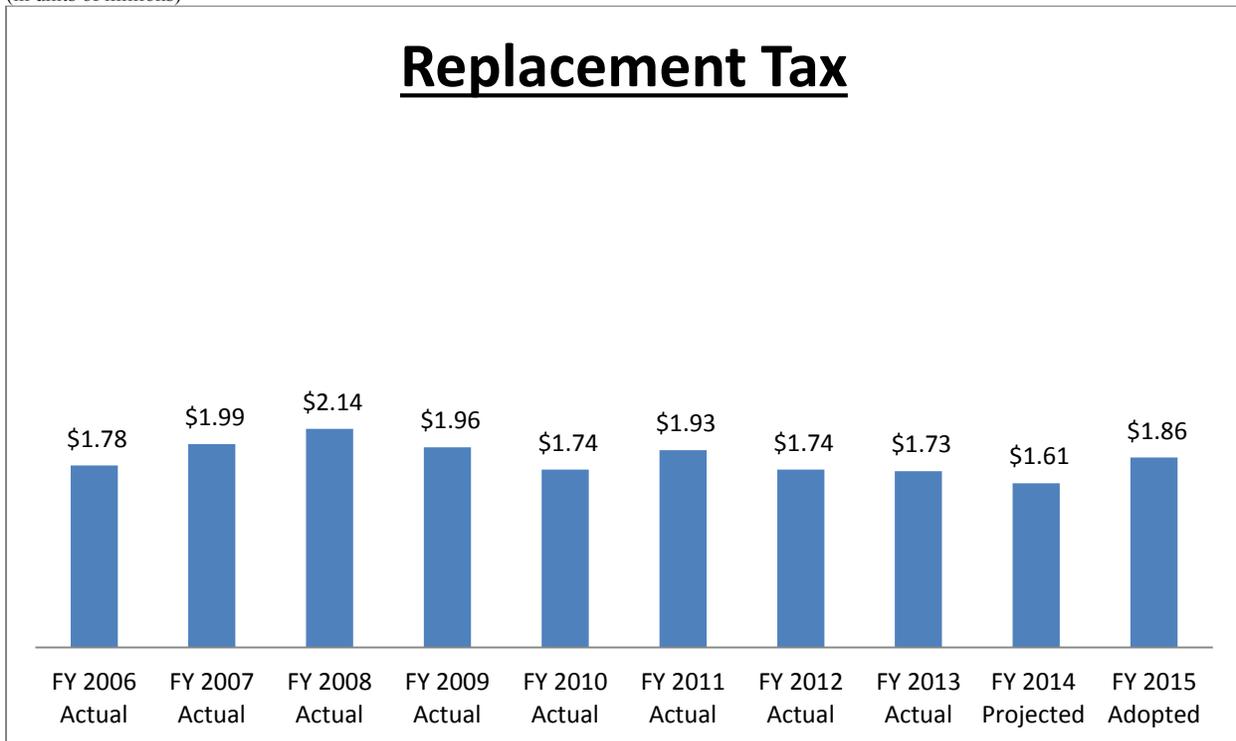

Statutory – The City’s Franchise Tax is set in accordance with State Regulations. **(805 ILCS 5/15.05)**

Replacement Tax

Background - Replacement Taxes are taxes on the income or invested capital of corporations, partnerships, trusts and public utilities. Replacement taxes are collected by the State of Illinois and paid to local governments to replace the money lost by local government when local governments powers to impose a personal property taxes on corporations, partnerships, and other business entities was eliminated on January 1,1971. The Replacement Tax is allocated between the General Fund, Debt Service Fund, Library Fund, and Pension Funds. Staff incorporated the recommendations of the Illinois Municipal League to project this revenue for budgetary purposes.

(in units of millions)

Statutory – The Replacement Tax is set by State Statute (**35 ILCS 5/201**).

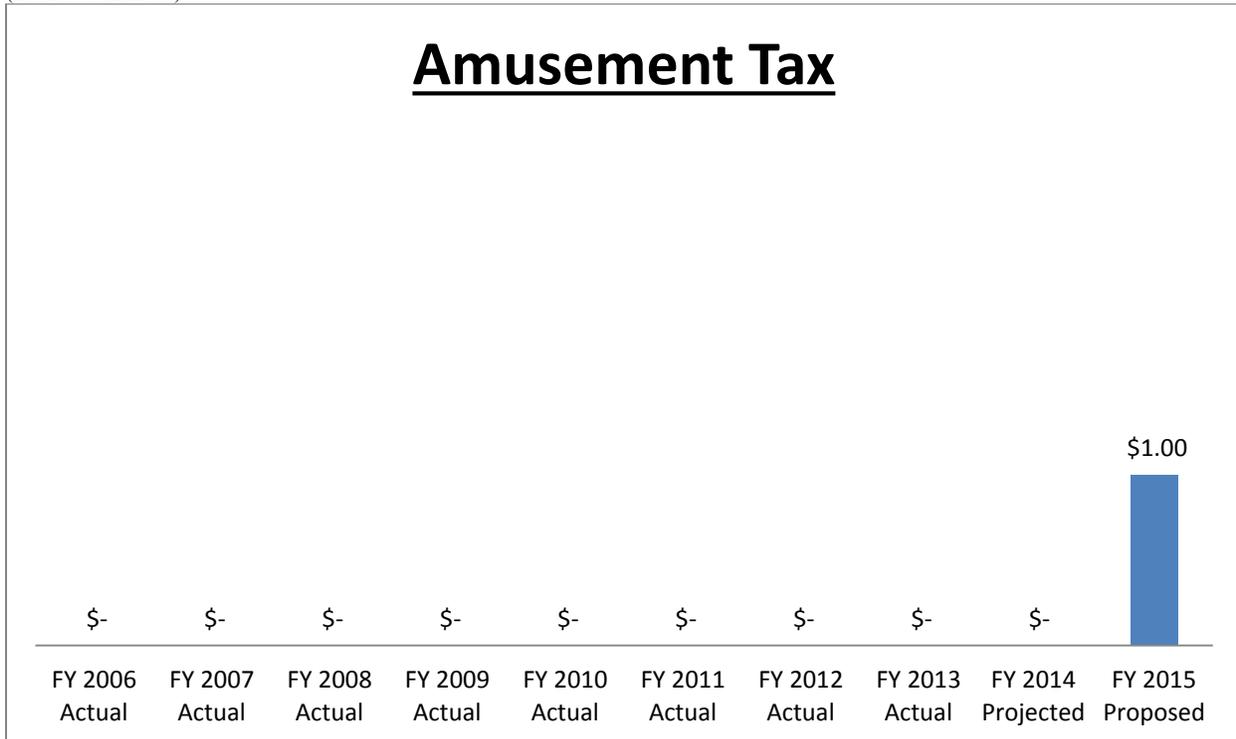

Amusement Tax

Background – On April 21st, 2015 the City adopted a four percent (4%) Amusement levied on exhibitive entertainment, including, but not limited to, sports, any theatrical, dramatic, musical or artistic performance; motion picture shows or movies; video or videotape; digital versatile disk (DVD) rentals; and subscription video programming services (such as Cable TV). With the exception of City of Bloomington owned facilities; standard tax exemptions apply for tax exempt organizations, youth organizations and public or private universities hosting events.

The amusement tax takes effect August 1, 2014.

(in units of millions)

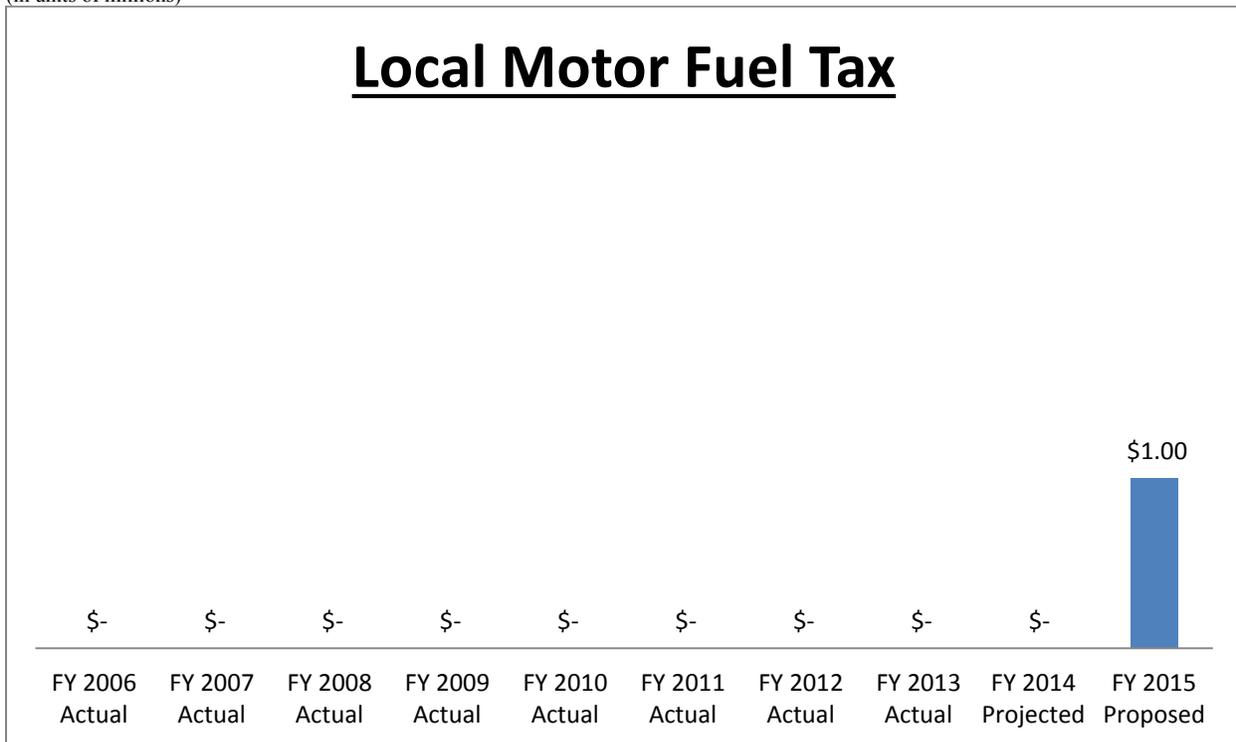

Statutory – The Amusement Tax rates are set by City ordinance. **(Chapter 39: Article XIX)**

Local Motor Fuel Tax

Background - The Local Motor Fuel Tax is a four cent (\$0.04) per gallon tax on all gasoline and diesel products effective August 1, 2014. This tax is separate from the twenty-one cents (\$0.21) per gallon Motor Fuel tax that the state levies. The revenues generated by the local motor fuel tax will be used to fund the City’s street resurfacing program and will take effect on August 1, 2014.

(in units of millions)

Statutory – The Local Motor Fuel Tax rates are set by City ordinance. **(Chapter 39: Article XVIII)**

Municipal Tax Rate Comparison

Municipality	Population	Property Tax Rate ¹	Home Rule Sales Tax	Sales Tax Rate ²	Total Tax Rate	Food & Beverage Tax	Vehicle Use Tax	Packaged Liquor Tax	Municipal Motor Fuel Tax	Hotel/Motel Tax

Expenditure Overview

This chart depicts that 34% of all City expenditures relate to salary and benefits while another 19% contractuals relate to worker compensation and general liability insurance.

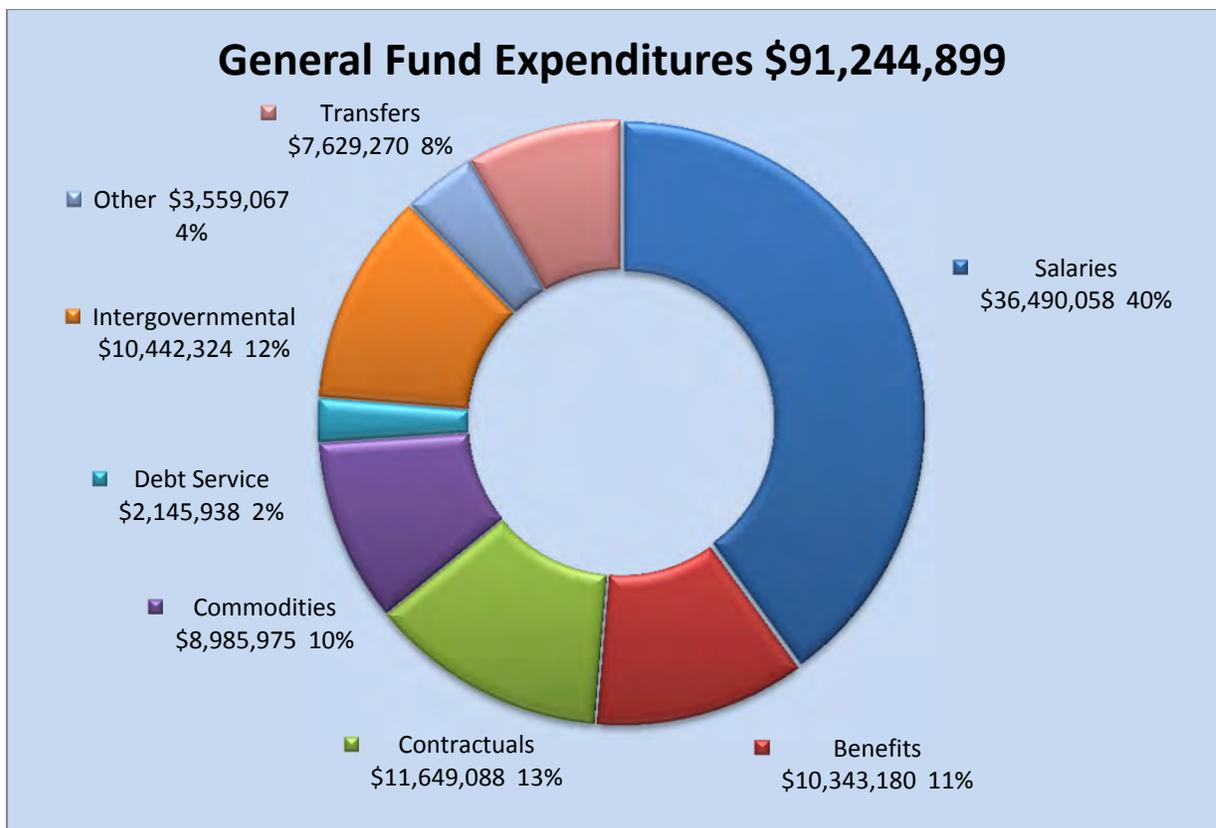

Budget Expenditure Process

Budget Methodology - The expenditures in the Proposed Fiscal Year 2015 budget are projected by staff through the use of a zero based budget methodology. A zero-based budget approach requires each budget request be re-evaluated thoroughly, starting from the zero-base. This process is independent of whether the total budget or specific line items are increasing or decreasing. This process is very detailed and takes time to compile a proposed budget for Council review and ultimate approval.

Budget Team - The City's Budget Team is composed of the following positions: City Manager, Deputy City Manager, Finance Director, Budget Manager, Chief Accountant and Budget Analyst. During the preparation of the budget, the Budget Team holds a discussion with each department director and his/her appointed staff to review the City budget process. This meeting includes timetables and enhancement of the prior year budgetary process. Guidance is provided at this meeting in regards to additional positions, equipment, and/ or capital expenditures. Finally, the committee provides a City's economic outlook for each director in regards to macro and micro growth within the City for forthcoming fiscal year.

Budget Compilation – The Human Resources Department and budget staff within Finance prepare the salary and benefit projections for the budget. In conjunction with other departments, these departments ensure all active and proposed personnel are included within the preliminary budget. Furthermore, the Fleet Management Department takes a lead role in the population of expenditure line items related to fuel usage, vehicle repair, and vehicle replacement within all funds. Finally, the Administration and Finance Department coordinate the integration of workers compensation and property liability insurance into each departmental budget.

Budget Meetings - The City’s Budget Team examines and analyzes each department’s proposed budget and prepares workpapers to assist the City Manager in evaluating the budget. The City Manager, in conjunction with the Budget Team, meets with each department director to incorporate budget modifications with Finance staff. These meetings allow for an open discussion of each department’s budget. If needed, large and/or complex departments may require multiple meetings during the budget process.

This chart indicates 51% of General Fund expenditures are related to salary and benefits with another 13% related to workers compensation and general liability insurance.

Below are descriptions of expenditures that comprise the City's budget for all funds and additional data for the City's General Fund.

Salaries:

Municipal government is a labor intensive operation. Salaries include full time, part time, seasonal and overtime expenses. For FY 2015, salaries are approximately 26% of City-wide expenditures.

Salary Expenditures - All Funds				
	FY 2013	FY 2014	FY 2015	FY 2015
Funds	Actual	Projected	Adopted	% of Adopted
General	\$31,121,720	\$34,983,871	\$36,490,058	76.57%

This table and subsequent chart demonstrate where largest benefit increases occurred; of the net \$.5 million increase, \$.5million is attributed to the Police and Fire Departments followed by Public Works - \$.2 million.

Contractuals

This category relates to services provided to the City by outside agencies or self-employed contractors. Contractuals make up 19% of all expenditures and 13% of General Fund expenditures. Contractuals include insurance premiums and claims for workers compensation and general liability, and repair/maintenance accounts for buildings, equipment and vehicles.

Commodities

This category relates to products purchased by the City to support its daily operations including all payments for utilities and supplies. Commodities make up 9% of all expenditures and 10% of General Fund expenditures.

Capital Expenditures

This category summarizes major capital projects such as road resurfacing, water, sewer and storm water lines and the purchase of machinery, equipment and vehicles. The capitalization threshold for machinery, equipment and vehicles is \$5,000 or greater. Capital expenditures make up 12% of all expenditures and 0% of General Fund expenditures.

Debt Service: Is comprised of principal and interest payments for the City’s capital lease program, payments on bonds, Illinois Environmental Protection Agency Loans, and any other debt instruments in use by the City. Debt service makes up 8% of total City expenditures and 2% of General Fund expenditures.

Inter-Governmental Expenses

This category relates to payments made to other local, state, and federal governments for services and/or products purchased by the City to support its daily operations. Inter-Governmental Expenses make up 6% of all expenses and 12% of General Fund expenses. Examples include payments to Police and Fire Pensions, the Convention and Visitor's Bureau, the Economic Development Council, the Downtown Bloomington Association, Town of Normal, and Connect Transit.

Other Expenditures

This category relates to payments which do not fall into other designated City expenditure categories. Other Expenditures make up 6% of all expenditures and 4% of General Fund expenditures. Examples include the Rust Grant and community relations.

Transfers Out

This category relates to transfers made between City funds. Transfers out make up of 6% of all expenditures and 8% of General Fund expenditures.

Non-Departmental

10010010

The Non-Departmental division is a centralized budget where non-specific General Fund revenues and expenditures are accounted. This division is known mainly for housing approximately 71% or \$64,740,958 of total General Fund revenues or approximately 35% of total City revenues in the FY 2015 Adopted Budget.

The General Fund portion of the State Sales Tax and Home Rule Sales Tax is projected to total \$25,196,625 in FY 2015. This makes up 39% of the revenues in the Non-Departmental department.

Revenues tracked within this division by FY 2015 Projected Estimate include:

Type of Tax	Budget
State Mandated Sales Tax	\$13,700,672
Home Rule Sales Tax	\$11,495,953
Property Tax	\$8,938,213
Income Tax	\$7,529,874
Utility Tax	\$6,132,913
Food & Beverage Tax	\$4,363,447
Franchise Tax	\$2,190,809
Replacement Tax	\$1,662,410
Hotel & Motel Tax	\$1,759,003
Local Use Tax	\$1,325,600
Local Motor Fuel Tax	\$1,000,000
Amusement Tax	\$1,000,000
Other Taxes	\$2,335,464
Violations	\$507,300
Licenses	\$377,400
Other Revenue	\$421,900
Total:	\$64,740,958

In the projection of revenue, staff has based their estimates on historical micro and macro-economic trends, current economic outlook, estimates from professional organizations such as the Illinois Municipal League, and staff expertise. Staff remains cognizant of the possibility that the overall State and Federal economy may impact these revenues.

**FY 2015
Expenditures**

The FY 2015 proposed budget reflects indirect expenditure estimates related to employment costs.

Administration

10011110

Purpose
(Why does this division exist?)

The City of Bloomington operates under the Council-Manager form of government. The City's legislative authority is vested in a ten-member Council which is comprised of the Mayor and nine City Council members that are elected from their respective Wards. The City Manager has and exercises all powers and duties assigned by statute and such other authority as may be granted by the City Council. He/she is charged with the enforcement of all laws and ordinances within the municipality, and recommends to the Council such actions as may be necessary or expedient for the welfare of the City. The City Manager supervises the administration of the affairs of the City, and appoints specified offices established by Section 2-29 of the City Code. The City Manager has the right to recommend that the City Council adopt certain measures or take certain actions that he/she deems appropriate and in the best interest of the municipality.

Authorization

The Administration Division and its related activities have been codified in the City's Code under Chapter 2: Sections 38 – 41. The City Manager's duties have also been codified in State Statute 65 ILCS 5/5 (several sections including, but not limited to: 3.7, 1-4, 1-11, 3-6, 3-7).

The Administration category relates to the Mayor, nine City Council members, City Manager, Deputy City Manager, Assistant to the City Manager, Executive Assistant, Administrative Specialist, and Communication Manager.

**FY 2015
Budget & Program
Highlights**

-
- Performance Excellence and Innovation Initiative – This improvement process will include performance audits, cost efficiency and effectiveness studies, as well as organization assessments, and will launch the performance management and managed competition programs.
 - Budget Process – Supervision of the preparation and recommendation of the annual Budget for all funds
 - Implementation of City Council goals and directives stated in the Strategic Plan – Annual Action Plan
 - Administration of all departments through directors and other appropriate personnel
 - Direction of the City’s Economic Development efforts
 - Intergovernmental Cooperation – Maintaining positive relationships through attendance at local board and commission meetings, and participation on regional boards and commissions
 - Continued preparation of the Comprehensive 20-year Capital Improvement Program
 - Making recommendations on public policy issues and major purchases
 - Recommending State Legislative action
 - Updating the City’s Comprehensive Plan to include citizen-driven Community Vision and a Community Planning Initiative
 - Performance of other duties prescribed by the City Council
-

**What we accomplished
in
FY 2014**

- Strong financial management resulted in a FY 2013 audited general fund balance of \$19,886,522. This is an increase of 22.71% over the prior year.
- The City retained AA credit ratings during 2013, one notch below the highest rating of AAA.
- A major study of Pensions, Pension Liabilities and Funding of Annual Contributory Rates was completed. A Funding Ordinance for the Police & Fire Pension Plans was adopted on November 12, 2013.
- The Final Solid Waste Program Analysis Report was presented.
- The annual meeting with State Legislators was organized and held in February.
- Staff participated in all Aldermanic Committee Meetings and Committee of the Whole Meetings.
- Staff continued to build strong working relationships with reporters from The Pantagraph, WJBC, WGLT, and other area media.
- Quarterly Worker's Compensation and Property/Casualty Insurance Claims reviews continued.
- Staff continued to enhance and expedite the Council Memos and Council Packet.

The following ordinances were recommended and approved:

- The issuance of \$10,000,000 in General Obligation Bonds to finance road and sewer improvements. and to provide for the levy and collection of a direct annual tax for the payment of principal and interest on the bonds
- The issuance of \$8,500,000 in General Obligation Refunding Bonds for the purpose of refunding certain outstanding bonds and providing for the levy and collection of a direct annual tax for the payment of the principal and interest on the bonds
- A Fourth Amendment to the Lease Agreement between the Public Building Commission of McLean County, The County of McLean, Illinois, and the City of Bloomington, providing for the levy and collection of a direct annual tax to pay the City's portion of the rent for use of specified portions of the facility
- A requirement that residential development in commercial zones include mandated payment of a park dedication fee. This ordinance stops the subsidization (i.e. closes a loophole) of park improvements for residential development outside of residential zones.
- Authorization of Aggregation of Electrical Load and Approval of a Plan of Operation and Governance for Municipal Opt-Out for Electricity Aggregation for Ameren Illinois customers in Bloomington

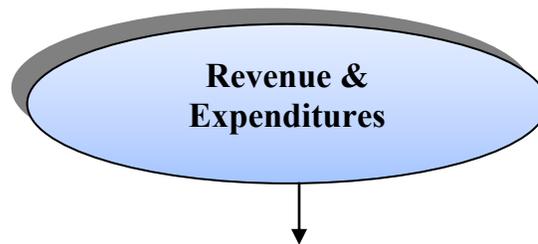

The following ordinance amendments were recommended and adopted:

- Text Amendments to Chapter 8. Animals and Fowls, Identification and Regulation of Vicious and Dangerous Dogs
- A Text Amendment to Chapter 2. Administration, Section 15, establishing the Third Monday of Each Month as a Meeting of the City Council As a Committee of the Whole starting in October 2013

- A Text Amendment to Chapter 45, Section 900. Rental Inspection Program, creating a new inspection rotation and registration fee
- A Text Amendment to Sections 300.7 and 301.6 and addition of Sections 301.7 and 301.8 to Chapter 21. Municipal Solid Waste Operations, introducing variable rate structure for the automated cart system

Additional actions recommended and approved included:

- Adoption of the FY 2014 Action Agenda
- The Contract for the 2013 General Street Resurfacing in the amount of \$2.5 million
- The Contract for the 2013 Street and Alley Repair in the amount of \$1.3 million
- The order of 65-gallon recycle carts in the amount of \$950,000
- The Review of Executive Session Minutes from 1995 - 2013
- An Economic Development Incentive Application submitted by Green Building, LLC for the property at 115 E. Monroe Street
- A Customer Service Agreement and Membership with Central Illinois Regional Broadband Network, LLC (CIRBN)

Challenges

FY 2015 and beyond

- Any further reductions in state shared revenue will impact staff levels and services.
 - In an ongoing effort to ensure City services are provided in the most cost efficient/effective methods possible, we will continue the use of internal audits, performance management practices, continuous improvement initiatives, and performance excellence principals.
-

City Clerk

10011310

This Department provides records administration, research and a central point of contact for the City Council, Departments, and all residents of the City of Bloomington. The Department focuses on document management, license processing, and the acceptance and distribution of Freedom of Information requests.

The City Clerk's office anticipates processing 1,200 Freedom of Information Requests in FY 2014. This figure would equal last year's as the highest volume recorded.

**FY 2015
Budget & Program
Highlights**

- Compliance with the Open Meetings Act – Council Proceedings must be approved within thirty (30) days after the meeting or at the Council’s second subsequent regular meeting, whichever is later.
 - Train Open Meetings Act (OMA) liaisons on OMA revisions – We will comply with the online training requirement from the Attorney General’s Office regarding Open Meetings Act and FOIA.
 - Special Events review with focus on cost controls – A new event this year was the Bicycle Criterium.
 - Enterprise Resource Planning (ERP) – A policy is being developed to address the implementation role and records/information management concerns.
 - MUNIS – Lake Bloomington billing and Customer Service Maintenance team are now upgraded to the new system.
 - We will inform all elected/appointed officials of OMA online training requirement and receive/track OMA certificates.
 - Implementation of BASSET training requirement for all liquor license holders – We will receive/track BASSET certificates.
-

**What we accomplished
in
FY 2014**

- A Council Proceedings Memorandum appeared on every Council Meeting Agenda, (Council Proceedings – 14, Work Sessions – 3, Executive Sessions – 3, Citizen Voice meeting – 1, and Retreats – 2, Committees – 11, and a review of Executive Session Minutes as of December 13, 2012).
 - An integrated database was maintained for processing FOIA requests. We processed 1,200 FOIA requests.
 - A Record of Motions & Votes was posted to City’s website following Council meetings.
 - We published two fiscal years of Council Proceedings books.
 - MUNIS updates included cashiering, Lake Bloomington Lease invoicing, and Phase III Business Licenses.
 - Staff began addressing record storage boxes in inactive records center.
 - Team development included hiring of Support Staff V and IV positions.
-

**Revenue &
Expenditures**

City Clerk	FY 2013 Actual	FY 2014 Approved Budget	FY 2014 Projected	FY 2015 Adopted Budget
Expenditures				
Salaries	\$116,292	\$169,076	\$166,978	\$193,407
Benefits	\$42,353	\$74,616	\$65,253	\$80,701
Contractuals	\$101,395	\$66,038	\$88,928	\$74,116

Revenues	\$9,212	\$8,428	\$9,272	\$11,402
General Fund Subsidy	96.59%	97.37%	97.17%	96.80%

**Performance
Measurements**

City Clerk	FY 2013 Actual	FY 2014 Approved Budget	FY 2014 Projected	FY 2015 Adopted Budget
Inputs:				
Department Expenditures	\$270,197	\$320,305	\$327,849	\$355,999
Outputs:				
Council Proceedings	24	24	24	24
Licenses Processed	1,960	1,960	1,119	1,119
FOIA	850	899	1,200	1,200
Outgoing Mail	102,000	94,000	89,800	89,800
Number of Liquor Vendors Total	187	187	188	188
Number of Liquor Licenses Total	478	478	346	346
Total Amusement and Miscellaneous Vendors	200	200	301	301
Efficiency Measures:				
Total Liquor License Penalties/Fees	\$329,392	\$315,000	\$311,874	\$308,000
Total Amusement and Miscellaneous Vendors	\$60,827	\$61,075	\$45,300	\$45,300
Average Staff Time Per FOIA Request (minutes)	110	115	67	67
Total Staff Time for FOIA Request (hours)	775	800	1,340	1,340

-
- **Training Staff** to comply with Open Meeting Act, Local Records Act and Freedom of Information Act -- A well-trained staff is required to keep up with the workload while maintaining a productive, efficient and effective office.
 - **Workload** – Staff must stay current with Council Proceedings including Executive Sessions, Work Sessions, Committee meetings, retreat, etc.
 - **FOIA** – Management of FOIA requests requires more time and effort due to increasing complexity of the requests.
 - **Records & Information Management Policy** – As the City continues implementation of Enterprise Resource Planning, we are developing a policy with a focus on records scanning, indexing, disposal of hardcopy records, etc.

Human Resources

10011410

Purpose
(Why does this department exist?)

Human Resources serves every department of the City and interacts with every employee from start to completion and throughout their careers, as well as prospective employees. The staff includes eight (8) full time and one (1) temporary employees who focus on six primary areas: Employee Recruitment and Hiring; Employee and Labor Relations; Compensation and Benefits; Training and Development, Employee Wellness, and Community Relations.

In FY 2014 to date, the City's Human Resources Department facilitated non-sworn hiring of 29 full-time and 250 seasonal employees.

**FY 2015
Budget & Program
Highlights**

-
- Budgeted \$67,000 for training in the following areas: Supervisory, Safety, Harassment, Customer Service, Communications, and HR/Legal Issues.
-

**What we
accomplished
in FY 2014**

Compensation and Benefits

- Applied for and received Retiree Drug Subsidy of \$10,758.13
- Worked with Information Services on continued testing of the data file (834 file) to electronically transmit health insurance enrollment to the plan. The first successful file was sent in September 2013.
- Worked with management and compensation consultant to revise the Classified employee pay grades.

Training and Development

- Conducted 23 CPR/AED and First Aid classes; Certified 194 employees.
- Assisted with promotional testing for both Police and Fire.
- Prepared ICMA CPM survey results.

Employee & Labor Relations

- Negotiations with Local 699 PS/PKS, Local 699 Library, Local 362 Support Staff, Local 362 Parking Attendants, Local 362 Inspectors, Unit 21 Police, Sgts. and Lts. and Telecommunicators. Contracts were settled with Local 699 PS/PKS, Local 362 Support Staff, Local 362 Parking Attendants, and Telecommunicators. Items negotiated included: elimination of Sick Leave Buy Back, a change to the Wellness Insurance plans, reduction or elimination of rapid accrual, a zero percent increase in one year, Subcontracting language and the elimination of Emergency Leave.
- Employee Relations Activities included a United Way Kick-off Picnic, Chili Cook Off, Appreciation Luncheon, Cubs/Cardinals Bus Trip, Chicago Shopping Trip, Socks for the Troops and Family Fun Days at Holiday Pool and Pepsi Ice Center, as well as Valentine's Day Thank You Cookies for all employees. The 2013 Chili Cook-Off benefited the Home Sweet Home Mission.
- Created and disseminated employee newsletter to communicate with employees and retirees. Content is educational and informative.
- Received notice that the International Alliance of Theatrical Stage Employees (IATSE) filed notice with the Illinois Labor Relations Board seeking certification for employees who work at the Bloomington Center for the Performing Arts. Responded and complied with established requirements. Certification was received, and a demand to bargain is anticipated.

Employee Wellness

- Approximately 200 employees attended the 2013 Wellness Fair. The fair featured 23 health and benefits vendors, free screenings, and a healthy breakfast.
- Coordinated biometric screenings for employees and spouses. Screenings determine risk levels for chronic diseases and medical conditions and help individuals become more accountable and engaged in healthy lifestyle choices. This year, 87 individuals completed biometric screenings.
- Approved 67 Wellness Day applications. This was the highest approval since implementation in 2007, an indicator that employees are making efforts to maintain or improve their health.
- Hosted three onsite flu shot clinics for employees and dependents. A total of 267 vaccinations were administered, the highest participation the City has had.
- Offered three wellness challenges with a focus on physical activity. Participants were encouraged to team up by departments for healthy competition and camaraderie.
 - Live Healthy 10-week Program-100 participants (14 teams) tracked physical activity; group lost 260 pounds; percent of employees in the overweight and obese categories reduced by 6.52%.
 - Lifestyle Challenge-73 participants (14 teams) tracked sleep, water, stress, activity, vegetables, and fruit for 4 weeks; completion rate 89%.
 - Step 2 It Challenge-102 participants (16 teams) tracked daily steps; City team walked 14,292 miles (the perimeter of the United States is approximately 11,000 miles); Daily step average was 10,480.

Employee Recruitment and Hiring

- Department staff facilitated the non-sworn hiring of 29 full-time and 250 seasonal employees during the first half of the fiscal year.
- Staff also assisted with the recruitment and selection process for the hiring of the Police Chief.

Community Relations

- The 2014 Dr. Martin Luther King, Jr. Luncheon, jointly sponsored with the Town of Normal, is in the planning stage. Kevin Powell, activist, writer, and former cast member for “The Real World,” will be the speaker. The 2013 Luncheon had 480 in attendance.
 - Cultural Fest included distribution of 100 backpacks with school supplies.
 - Commissioners attended the Illinois Municipal Human Relations Association Conference in Springfield to network with other Human Relations Commissioners from around the state and receive training on new state and federal changes.
 - We helped sponsor the Juneteenth Celebration as a community project.
 - The Equal Opportunity Plan was updated.
-

**FY 2015
Goals**

- **Labor cost** - Continue to work with departments and Council to find ways to provide services while lowering manpower costs.
 - **Increase diversity** of the City workforce through recruitment efforts.
 - **Munis** – Continue with implementation of Munis project, and update internal procedures/policies. Reduce paperwork, streamline work process within HR and the entire City.
 - **Time and Attendance System** – Identify and implement a system to track employee work time, leave time and scheduling.
 - Monitor implementation of the **Affordable Care Act (Health Care Reform)** requirements to determine potential impact on the City's costs and on administrative processes.
 - Increase Employee participation in **Wellness Activities** and improve employee health.

Finance

10011510

The mission of the Finance Department is to maintain the fiscal stability of the City through prudent management of fiscal resources. This is accomplished by monitoring all City operations, safeguarding assets, protecting the integrity of financial data, and maintaining an appropriate internal control framework. The Finance Department establishes financial management standards and monitors compliance to these standards based on federal, state and local law, as well as accounting standards.

The Finance Department provides a wide range of comprehensive financial support services to the Mayor, City Council, administration, each City department, and various boards. Such services include accounting, financial administration and reporting, budgeting, internal audits, treasury/cash management, investments, payroll, billing and accounts receivable, accounts payable, debt management, and purchasing. The Finance Department has 11 full time employees and 1 full time seasonal employee.

The main functions of the Finance Department are:

- Fiscal administration, reporting and compliance
 - Budget development and monitoring
 - Accounting and auditing services
 - Debt and treasury management
 - Long-term fiscal planning
 - Fiscal reviews/operational studies
 - Procurement and contract management
-

**FY2015 Budget &
Program Highlights**

Goals:

- To revise procurement and bill paying ordinances to modify procurement throughout the City, providing clear guidance for major procurement issues.
 - To re-work and re-train on procurement related modules: bids, contracts, purchase orders, accounts payables to incorporate ordinance changes and to provide internal controls.
 - To produce a procurement user manual and training for all applicable City staff.
 - To expand financial analysis and reporting on budget.
 - To facilitate the Sewer and Stormwater rate study.
 - To complete a detailed five year capital plan including funding sources.
 - Continue to facilitate the implementation of ERP system.
-

Staff

- Numerous vacant positions were filled including a Budget Manager, Procurement Manager, Staff Accountant, Payroll Clerk, and support staff.

Accounting

- Completed the FY 2013 annual City audit and implemented new accounting standard Statements #63 and #65 for the City's FY 2013 financial statements.
- Coordinated and completed the FY 2013 audit of the Firefighter Pension Fund, Police Pension Fund, and Foreign Fire Insurance Board.
- Coordinated the FY 2013 actuarial actions for the Firefighter Pension Fund, Police Pension Fund, Other Post Employment Benefit (OPEB), and Casualty Insurance fund.
- Earned the Certificate of Achievement for Excellence in Financial Reporting for the 37th year.
- Regulatory filings such as annual TIF reports, Annual Financial Reports, Treasurer's Report, and Unclaimed Property Report were completed.

Debt Management

- Reaffirmed the City's credit ratings of AA+ and Aa2 with Fitch and Moody's credit rating agencies.
- Three major bond transactions were conducted, resulting in a savings of approximately \$500,000 over the life of the following bonds: (1) Refinancing of the 2003 General Obligation Bonds; (2) Refinancing of the Public Building Commission Revenue Bonds; and (3) Issuance of a "New Money" bond for \$10,000,000 for Street Resurfacing.
- Issued a capital lease in the amount of \$964,950 for the purchase of a fire truck and plan to issue an additional capital lease in the amount of approximately \$1.7 million for equipment purchases.

Budget

- Estimated and adopted the 2013 Calendar Year Tax Levy as presented to City Council. This levy will be collected in Fiscal Year 2015.
- The Finance Department worked with the Council, Police and Fire Pension Boards, its independent actuary, the Administration and Finance Committee (now the Committee of the Whole), and the public to develop a Pension Funding Policy. After 15 months of input and analysis, the benefits of this funding plan have resulted in full funding for both Police and Firefighter Pension plans, as well as providing over \$68,000,000 of savings over the State's Minimum Plan.
- Earned the Certificate of Achievement for Excellence in the Comprehensive Annual Budgetary Award for the 3rd consecutive year.

Procurement

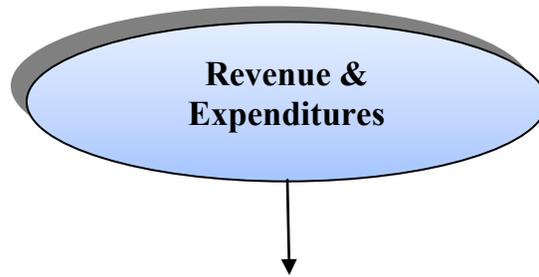

- Drafted revisions to the City’s Procurement Code that will result in a more effective, cost-efficient and user-friendly set of guidelines for all City departments.
- Continued to improve quality service to both internal and external customers.
- Collaborated with City staff on improvements to the City’s procurement process.
- Developed better ways to dispose of surplus City property.
- Guidance has been provided for the implementation of procurement instruments to reduce the City’s risk of exposure to financial claims.

Pension

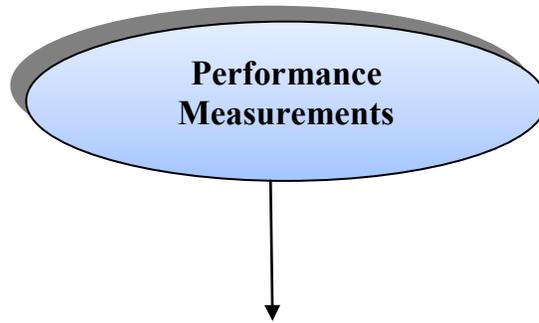

- The adoption of the Funding Ordinance for Police and Firefighter Pension Plans, Chapter 16, Section 46, set the City on the course to achieve 100% funding of its pension liabilities.

ERP Implementation

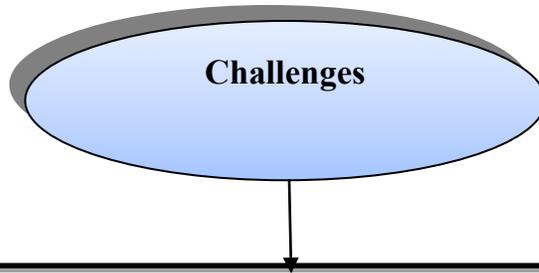

- Implemented the Munis Fixed Asset module
- Implemented the Business License module in Finance for local tax payments and facilitated the implementation of other departments.
- Implemented the Cashiering module in Finance and implemented the Cashiering module in all applicable cash handling locations with new equipment and balancing procedures.
- Fully implemented the Munis Budget module providing training to all departments and adding full line item detail into the module.

The Finance Department has and will continue to be heavily involved in continuation of the Citywide Enterprise Resource Planning implementation. At the core of the MUNIS system is the integrity of financial data and the assurance of an accurate integration of the data into the City's financial network, providing essential internal control framework, reporting, and compliance requirements. Upcoming Modules still to be implemented include:

- Work Orders & Inventory
- Time Keeping System
- Utility Tax System

The following financial functions need to be addressed and/or expanded:

- Grants management (detection, compliance, administration)
 - Revenue collections (debt recovery, integration)
 - Internal Financial Reporting
 - Long-range fiscal planning
 - Cost accounting
-

Information Services

10011610

Information Services provides information technology products and services for all City departments. Services include planning, analysis, design, support, and maintenance of information technology hardware and software products used in support of all City functions. Examples of the systems supported are:

- Enterprise-wide business applications (i.e. Financials, Human Resources, Payroll, Utility Billing, email, Fleet Management, etc.)
 - City-wide Voice over Internet Protocol (VoIP) telephone system
 - Cellular phone service for roughly 250 City users
 - City of Bloomington websites
 - Mobile data network supporting Fire, Police and other operational departments' access to City network resources from mobile data computers
 - Network infrastructure, including local area networks, wide area networks, fiber backbone connections throughout the city, wireless point-to-point networks (for remote connectivity) and wireless networks for client access
 - Roughly 80 network servers (both physical and virtual machines existing in a VMWare cloud) supporting file/print, specific applications and network resources
 - End user desktop and laptop computers, printers and other peripherals, productivity software and many applications specific to a department or end user
-

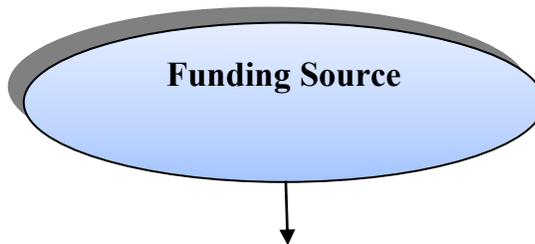

The 10 employees currently staffing the Information Services department are responsible for managing and maintaining over 3,000 individual computing and communications devices and approximately 100 different software applications, located in over 40 locations throughout the Bloomington/Normal area.

Specific Information Services Strategic Plan Action Items are:

- Continued implementation of video surveillance technologies in Downtown Bloomington and other areas as needs arise
- Go-live for next phases of the MUNIS Enterprise Resource Planning (ERP) software
- Continued replacement of aging City servers, desktop and laptop computers, wireless networks, network printers and multi-function printers
- Percent of servers moved into the VMWare virtualized environment is expected to reach 65%

General Fund 93.48%, Fees for Services 6.52%

**What we accomplished
in
FY 2014**

- MUNIS Project - Enterprise Resource Planning Software (ERP)
 - Went live with Business Licenses for Clerk's Office and Contractor Registration
 - Went live with Business Licenses in Finance for hotel/motel, food & beverage and package liquor tax, and Lake Bloomington Lot Leases
 - Completed Open Enrollment successfully for 2014
 - Implemented Cashiering for Business License module in Clerk's Office
 - Accomplished Blue Cross Blue Shield 834 file certification
 - Created a Customer Master Change Management Committee
 - Adopted and implemented a Customer Master Change Management and Maintenance policy
 - Created Springbrook to MUNIS Utility Billing Interface
 - Upgraded Munis from v9.3 to v10.4
 - Added approximately 50TB of enterprise data storage to support the City's growing needs
 - Conversion of physical servers to virtual within the VMWare cloud environment reached just over 60%
 - Participated in Central Illinois Regional Broadband (CIRBN) search committees for Chief Technical Officer position and network management and maintenance subcontractor
 - Implemented CIRBN Internet and City site-to-site connections
 - Migrated Computer Aided Dispatch (CAD) Communications Center server infrastructure from physical to virtual/private cloud environment
 - Upgraded the T2 Parking Management system including a migration to a cloud-based, T2 hosted model
 - Upgraded the Firehouse software solution used in the Fire department
 - Migrated the Bloomington Center for the Performing Arts "Choice" ticketing software from a physical, self-hosted model to a cloud-based data center model
 - Assisted Public Works in upgrading the fuel management system used at the various City fuel stations
 - Implemented electronic voting system in Council Chambers
 - Implemented an enterprise social media management system
 - Upgraded the City's list server solution and moved it to a cloud-based solution
 - Implemented a mobile device management solution
 - Replaced approximately 150 end user desktops and laptops
 - Upgraded 22 Verizon Wireless modems from 3G to 4G speeds in Fire department vehicles
 - Assisted Police Department in implementing an electronic accident reporting system
-

General Fund Subsidy	92.42%	93.62%	96.08%	93.48%

Performance Measurements

Information Services	FY 2013 Actual	FY 2014 Approved Budget	FY 2014 Projected	FY 2015 Adopted Budget
Inputs:				
Department Expenditures	\$3,301,095	\$2,792,886	\$3,318,457	\$2,530,556
Outputs:				
Number of City Website Visits	629,775	750,000	735,000	750,000
Amount of City Data Protected by Enterprise Backup	3.9TB*	5 TB*	6.7 TB*	7.4TB
Percentage of City Servers Virtualized	50%	60%	60%	65%
Number of Telephone Calls Routed City-wide	1,490,000	1,487,000	1,482,000	1,485,000
Effective Measures:				
Core and Local Area Network Uptime	99.95%	99.99%	99.99%	99.99%
Wide Area Connection (Remote Locations) Uptime	99.99%	98.00%	99.95%	99.00%
Internet Connection Uptime	99.99%	99.99%	99.99%	99.99%
Enterprise Applications Uptime	99.99%	99.99%	99.99%	99.99%
Network-Based File Storage Uptime	99.99%	99.99%	99.99%	99.99%

-
- **Technological Evolution** – The increased importance of technology in key projects and initiatives throughout all City departments continues to demand more Information Services staff time.
 - **Aging Infrastructure** – During FY 2014, staff replaced a significant percentage of aging desktop, laptop and server class computers. However, there is still computing and network technology in place today that is up to seven years old. Staff hopes to replace a higher percentage of this technology in coming fiscal years, and eventually get back to a four- to five-year replacement schedule.
 - **MUNIS Conversion** – Although modules within phases 1, 2 and 3 of the MUNIS Project have gone live, phase 3 is still in progress and phase 4 will be kicking off in 2014. Once live, MUNIS modules still require much effort from staff to continue to improve the system and to implement new features of existing modules. The MUNIS Enterprise Resource Planning (ERP) project continues to demand an extreme amount of staff time. Staff participating on the implementation team of each phase is over-committed. The automated time keeping component of the overall Munis project has been delayed and will need to be restarted.
 - **Video Conferencing-** Although not accomplished in FY 2014, staff still hopes to enable video conferencing and distance learning capabilities in various City locations including City Hall, all City Fire Stations and the Police Department.

Legal

10011710

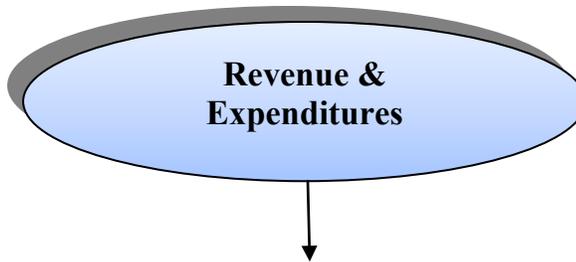

The Legal Department provides the City of Bloomington with high quality legal services, facilitates the operations of the City and protects its interests. The Legal Department staff provides legal opinions to City officials on matters of federal, state and local law, and represents the City in court and before administrative agencies. The Department also aids in the collection of accounts receivable due the City, assists with the negotiation of City contracts involving property acquisition, intergovernmental agreements and collective bargaining matters, prepares City ordinances and resolutions, and prosecutes violations of the City Code.

-
- Processing of FOIA requests
 - Representing the City in litigation
 - Advising the City in personnel matters
 - Prosecuting ordinance violations and providing administrative adjudication for housing related matters.
-

**What we accomplished
in
FY 2014**

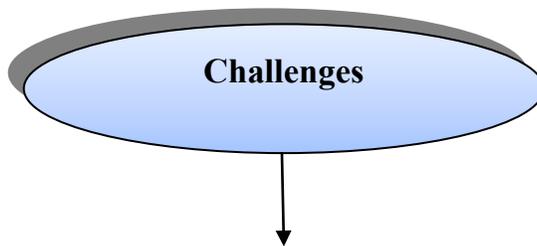

- In the first six months of FY 2014, the Legal Department recovered delinquent food and beverage taxes in the amount of \$40,000, use tax payments in the amount \$25,000 and judgments in the amount of \$4,000.
 - In the first six months of FY 2014, the Legal Department brought thirteen (13) complaints for underage sales for the Liquor Commission, resulting in fines of \$18,500.
 - A substantial amount of time has been devoted to reviewing the City's FOIA requests to expunge confidential information.
 - The Legal Department has responded to multiple FOIA requests for reviews from the Illinois Attorney General's Office.
 - The Legal Department has represented the City in all phases of litigation in multiple cases including the Palmer, TIF, and Vehicle for Hire lawsuits.
 - The Legal Department has drafted numerous ordinances and resolutions, including:
 - a noise ordinance to protect, preserve and promote the health, safety, welfare, peace and quiet of the residents of the City through the reduction, control, and prevention of unreasonably loud and raucous sounds
 - an ordinance combining boards relating to building safety regulations in order to reduce redundancies and enhance government efficiency
 - an ordinance revising the City's Rental Inspection Program to make the program cost-effective and more efficient
 - an ordinance codifying a mechanism for funding contributions to Police and Fire Department pension plans
 - revision of the City's ordinance and procedures relating to vicious and dangerous dogs.
 - The Legal Department has prosecuted ordinance violation cases, including nuisance abatement actions and housing code violations.
 - The Legal Department has assisted in the acquisition or demolition of nine (9) distressed properties.
-

The Legal Department faces an increasing demand for liquor license monitoring for compliance and the prosecution of licensees who sell to underage persons or whose operations pose a threat to public safety. The number of liquor license compliance checks conducted by the Bloomington Police Department has more than tripled in the past four years. Similarly, the number of prosecutions has also increased from 9 in 2009 to nineteen (19) so far in FY 2014. Any effective effort to reduce problems associated with downtown nightlife will require effective monitoring and prosecution of liquor license violations.

The demands of requests made under the Illinois Freedom of Information Act continue to be a challenge. The Legal Department is required to review the responses to a large number of FOIA requests prior to the release of any information. Police reports require expungement of confidential information in order to protect citizens from violations of privacy (particularly identity theft), reprisals by gang members and others against persons who supply information to police, and to safeguard pending criminal prosecutions. In addition, there has also been an increase in the number of Request for Reviews of FOIA request responses from the Illinois Attorney General's Office (requestors can have the Attorney General's Office review the City's denial of their request). These reviews require significant time briefing legal arguments and researching authority. This currently takes almost all of the time of a full-time attorney as well as part of the time of support staff.

An increased focus on improving the quality of life in our community has resulted in increased Legal Department time devoted to nuisance and distressed properties. Increased efforts have been made to work with both Police and PACE to address criminal activity and property maintenance issues. If these efforts are to be effective, additional attorney time devoted to these issues will be required.

Parks, Recreation and Cultural Arts Administration

10014105

The department includes six divisions: Administration, Parks Maintenance, Recreation, Golf, Zoo and Bloomington Center for the Performing Arts (BCPA).

Administration consists of the Director, Office Manager, Marketing Manager, Marketing Associate and two Support Staff positions. This division sets priorities, allocates resources and provides direction and support to all the divisions, which offer hundreds of recreational, cultural and educational programs. Administration also provides administrative support, customer service, budget, long-range capital improvement planning, and prepares reports for Council consideration, as well as conducting specialized research and analysis.

The Parks, Recreation and Cultural Arts Department includes 64 full-time employees and hires up to 300 seasonal employees each year.

**FY 2015
Budget & Program
Highlights**

-
- Continued professional development and training will be provided for staff.
 - Review and continue to update capital improvement projects on a long range basis looking out over the next 10 years.
-

Funding Source

General Fund 84.02%, Fees 15.98%

**What we
accomplished
in FY 2014**

-
- At budget submission time, construction on Eagle View Park was 82% complete at a cost of \$820,076.13.
 - A beautification plan for Constitution Trail was created.
 - A playground plan for Franklin Park was approved.
 - A \$58,894.50 playground grant from Game Time Manufacturing provided funding to purchase equipment for Suburban East and Pepper Ridge parks.
 - The Korean-Vietnam War Memorial in Miller Park was refurbished.
 - A \$42,490 contract with Architectural Preservation Services was approved to conserve the Trotter Fountain in Withers Park.
-

Revenue & Expenditures

Parks Administration	FY 2013 Actual	FY 2014 Approved Budget	FY 2014 Projected	FY 2015 Adopted Budget
Expenditures				
Salaries	\$358,688	\$393,537	\$418,579	\$351,522
Benefits	\$133,345	\$143,027	\$162,153	\$141,474
Contractuals	\$17,942	\$22,356	\$17,311	\$43,363
Commodities	\$1,690	\$750	\$1,350	\$1,250
Department Total	\$511,666	\$559,670	\$599,393	\$537,609
Revenues	\$80,508	\$72,280	\$85,594	\$85,930
General Fund Subsidy	84.27%	87.09%	85.72%	84.02%

Performance Measurements

Parks Administration	FY 2013 Actual	FY 2014 Budget	FY 2014 Projected	FY 2015 Adopted
Inputs:				
Department Expenditures	\$511,666	\$559,670	\$599,393	\$537,609
Outputs:				
Department Expenditures per Capita	\$6.68	\$7.31	\$7.82	\$7.02

Challenges

-
- The Parks, Recreation and Cultural Arts Department continue to feel the sting of 2008 & 2009 labor reductions. Many seasonal employees that are critical in deriving revenues and providing quality of life services are working at reduced hourly rates, which make it difficult to keep and recruit staff.
 - A vacant Assistant Director position needs to be filled to provide executive level management assistance.
-

Parks Maintenance

10014110

The Parks Maintenance division helps support the many educational and recreational opportunities throughout Bloomington. Parks Maintenance consists of the forestry, horticulture, utility, and maintenance divisions. Park staff take pride in providing a safe, functional and clean environment in all parks, trail areas and public buildings.

The City's current park system contains 38 parks, 6 public buildings, 3 spray parks, 2 swimming pools, 4 lakes, and 30 miles of trail. We also have a 60-acre soccer complex, a skate park, a public ice skating rink, 3 golf courses and a zoo.

**FY2015
Budget & Program
Highlights**

- Continue to provide a quality park experience for all visitors
 - Provide high quality maintenance that is both cost effective and timely
 - Remodel Miller Park and Forest Park bathrooms - \$20,000
 - Remove and replace basketball court surface at Suburban East Park - \$12,000
 - Replace balcony railings and toilet partitions at Miller Park Pavilion - \$24,500
 - Increase of \$25,000 in tree replacement due to damage by Emerald Ash Borer
 - \$2,300 increase in seasonal staff for downtown summer maintenance
 - Replacement of 1990 dirt grinding machine - \$65,000
-

Funding Source

General Fund 97.22%, Fees 2.78%

**What we accomplished
in FY2014**

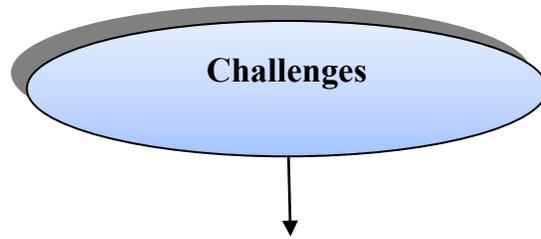

- Permits were issued for construction on Eagle View Park on **May 3, 2013**. Park staff, in conjunction with Planning Resources and Stark Excavating, performed all work necessary to open Eagle View Park in the spring of 2014. Park staff has installed 2 separate playground features, planted 12 trees and 5 acres of turf and 1 acre of prairie grasses. Once completed in the spring, staff will have planted approximately 14 acres of turf and prairie grass seed mix.
 - **Conservation of the Trotter Fountain at Withers Park.** Contracted with Architectural Preservation Services of Baltimore, Maryland to clean, preserve and document the conservation of the Trotter Fountain. Work will commence in the spring of 2014.
 - **Cleaned and painted names on 84 plaques at the Korean - Vietnam War Memorial.** Contracted with Pontiac Granite for the restoration of the monument including a new bronze flame to match the original. The memorial was dedicated to the City in 1988. A re-dedication will be held on Memorial Day of 2014.
 - **Completed a physical street inventory of Ash trees.** The Forestry Department completed an Ash tree inventory in September of 2013. Staff ranked all Ash trees between 1 (needs to be removed) and 4 (candidate for treatment). Staff identified 116 trees that will be removed by spring and 200 that will be treated starting in May of 2014.
 - **Treated 177 Ash trees in May-June 2013.** Staff identified and treated 93 park and 84 street specimen Ash trees. The trees are treated with Tree-Age, which has proven to be 99% effective against the Emerald Ash Borer. Treatment must be done every other year.
 - **252 Ash Tree removals** – Between May 1 and October 31, staff removed 252 Ash trees. The Forestry division has seen significant increase in the number of dead Ash trees over the last 5 years due to the Emerald Ash Borer. Staff estimates there will be 500 Ash tree removals during the 2013/2014 fiscal year.
 - **Renovation of City Hall Fountain.** In cooperation with Public Works, Park staff designed and installed a new water fountain with 5 separate water features. The fountain will be surrounded by new perennials and annuals and a 6-foot turf area. Ninety percent of the existing concrete walks in front of City Hall were removed and replaced
 - **Completed a compressor tear down and brine flush at US Cellular Coliseum.** Park staff in conjunction with CIMCO Refrigeration completed an overhaul of the 3 ice plant compressors. Staff also completed a flushing of the brine (which cools the floor) for both rinks. Contaminants were removed from the old brine and new brine was added as needed.
-

- **Seasonal wage scale** – The current seasonal wage scale makes hiring and retention of quality part-time employees difficult. Many talented individuals choose to work for the Town of Normal, which pays a higher wage.
 - **An Assistant Park Superintendent is needed to oversee the increased workload among different crews.**
-

- Mowing and maintenance of 650 acres of park turf
 - Mowing of 142 right-of-way (ROW) locations
 - Athletic field preparation for softball, baseball, football and soccer
 - Oversight of chemical turf management program
 - Swimming pool and spray park maintenance
 - Daily cleaning and setup of all rental facilities
 - Daily garbage pickup at park locations
 - All playground and building maintenance
 - Beautification of Downtown Bloomington and Adopt-a-Pot program maintenance
 - Tree maintenance, which includes removal as needed, pruning, chemical treatment, and replanting of all park and public right-of-way trees
 - HVAC inspection and maintenance at 6 public buildings, the golf courses and the zoo

Recreation

10014112

The Recreation Division of Bloomington Parks, Recreation, and Cultural Arts Department encompasses recreation programs, the Special Opportunities Available in Recreation (S.O.A.R.) program, aquatics, and the Pepsi Ice Center. There are separate budgets for each area. This budget covers year round recreation programs for individuals of all ages in a variety of areas including arts, sports, special interest, camps, and special events. The Parks & Recreation website, www.bpard.org, contains the seasonal program guides which list all the programs offered.

The Recreation Division provides a large percentage of the programming at the Lincoln Leisure Center, the former Lincoln School which now serves as a recreation facility for the City of Bloomington.

**FY 2015
Budget & Program
Highlights**

- Add more opportunities for youth and preschool sports with all costs offset by class fees.
- Continue to operate Lincoln Leisure Center, Miller Park Adult Center, and Miller Park Miniature Golf Course.

-
- Continue the After School Sports Program to offer an affordable opportunity to participate in sports for youth in 4th and 5th grade who otherwise might not be able to do so.
 - Continue to offer safe, quality programs for a variety of age groups.
 - Eliminate the large Fall Festival and replace with some smaller special events throughout the year.
 - Increase fees for day camp and many of the special interest classes.
 - Continue to offer some free family special events and free concerts.

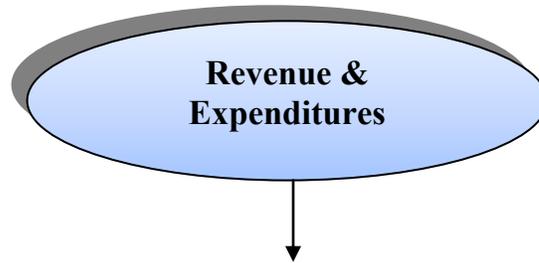

Funding Source

General Fund 67.52%, the remainder is made up of Activity Fees, Donation Fees, and Grants

**What we accomplished
in FY 2014**

-
- Staff collaborated for the fifth year with Easter Seals and Kiwanis Club of Normal and produced the Penguin Project production of *Peter Pan, the musical* which gave individuals with disabilities the chance to star in a musical with the help of peer mentors.
 - Continued to offer free summer concerts using a new format that reduced the Lunchtime Concerts and added some Sunday evening concerts at Miller Park.

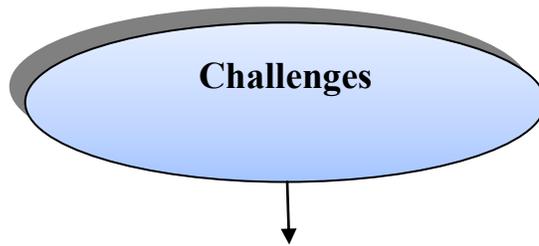

- Received a \$4750 grant from the Illinois Arts Council for summer concerts and the Penguin Project. Wrote a grant for the next FY and have been awarded \$3515.
- Received \$1400 from Calvert & Metzler Memorial Homes to sponsor some concerts.
- Provided a wide variety of introductory programs (sports, music, dance, special interest) for the citizens of Bloomington, including some free events.
- New programs were added to the mix of popular usual programs throughout the year.
- Changed Day Camp format to allow registration for the full summer or for 1 – 7 individual sessions.
- Staff continued to be actively involved with the McLean County Wellness Coalition, promoting efforts to make Bloomington-Normal a healthier City.
- An Aquatics/Youth Sports Program Manager has been hired.
- Developed and distributed three program guides to promote the department programs and activities.
- Continued to offer programs for our youngest population, preschool and parent/child, which continue to be in high demand.
- Continued to operate the Lincoln Leisure Center, the Miller Park Adult Center, and the Miniature Golf Course in Miller Park.

Total revenue	\$13,223	\$13,334	\$15,281	\$14,875

- There is a **need in the community for affordable programs** that improve the quality of life. It's difficult to keep up with the demand when current staff is working at almost more than capacity.
 - **Free special events:** We have been noted in the past for the free special events, including concerts and theatre productions. Unfortunately, these were some of the first programs to be cut due to budget concerns. Some citizens can't afford program fees, but can enjoy the free events. Some of the free events that we have not offered for the last three years are: Christmas in the Park, Easter Egg Hunt, and Family Fun Night in Miller Park, Party at McGraw, and Irish Awakening.
 - **Seasonal salary scale** continues to be a concern. It's hard to hire quality staff for \$8.50 per hour and this causes high turnover. Our locations are spread all over town, so the cost of gas is high for students driving to the various school or park sites. We cannot compete with surrounding communities.
-

- Operate an Adult Center for individuals 55+, weekdays from 8:30 a.m. to 3 p.m., in the lower level of the Miller Park Pavilion.
 - Operate a Miniature Golf Course in Miller Park from the beginning of May to the middle of September.
 - Plan, implement, and evaluate a wide variety of special events as well as skill development programs for individuals of all ages (parent/child, preschool, youth, teens, adults, older adults, and families.)
 - Contract with outside vendors (i.e. – Gymnastics Etc., sports officials, adult fitness) to provide some programs and activities.
 - Conduct an Afterschool sports program geared toward young people who might not have or be able to afford any other sports opportunity; in FY13 served 196 in volleyball, 267 in basketball, and 88 in flag football.

Aquatics

10014120

The Aquatics Division of Bloomington Parks, Recreation, and Cultural Arts Department operates two outdoor swimming pools (O'Neil and Holiday) plus a boating concession at Miller Park.

The aquatics programming includes:

- Daily public swim sessions
- Three sessions of morning swim lessons, two sessions of evening lessons at each pool and weekend swim clinics
- A competitive swim team that competes in the Twin City Swim Conference
- Pool rental after regular public hours
- Lifeguard training and recertification classes
- A paddleboat concession at Miller Park Lake on weekends and holidays from noon to 5 p.m., Memorial Day through Labor Day.

The pools are open daily from Memorial Day weekend through Labor Day weekend (one pool closes the middle of August each year while the other one stays open through Labor Day). In FY 2015, O'Neil Pool is scheduled to stay open through Labor Day with Holiday Pool closing in mid-August.

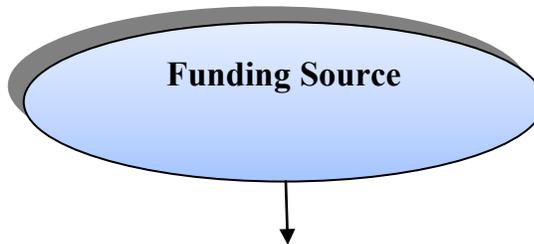

Help make our city family friendly through access to affordable, family-oriented activities.

- Sell season passes that are good at both pools, with a discounted rate for those purchasing a pass before the pools open
- Work with non-profit groups to offer them a discounted rate for daily admission

Offer outstanding choices for entertainment and recreation:

- Offer open swim daily, weather permitting, from Memorial Day through Labor Day
 - Offer three sessions and daytime lessons and two sessions of evening swim lessons at the pools
 - Host a variety of special events to bring the community together
 - Offer a swim team
 - Operate a paddleboat concession at Miller Park
-

General Fund 63.52%, with the remainder from Activity Fees, Admission Fees, and Concession Revenues

**What we accomplished
in FY 2014**

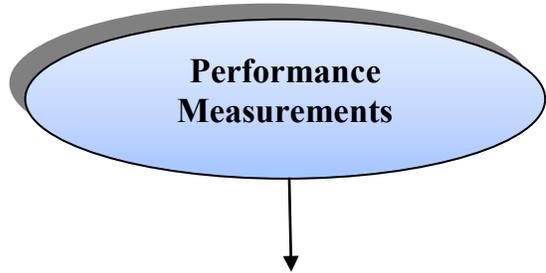

- The overall revenue for aquatic programs was down compared to Summer 2012 due to the cool weather, but swim lesson revenue was up. Holiday Pool saw a 9% (\$2,030) increase, while O’Neil Pool saw an 11% (\$1,722) increase.
- The revenue from concessions was significantly higher this year as payment for FY 2013 vendor services was not received until FY 2014.
- The baby pool at O’Neil Pool was open for public use after completion of the pump room system. We are now in compliance with Health Code.
- Two chemical controllers were installed at Holiday Pool.
- Both pools were evaluated in 2013 by a facility assessor who recommended improvements. Minimal recommendations were made for Holiday Pool, and expenses for those are included in outlying year budgets.

- **The filtration and chemical systems for O’Neil Pool** were installed when the pool was built in 1975 and need to be replaced in the near future. A facility assessor has recommended replacement in 2015.
 - **Attendance at O’Neil Pool** historically is low on the weekends and in the evening. Attendance during the day is strong due to the use of the facility by non-profit groups.
 - **Service levels at both pools** are very dependent on the weather. Summer 2012 had better weather for swimming than Summer 2013.
 - **Cracked and peeling paint:** Due to a few factors, large chunks of paint are peeling off the side walls at O’Neil Pool and in isolated areas on the floor of the pool. A new paint job is needed to preserve the pool. The bare aluminum walls will corrode if not painted.
 - **Update features:** We need to update O’Neil Pool with spray features and other elements to make it more attractive. A major renovation was planned, but budget issues keep pushing back the timeframe for the work.
 - **Ongoing leaks:** We have made multiple attempts to find and repair a leak in the Holiday baby pool. The baby pool has presented problems since it was installed during the renovation of Holiday Pool in 2007.
 - **Lifeguard turnover:** We expect a large turnover in lifeguards for summer 2014. It costs time and money to get certified, so many teens choose to find other jobs. The American Red Cross revamped their program and increased their fees. To help recruit lifeguards, we do offer in-house training programs at a reduced rate.
 - **The seasonal wage scale** for managers and assistant managers is an issue. The Town of Normal starts new managers at \$11.25 per hour. Our scale is \$10 an hour to start.
-

Bloomington Center for the Performing Arts

10014125

The Bloomington Center for the Performing Arts (BCPA) is currently in its eighth presenting season. Since reopening in 2006, the BCPA has attracted audiences from 22,030 households, with 16,694 from within a 30-mile radius, constituting 76% of its audience. Of that audience, 12,775 are from Bloomington/Normal, over 500 are from Peoria, and another 500 are from the Champaign/Urbana areas. Since 2006, the BCPA has attracted audiences from 667 Illinois communities, 43 states, and four foreign countries, highlighting its value as an ever-growing tourist attraction and influence on the cultural life of the community. The facility also provides a significant community service as a venue for wedding receptions, pancake breakfasts, social events, and community meetings. The annual visiting artist series offers 30 to 40 performances, and this past year the BCPA was used for 552 events and activities. The BCPA is also home to over 20 area performing arts ensembles.

The City of Bloomington Parks & Recreation Department and its related activities have been codified in Chapter 19 & Chapter 31 of the City Code

The BCPA presented its fifth series of outdoor concerts on the CEFCU Summer Stage in 2013. Included in this series is the third annual partnership with the Bloomington/Normal Jaycees on the Brüegala Festival. This year's two-day festival welcomed just under 6,000 people, approximately 1,500 more than the previous year, and succeeded in raising over \$55,000 for local charities.

**FY 2015
Budget & Program
Highlights**

-
- The City allocates a portion of the Home Rule Sales Tax to the BCPA. In FY 2015, \$1.7 million of Home Rule Sales Tax will be allocated to the BCPA.
 - A Development Manager was added to the BCPA staff in FY 2014 to support programming and reduce City subsidy through the pursuit of event sponsorships, state and federal grants, fundraising events, and the continued development of the BCPA's Arts Partners and Seat Sponsor Programs. Fundraising goals for the first year are approximately \$180,000 of contributed income and grant support, which will cover the employee's salary plus some of the decreased subsidy amount.
 - The BCPA's Home Rule Sales Tax support for FY 2015 will be \$200,000 lower than FY 2013. Fundraising support will bridge \$100,000 of this amount in FY 2015.
 - The addition of spill-proof cups will allow patrons to bring beverages into the theater, thereby increasing concession revenues.
 - As part of the restructuring of the City's seasonal salary schedule, the BCPA's line item for seasonal salaries shows a decrease from the previous budget.
 - The BCPA will make bond payments totaling \$938,074 (principal and interest) during FY 2014-2015 to the General Obligation Series 2004 and General Obligation Series 2005 bond issuances for renovation of the BCPA. This is an increase of \$52,389 over the amount paid during FY 2013-2014, due to an increase in the variable bond.
 - Repairs were made in FY 2014 to the steps leading from the BCPA's ballroom to the main lobby at a savings of more than 50% of the projected cost. The stairs had been crumbling for a few years and had been mended with duct tape temporarily.
 - The Performing Arts building needs tuck-pointing and sealants at a cost of \$260,000. This project may be completed over a four-year period at a cost of \$65,000 per year. Also needed for FY 2015 is a \$6,500 water heater upgrade and \$8,500 to upgrade the HVAC computer system.

- Many of the light bulbs currently used at the BCPA have been phased out as part of federal energy guidelines. New systems afford significant energy savings, allowing the BCPA to recover costs with electricity savings and reduced expenses for the purchase of gels, etc. Additional grant support for these purchases is available through both federal and state programs. In FY 2014, the BCPA received \$2,761.85 in grant money for this project. For FY 2015, the BCPA has applied for a grant in the amount of \$2,019.60. The replacement of the bulbs saves the City over 54,140 kilowatt hours per year.
- The Creativity Center Design, approved FY 2010, is completed with a fundraising effort ongoing in FY 2015.
- Staff will continue to make improvements to the Miller Park Stage to ensure the stage is appropriately outfitted and organized to handle set pieces and equipment for the summer musical programs. This initial investment will bring long-term savings to the program through an organized, uniform creation of materials that will allow staff to reuse stage equipment and set pieces.
- The Student Spotlight Series attracts over 7,000 students from across Central Illinois each year.

Activity Fees and a portion of the ¼ cent Home Rule Sales Tax

- The BCPA total attendance in FY 2013 was 87,941 for 552 events. Each of these figures represents a record high number for a one-year period.
- Total ticket sales as of November 6, 2013 for the 2013-14 season are \$391,840.
- To date, 18,660 people have ordered tickets to a 2013-2014 season event.

Number of "Cultural" events presented ²	5	7	5

1. These items include media sponsorships from, The Pantagraph, WGLT, and Radio Bloomington. Generally Accepted Accounting Principles require the City to assign a fair market value to all trades and sponsorships.
2. Including world, classical, and jazz music, and dance

- **Workload** – Full-time staff continues to take on more responsibility, and also seek ways to save and make more money to support the mission. Our programming is now year-round, with Miller Park Summer Theatre and outdoor concerts filling the summer months, in addition to prep work for other events and programs.
 - **Programming** – We continue to monitor the national economy and local school funding to evaluate a proper balance of programming, and we continue to develop new partnerships to support our existing programming and minimize financial risk.
-

We are financially responsible in the management of our programs.

- The BCPA institutionalized a Premier Event seating chart for the 2012-13 season to maximize the price for prime seating and reduce the price in zone three. The combination allows the BCPA to achieve revenue goals while lowering prices in Zone 3 to better provide access to people on a tighter budget, including students who can purchase a Zone 3 seat to most BCPA events for \$20.
- The BCPA acquired a liquor license and began its own beverage concession sales in 2011 to generate additional revenue.
- A spill-proof cup now sold through concessions allows patrons to bring beverages into the theater, which encourages additional beverage sales.
- The BCPA brings in nearly \$200,000 in in-kind trades annually from media organizations and other area businesses, extending the promotional and programming budgets.
- The BCPA has 180 dedicated volunteers who work as ushers and in a number of other capacities. The volunteers staff over 70 public events at the BCPA annually, contributing approximately 8,346 hours (4 FTE) support to the program, a \$184,780 value to the BCPA.

We play a vital role in supporting and enhancing the Downtown area.

- Based solely on ticketed events (demographic information is not collected for the numerous visitors who come to the BCPA for non-ticketed and general admission events, including outdoor concerts, wedding receptions, meetings, and other similar events), the Bloomington/Normal Area Convention and Visitors Bureau estimates the BCPA's economic impact on the community at \$1,014,840. Using an arts-specific economic calculator, Americans for the Arts estimates the BCPA's total impact at over \$5 million, including expenditures by patrons and the income by the 148 FTE jobs supported by BCPA programming during the year.

The BCPA provides programs for everyone and contributes to the quality of life in the community by offering a variety of choices for entertainment and recreation.

- The BCPA offers a wide range of programming to cater to all ages and socio-economic backgrounds. The calendar includes popular entertainment, as well as programs of interest to children, minorities, and community members whose arts interests include modern dance, jazz, world music, etc.
- The BCPA strives to make its equipment, industry contacts and personnel available to other local not-for-profits to help enhance community events. In partnership with the Bloomington-Normal Jaycees, the popular Brüegala Festival was combined with the BCPA's outdoor concert series. Bloomington Daybreak Rotary's Cajun Craze event was folded into the BCPA's Bayou Bash, which resulted in a larger attendance and raised more funds.
- The BCPA presented the free Miller Park Summer musical with the assistance of the Missoula Children's Theatre, which welcomed approximately 2,600 people to Miller Park for four performances in July and August.
- Missoula Children's Theatre employees here for the Summer Theatre Program were provided free housing secured through a trade with Illinois Wesleyan University.
- The BCPA Programming Committee includes members from a wide range of demographics and socio-economic levels to ensure programming that represents the City's diverse population.
- The average ticket price is just under \$28 for the season, a rate that makes it easier for people to afford to attend more than one event. With the mix of inexpensive family programming, top performers in concert, and other popular entertainment, the BCPA offers a diverse range of appealing events and activities.
- Through the Angel Ticket Program, the BCPA works with numerous area social service organizations, including Big Brothers, Big Sisters and the Western Avenue Community Center, to provide underprivileged residents with over 500 complimentary tickets to our events annually.

The BCPA enhances educational opportunities.

- The BCPA's Student Spotlight Series attracts over 7,000 students from across Central Illinois each year.
- The Student Spotlight Series helps teachers meet Illinois Learning Standards on a wide variety of subjects, including Performing Arts, English Language Arts, History, Science, and Math.
- The BCPA is also involved in education programs within the schools and the community. As in the McLean County Community COMPACT where staff engaged in multi-week programs with area elementary and middle school students.

- The BCPA’s Spotlight Theatre Camp, a required activity for all Miller Park Summer Theatre participants under the age of 16, enjoyed a third year of growth. The Camp offered theatre program participants an opportunity to learn about the elements that go into developing a theatre piece, and included classes in acting, set building, choreography, vocal music, and costuming.
- The Miller Park Summer Theatre program has been expanded to include a Musical Theatre Workshop for students aged 7 and up. The workshop offers specific and intensive training prior to the auditions for the show.

The BCPA has partnered with a number of vital community organizations, including:

- McLean County 4-H
- Abraham Lincoln Association
- Altman’s Billiards & Barstools
- Area Arts Roundtable
- Big Brothers, Big Sisters
- Bloomington-Normal Area Convention & Visitors Bureau
- Bloomington/Normal Jaycees
- Bloomington Public Schools, District 87
- Challenger Learning Center
- Champaign’s Blues, Brews and BBQ Festival
- Children’s Discovery Museum
- Central Catholic High School
- Cornbelters Baseball
- Country Financial Activities Department
- Crossroads Area Home School Association
- David Davis Mansion
- Downtown Bloomington Association
- Economic Development Council of the Bloomington-Normal Area
- First Presbyterian Church, Normal
- Fox & Hounds Hair Studio & Day Spa
- The Garlic Press
- Illinois State University Alumni Association
- Illinois State University Big Red Marching Machine
- Illinois State University School of Theatre and Dance
- Illinois State University Athletics Department
- Illinois State University Housing Services
- Illinois State University University Marketing and Communications
- Illinois State University’s Milner Library
- Illinois State University School of Communication
- Illinois State University School of Music
- Illinois Wesleyan University Hart Career Center
- Illinois Wesleyan University Dean of Students Office
- Illinois Wesleyan University The Ames Library
- Illinois Wesleyan University School of Music
- Illinois Wesleyan University School of Theatre Arts
- Kamokunani Hula Halau
- Kelly’s Bakery & Café
- Lucca Grill
- McLean County Chamber of Commerce
- McLean County Community COMPACT
- McLean County Arts Center

- McLean County Museum of History
- McLean County District Unit No.5
- Moses Montefiore Temple
- The Normal Theater
- Radio Bloomington
- Scribbles Center for Learning
- Specs Around Town
- Theatrescool
- WGLT-FM
- WILL-TV
- WTVP-TV
- All area Kiwanis groups
- All area Rotary groups
- Several State Farm affinity groups

BCPA staff and supporters continue to work on the development of a Creativity Center for arts education. We currently rent rehearsal, storage, and office space within the Creativity Center and BCPA to the Pantagraph Holiday Spectacular and theater classes offered through the former downtown business Theatrescool, as well as an improve acting workshop, and private piano lessons. For the third year the Creativity Center was also home to the rehearsals for the Miller Park Summer musical (now produced by the BCPA) and the third annual Spotlight Theatre Camp, a mandatory program for all summer musical participants under the age of 16. In spring 2013, the BCPA also offered a Musical Theatre Workshop.

Plans are still underway for the privately funded renovation of the Cultural District's Creativity Center. Architects from Farnsworth Group were hired in early 2010 and completed the initial designs for the project, including a plan that will allow renovation of the building to be completed in phases as donations are received. Over \$1 million has already been raised toward a \$5.2 million goal.

Miller Park Zoo

10014136

Purpose
(Why does this division exist?)

The Miller Park Zoo is primarily a zoological collection featuring over 400 animals from all over the world. The Miller Park Zoo is an accredited member of the Association of Zoos & Aquariums (AZA) and participates in many conservation breeding programs for rare and endangered animals. Many exhibits and programs are enjoyed by a wide range of guests. The Zoo features many large indoor and outdoor exhibits including a Tropical America Rainforest, Zoo Lab, Katthoefer Animal Building, Wallaby Walk About, Children's Zoo, and Animals of Asia.

The Miller Park Zoological Society is a non-profit organization dedicated to supporting the rich history of the Miller Park Zoo through fundraising, education, and community outreach. The Society works closely with staff to make the Zoo a better place for the animals, guests and staff. Two Miller Park Zoological Society employees are currently based at the Zoo and are compensated solely by the Zoological Society.

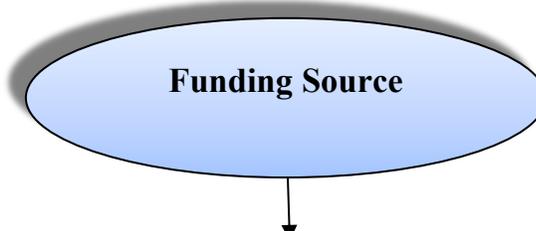

The Ewing Zoo Foundation also provides support to the Zoo. This foundation has supported capital projects in the past and currently assists with funding acquisition and shipping costs for animals being added to the collection. This arrangement allows the Zoo to acquire animals and keep a diverse collection for its guests without utilizing operational funds.

**FY 2015
Budget & Program
Highlights**

-
- Zoo staff will provide leisure and recreational opportunities for residents and guests.
 - “Green sustainable” concepts will be incorporated around the Zoo.
 - Existing programs will be enhanced to increase attendance and awareness of the Zoo.
 - Staff will provide the highest quality animal care, education, animal programs, and guest experiences possible.
 - The staff expects to welcome over 100,000 guests to the Zoo.
 - The Flamingo Exhibit will be the first new exhibit since the Tropical Rainforest opened in 2004. This exhibit is the first project identified in the Zoo’s Master Plan.
 - “Quarters for Conservation” will be started in FY 2015. A quarter will be added to the costs of Bird Feedings and Carousel rides. The additional 25 cents will go into the Zoo’s Conservation Fund and will double the amount the Zoo spends on conservation related activities.
-

Funding Source

General Fund 48.90%, Fees 51.10%

What we accomplished in FY 2014

- The Miller Park Zoo received Association of Zoos and Aquariums (AZA) Accreditation through 2017. Less than 10% of all USDA permit holders are AZA Accredited. The Miller Park Zoo has been accredited since 1978.
- Two Common Wallaroo joeys were born. These births are the seventh and eighth in the last three years.
- Two Northern Tree Shrews were born. Only one other Zoo has had a litter this year. Our Zoo has produced three litters in two years.
- Celebrated Zoo's 122nd year in its rich history.
- Successful change from California Sea Lion to Harbor Seal. The lone California Sea Lion was sent to another zoo and two male Harbor Seals were brought into the Zoo.
- Added new species like the Tawny Frogmouth and Seba's Short-Tailed Bat.
- A Hurricane Simulator "ride" was added. This feature became very popular with guests and generated extra revenue for the Zoo.
- The Miller Park Zoo was mentioned in the October 2013 *National Geographic* magazine article titled, "Building the Ark," by Elizabeth Kolbert with pictures by Joel Sartore. Joel has been to the Miller Park Zoo twice to photograph our animals. The article describes how zoos are saving species from extinction. The Miller Park Zoo is mentioned along with the San Diego Zoo, Bronx Zoo, and Omaha's Henry Doorly Zoo.
- The Zoodoption Program was revised to offer more options for guests to "adopt" animals at different levels (amounts). This change brought in more money during the first six months this year than the entire previous year.
- The Box Turtle exhibit was built by Zoo Staff with donated funds. This exhibit will enable the Zoo to highlight the conservation work and research being done by the Zoo and University of Illinois Veterinary School.

The Miller Park Zoo now manages over 500 animals. In 2009, the Zoo managed 300 animals. This number does not include the invertebrate collection.

**Revenue &
Expenditures**

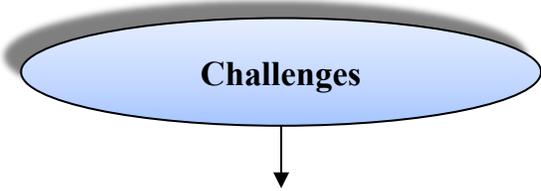

Miller Park Zoo	FY 2013 Actual	FY 2014 Approved Budget	FY 2014 Projected	FY 2015 Adopted Budget
Expenditures				
Salaries	\$561,322	\$594,174	\$604,715	\$623,914
Benefits	\$213,126	\$231,957	\$223,873	\$234,461
Contractuals	\$202,672	\$138,559	\$153,807	\$152,668
Commodities	\$226,528	\$294,700	\$270,750	\$275,225
Capital Expenditures	\$30,581	\$48,000	\$48,000	-
Principal Expense	-	-	-	\$2,287
Interest Expense	-	-	-	\$219
Other	\$118	\$1,500	\$500	\$1,000
Department Total	\$1,234,347	\$1,308,890	\$1,301,645	\$1,289,774

**Performance
Measurements**

Miller Park Zoo	FY 2013 Actual	FY 2014 Approved Budget	FY 2014 Projected	FY 2015 Adopted Budget
Inputs:				
Division Expenditures	\$1,234,347	\$1,308,890	\$1,301,645	\$1,289,774
Outputs:				
Attendance	97,006	106,000	108,452	106,000
Admission Revenue	\$319,357	\$350,100	\$341,000	\$344,480
Education Revenue	\$84,725	\$83,350	\$87,750	\$85,350
Concession, Carousel and Animal Feedings Revenue	\$29,548	\$33,150	\$39,500	\$37,300

Challenges

- If the Miller Park Zoo loses funding and/or support, the Zoo's AZA Accreditation could be at risk. Without AZA Accreditation, the Zoo could lose staff as well as many of its high profile animals like the Sumatran Tiger and Snow Leopard.
 - Funding the Master Plan will remain a challenge for the Zoo and Miller Park Zoological Society.
 - An additional parking lot and drives would provide 36% more parking for Zoo and other Miller Park activities. This project will also close the road on the east side of the Zoo, which has been a safety concern.

Pepsi Ice Center

10014160

Purpose
(Why does this facility exist?)

The Pepsi Ice Center is a community ice rink that provides recreational learning programs to increase the awareness of ice sports. It also serves as a rental facility, and is used by other groups that offer other skating activities.

Programs offered:

- Learn to Skate, Learn to Play Hockey
- In House youth and adult hockey leagues
- Birthday Parties and Group Outings that can include Broomball, Curling, skating instruction and educational entertainment opportunities.

Practice Ice offered:

- Open Skate
- Freestyle
- Open Hockey (Stick & Puck and Pick Up)
- Speed Skating
- Curling for groups
- Broomball for groups

Facility Rental Groups:

- Bloomington Youth Hockey, Inc. (youth travel organization, member of USA Hockey)
 - McLean County Youth Hockey Association (high school club organization, member of USA Hockey)
 - Illinois State University Ice Hockey (American Collegiate Hockey Association and Mid-America Collegiate Hockey Association)
 - CIPHL (Central Illinois High School League)
 - CIFSC (Central Illinois Figure Skating Club)
 - Various adult hockey groups
-

**FY 2015
Budget & Program
Highlights**

-
- Revenues, attendance and registrations should increase with the upcoming Olympics as interest in ice sports reaches its peak.
 - Our new Point of Sale and ice scheduling system has been purchased and is already improving our efficiency and increasing revenue. It will be fully implemented by summer of 2015.
 - New rubber flooring will be installed in the ice arena area.
-

Funding Source

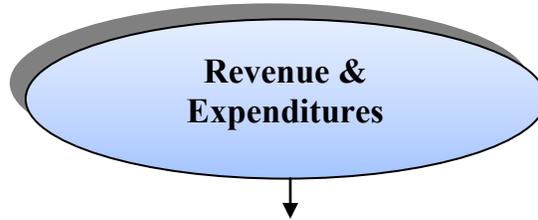

Activity Fees: 10%, Daily Admission: 17% (Open Skate, Freestyle, Stick & Puck, Adult Pick Up), Skate Rental: 3%, Rental Fees: 28%, Concessions: 10%, Hockey Fees: 28%, and Other: 4%

**What we accomplished
in FY 2014**

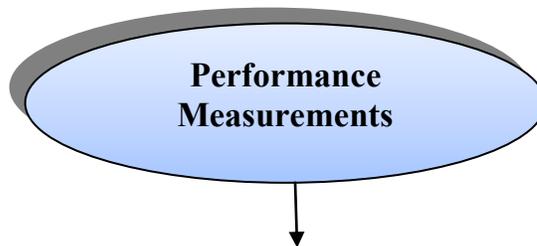

-
- New Birthday Party packages were implemented and participation increased immediately.
 - Revenue continues to grow. Both August and October numbers were the highest in facility history.
 - The ice schedule was adjusted to allow for more ice usage and greater participation rates for our figure skating and hockey communities.

- The Spring Ice Show was successful and a holiday figure skating exhibition is also planned for December.
- The ice rink continues to be in high demand throughout the year.

The Pepsi Ice Center opened in 2006 and remains a popular venue in Downtown Bloomington.

Challenges

- **We are at maximum capacity** during weeknights and weekends.
 - **Loss of parking spaces** presents a challenge to provide adequate convenient locations for our customers to park.
 - **Demand exceeds supply** for one Community Ice Rink
 - Bloomington Youth Hockey continues to expand the number of teams.
 - As we head into an Olympic year, even more people will be interested in the activities at the Center.
 - We must often rent nightly and weekend ice time from the Coliseum to meet the demand. This is not a reliable or cost-effective solution due to the subsidy for these rentals.
-

Special Opportunities Available in Recreation (S.O.A.R.)

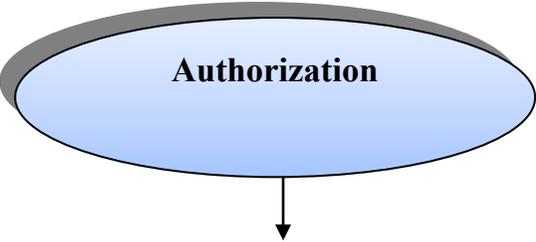

10014170

Note: The S.O.A.R. Fund was consolidated into the General Fund as part of the FY 2014 Budget Process.

The S.O.A.R. program exists to maintain and enhance the quality of life for individuals with disabilities through comprehensive, specialized recreation programs, activities and events. S.O.A.R. is a division of the Parks, Recreation & Cultural Arts Department and provides therapeutic recreation services in five component areas: Cultural Arts, Special Events, Special Interest, Youth, and Sports & Fitness. S.O.A.R. also receives annual funding from the Town of Normal.

The City of Bloomington Parks & Recreation Department and its related activities have been codified in Chapter 19 & Chapter 31 of the City Code.

The program serves individuals ages four (4) and older with various disabilities including, but not limited to, developmental disabilities, visual and hearing impairments, physical disabilities, genetic disorders, learning and behavioral disorders, and mental illness. S.O.A.R. offers specialized programs for youth, including 4H, a teen program, and summer and Saturday day programs. Door-to-door transportation is offered for a fee to individuals who could not otherwise provide transportation to programs.

S.O.A.R. offers access to affordable, family-oriented activities.

- Programs are kept at an affordable cost and reduced fees are offered for those who might not otherwise be able to participate.
- Payment plans and reduced fees are offered for those who meet financial requirements.

S.O.A.R. provides Choices for Entertainment and Recreation:

- Individuals and/or families have the choice of programs in the areas of arts & crafts, dance, special interest, special events, sports, and fitness.
-

Program fees and donations with the remaining balance paid 60% Bloomington, 40% Normal.

**What we accomplished
in
FY 2014**

- S.O.A.R. celebrated its 40th anniversary in 2013. A committee of parents, staff and volunteers met monthly to plan special events to celebrate the anniversary. The committee chose a logo for the year, and selected T-shirts and other promotional materials with the anniversary logo that were sold. Members also worked on a large fundraiser, held a free event in the summer and organized an end-of-year banquet. Through these activities, the committee helped spread awareness of S.O.A.R. throughout the community.
- A Bowl-a-Thon event was held in May at Circle Lanes and included two hours of bowling and a silent auction. Committee members solicited local businesses for silent auction donations, which generated over \$2,000 in cash donations at the event. The event raised nearly \$3,000 in entry fees, silent auction donations and T-shirt sales.
- The 40th anniversary committee also created the 40 Weeks of BINGO promotion that ran through 2013. Cards were sold at \$2 each and prizes were donated. Over 200 cards were sold at the beginning of the year. BINGO players received updates about programs and events on a regular basis, so the game also served as a successful marketing tool for S.O.A.R. this year.
- Some of the money raised from the Bowl-a-Thon and BINGO cards was used to pay for equipment, supplies and labor costs of a free event held at Tipton Park in August. The event included a bounce house, face painting, balloon artist, paint wall, making tie-dyed T-shirts and outdoor games. This event was well attended and even landed S.O.A.R. on the front page of The Pantagraph! T-shirt sales from that event were close to \$300.
- S.O.A.R. continued to contract with music therapist Meryl Brown, who currently provides music programs for Parks & Recreation programs, to offer a music therapy based program for ages 16+ and music activities for youth programs.
- S.O.A.R. continued to contract with Bloomington Jeet Kune Do Concepts to provide a martial arts program for participants with disabilities ages 15 and older. A second session of martial arts was added for ages 8-14.
- Two overnight trips were offered for participants ages 21 and older. One group went to Dubuque, Iowa and another group went to Milwaukee, Wisconsin. Both groups had the opportunity to budget their money, navigate large crowds, follow a schedule, and experience new activities.

- S.O.A.R. continued to offer adult day programs for ages 21 and older during the Winter/Spring and Fall sessions. These included a lunchtime cooking program that allows participants to shop for food to prepare for that day's meal, day trips to an orchard and Caterpillar's Visitor's Center, plus an art demo day. Both programs have filled to the maximum number each time with additional participants on the waitlist.
 - Special Olympics Unified Tennis was offered again this year. Registration filled to the maximum for this program, with an increase of 3 more teams, and all 9 doubles teams competed in the State Tennis Competition. One athlete competed in singles tennis, advanced and competed at the State Competition. After the official season ended, a singles tournament was offered to the doubles athletes and partners to try out a different side of tennis play. Many Special Olympics athletes were interested in playing singles and doubles next year.
 - A new fitness program allowed participants, their parents and staff to try new fitness related activities. Each month highlighted a different sport or activity such as snowshoeing, volleyball, dance fitness or curling.
 - A walking/running club was introduced. Participants were paired with a mentor and created a walking/running schedule to complete during the week. The group met as whole on Tuesday nights to train. The group participated in the Turkey Trot and in other local 5K runs or walks.

Participants-Transportation	404	400	500	400

- There has been an increase in the demand for door-to-door transportation services due to parent disabilities and lack of funds to maintain transportation. However, S.O.A.R. cannot expand its transportation services due to the increased labor costs for a driver, and the uncertain availability of vans shared with Parks and Recreation Department at any given time. At least three programs were cancelled or moved due to lack of transportation availability.
 - Decreased monetary resources make it difficult to maintain current level of programmatic services.
 - An increase in need for specialized programming requires contractual instructors, which is also problematic with decreased monetary resources.
 - Many of our clients have increased leisure time due to many job losses / cuts in work hours since the Occupational Developmental Center (ODC) closed and the economy declined. This resulted in an increased need for S.O.A.R. services, especially day programs for adults and young adults.
 - An increase in new participants and overall registration after implementing online registration has not included a corresponding increase in available resources, such as facility space, staff or availability of transportation.

Police Department

10015110

As an exemplary law enforcement agency, the City of Bloomington Police Department is committed to the citizens to proactively fight crime and discourage wrongdoing. The Police Department will enforce laws fairly and equally, upholding the rights of all. We will develop and strengthen community relationships to better serve and protect our citizens.

The City of Bloomington Police Department consists of the Police Chief, 3 Assistant Police Chiefs, 6 Lieutenants, 15 Sergeants, 103 Patrol Officers, 16 Professional Support Staff, part-time background investigators and crossing guards.

-
- Increase overtime funding to continue to utilize (2) two-police officer teams to patrol the downtown entertainment district on Thursday nights during the school year, and (3) two-officer teams on Friday and Saturday nights during the school year
 - Increase the professional development funding to allow a command officer to attend the Northwestern School of Staff and Command for career development

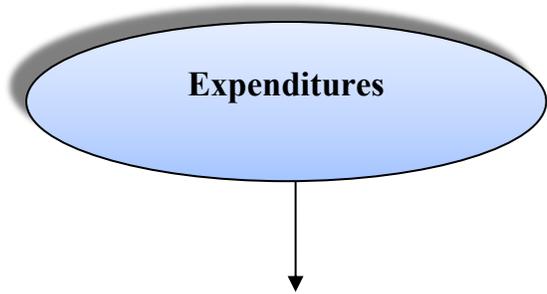

- Establish a strong Office of Professional Standards to promote service excellence to our citizens
- Include funding to improve the condition of the police firing range
- Funding for the summer jobs program for local at-risk youth will also continue. The program is sanctioned by the Juvenile Justice Commission. The Juvenile Justice Commission is composed of several local, state and private entities which meet monthly to discuss issues involving local youth and attempt to make positive changes for at-risk youth.

**What we
accomplished in FY
2014**

-
- Purchased and issued new SIG SAUER handguns to each sworn officer
 - Equipped designated officers with Smart Phones to increase efficiency and utilize technology in the field
 - Began utilizing social media to quickly broadcast information to the public and allow dialogue which both improves communications and investigative efficiencies
 - Presented Police Firing Range Study to the Infrastructure Aldermanic Committee
 - Moved toward refurbishing the BPD police range
 - Expanded the Problem Oriented Police (POP) Programs to address multiple geographic areas of concerns with focused patrols, non-traditional responses, assigned officer coordinators for the various projects, and partnered with PACE to address non-police related problems relative to the respective POPs
 - Bolstered efforts in downtown nightlife enforcement by assigning two officers and a sergeant to focus on issues downtown on Thursday, Friday, and Saturday nights
 - Assisted in the development of a comprehensive enforcement plan to address issues stemming from downtown nightlife activities for Council consideration
 - Assisted in the successful recruitment of a new Chief of Police
-

Staffing - The department continues to seek solutions to maintain adequate staffing to handle calls for service and dedicated time for officers to spend on Problem Oriented Policing projects throughout the city.

E-Ticketing - The department still needs a long-term solution for E-Ticketing in conjunction with other area law enforcement agencies and the McLean County Circuit Clerk's Office.

New Technology - As new law enforcement technology continues to be developed, the department needs to take a proactive approach to the review and research of the new technologies in order to make informed decisions on what items would best assist the police in becoming more effective and efficient in the service to our citizens.

Communications Center

10015118

Purpose
(Why does this division exist?)

The Bloomington Communications Center is the public safety answering point (PSAP) and dispatch center for all emergency and non-emergency calls for the City of Bloomington. The Communications Center serves as a vital link between the public and the City's public safety first responders. The Communication Center enables and enhances interaction with the public, between City Departments, other public safety agencies, and numerous support service agencies.

Key Services

The Communications Center is a 24/7/365 environment, and is currently staffed with 1 full-time Communications Center Manager, 16 full-time Telecommunicators, and 2 seasonal Telecommunicators. The staff works three shifts: 7 a.m. – 3 p.m., 3 p.m. – 11 p.m., and 11 p.m. – 7 a.m. The Communications Center staff provides the following key services:

- Answers 911 Emergency calls
 - Answers non-emergency and administrative calls
 - Dispatches police, fire, and emergency medical services
 - Tracks dispatched unit status and maintains contact to assure responder safety
 - Provides post-dispatch and pre-arrival instructions to callers utilizing emergency medical dispatch protocols, including instructions for CPR, choking, and childbirth
 - Controls access to the Police facility after hours and on weekends
 - Maintains detailed and accurate computer records pertaining to stolen and missing items, sex offender registrations, and criminal history information
 - Tracks false alarm dispatches and issues ordinance violations when appropriate
-

City telecommunicators answered 99.5 % of total calls within 10 seconds. The State of Illinois mandate is 90% within 10 seconds.

**FY 2015
Budget & Program
Highlights**

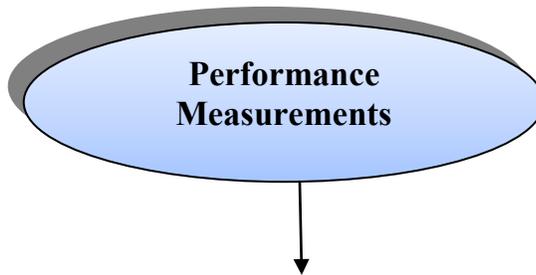

-
- Update the Motorola Gold Elite Radio consoles to the MCC-7500 Platform to remain compatible with the State of Illinois Starcom 21 Radio Network
 - Update the Computer Aided Dispatch System and Emergency Medical Dispatch Software used to perform emergency medical dispatching
 - Implement an interface between the computer aided dispatch systems used by the Bloomington and Normal Fire Departments to enhance service delivery and coordination of resources in the metropolitan area
-

**What we accomplished
in FY 2014**

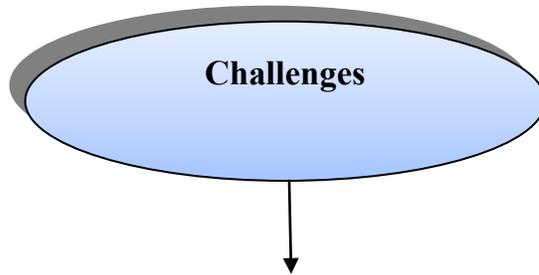

- The computer aided dispatch and mobile computer system was migrated to a new City-supported private cloud environment.
- Computer Aided Dispatch client computers were replaced in the Communications Center, including upgrades to Windows 7 operating system.
- Original Computer Aided Dispatch monitors in the Communications Center were replaced. A total of 15 monitors were replaced.
- Video monitoring capabilities were implemented in the Communications Center. Staff now has access to video cameras located in the downtown area, US Cellular Coliseum, and other locations within the City.
- A short-term radio solution for the Public Works Department was implemented by utilizing the Police Department's old UHF radio system.
- A tentative agreement was reached on all outstanding issues with the Union representing the Telecommunicators.

- **Implementation of an interface between the Computer Aided dispatch systems used by the Bloomington and Normal Fire Departments** is tentatively planned for FY 2015. This will enhance service delivery and coordination of resources. One of the challenges with this project will be the coordination of Automatic Vehicle Location (AVL) systems.
- **Supervisory / Support staff needs** - To maintain adequate operational and technical service levels, the addition of supervisory and/or support staff to the Communications Center should be evaluated as work flow and responsibilities increase for the Communications Center Manager.
- **Long-term planning for the City's Communications needs** – In FY 2014, preliminary information was gathered to assess the current radio communication patterns. Currently, several disparate systems are in use with limited functionality and interoperability between departments. Strategic planning should increase efficiency and increase interoperability between City departments and outside agencies.

Fire Department

10015210

Purpose

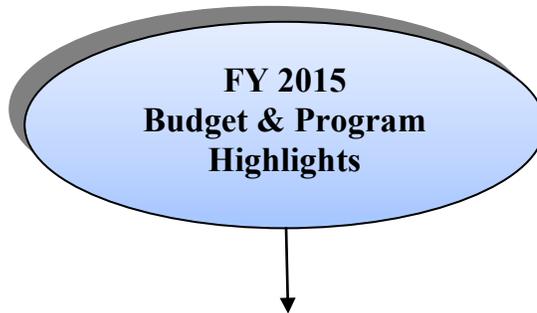

The Fire Department provides the following services:

- **Emergency medical services and transportation** – Basic, intermediate and advanced life support are provided by Department personnel on fire apparatus, ambulances and single personnel response vehicles (chase). EMS is provided under the direction of both Illinois Department of Public Health and local EMS system rules under the direction of the system Medical Director. Personnel performing these duties also respond on fires and other emergencies as part of the overall emergency response system
- **Fire suppression and rescue operations** - These services encompass all responses not considered to be EMS related, including fires, hazardous conditions, service calls, alarms, etc. Personnel performing these duties also respond to EMS calls as part of the emergency response system. Personnel assigned to both these duties are also responsible for performing associated tasks such as fire hydrant maintenance, equipment maintenance, fire station maintenance, public fire safety education and other related tasks.
- **Fire cause and origin investigations** – Illinois State Statute requires the investigation of all fires within the City. If the cause is not obvious, or is suspicious in nature, specially trained staff conduct a thorough investigation. Personnel performing this function are also assigned to a regular response position.
- **Hazardous Materials response** -The Department is the regional response team for Hazardous Materials and received State funding for training and equipping the team. The Town of Normal is the Regional Technical Rescue Team (TRT) and received the same State funding for that portion.
- **Fire and safety public education** – Fire safety and community education is considered to be the most cost effective way to mitigate fires in a community. Specialized programs target specific audiences such as pre-school, elementary, and high school ages as well as adults. We provide public safety information and training on such topics as fire extinguisher training, bullying, bike safety, Halloween and holiday safety, school programs and group presentations through our Public Education Officer.

- **Aircraft Rescue and Firefighting (ARFF) services for Central Illinois Regional Airport (CIRA)** – We supply an ARFF qualified Engineer for response to CIRA 24/7, as well as maintenance of equipment and facilities by agreement to keep the Airport operating under Federal Aviation Administration (FAA) part 139 compliance. These responses involve aircraft emergency situations, fuel spills, in-flight medical events and other responses requested by airport authorities, including responses to fire and EMS related incidents throughout airport property. The equipment, facility to operate out of, and a yearly training stipend are provided to the City for providing these services.

The City of Bloomington Fire Department consist of the Fire Chief, 2 Deputy Chiefs, Training Officer, 3 Assistant Chiefs, Public Education Officer, 3 support staff, and 106 total firefighters --- 19 Captains, 21 Engineers and 66 Firefighters. The City operates 5 fire stations and provides emergency activities (auto extrication, hazmat, etc.).

- Develop long term agreement with Central Illinois Regional Airport for facilities and service (Goal 2-Upgrade City Infrastructure and Facilities)
- Improve Station Alerting equipment (Goal 2-Upgrade City Infrastructure and Facilities)
- Begin renovation projects in multiple Fire Stations (Goal 2-Upgrade City Infrastructure and Facilities)
- Update mobile radios utilizing STARCOM to improve communication abilities with Normal Fire Department (Goal 1-Financially Sound City providing Basic Quality Services)
- Continue process of repair/replacement/addition of Outdoor Warning Sirens (Goal 2-Upgrade City Infrastructure and Facilities)

**What we accomplished
in
FY 2014**

- Created EMS Shift Supervisor position without increasing staffing (Goal 1- Financially Sound City providing Basic Quality Services)
- Replaced 1 Aerial Ladder Truck (Goal 2-Upgrade City Infrastructure and Facilities)
- Replace a medic response vehicle (Goal 2-Upgrade City Infrastructure and Facilities)
- Add additional personnel (3) to lower overtime (Goal 1-Financially Sound City providing Basic Quality Services) – This could save over \$220,000 in overtime when compared to the FY 2013 projected overtime cost.
- Replace Deputy Chief position (Goal 1-Financially Sound City providing Basic Quality Services)
- Added 1 Outdoor Warning Siren and replaced an existing siren (Goal 2 –Upgrade City Infrastructure and Facilities)
- Renovated Station #2 Kitchen (Goal 2 - Upgrade City Infrastructure and Facilities)
- Added a Management Data Analyst position to develop improved reporting and utilization of data (The compilation of performance indicators and monitoring was not possible without this position.)

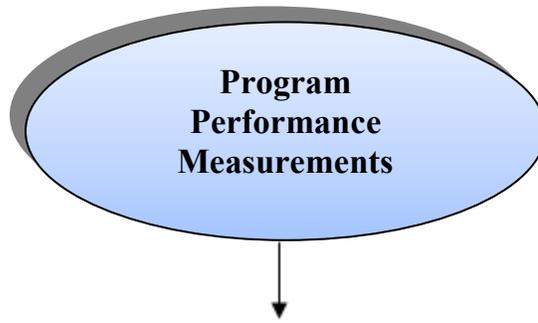

**Revenue &
Expenditures**

Response time 9 minutes or less for full alarm at scene of structure fire on 90% of occurrences	100%	97%	98%
First arriving unit on scene 6 minutes or less on any emergency (bravo) level call 90% of occurrences	70%	69%	70%
ALS unit on scene 9 minutes or less Delta level EMS call 90% of occurrences	94%	93%	95%
Response time 10 minutes or less for Hazmat team on 90% of occurrences	No Measurement	75%	85%

Performance Measures-EMS Training	FY 2013 Actual	FY 2014 Projected	FY 2015 Adopted
EMT-Basic and Intermediates re-certified in compliance with IDPH requirements	100%	100%	100%
Paramedics re-certified in compliance with IDPH requirements	100%	100%	100%
Assigned personnel completed required annual training (including renewal of required certifications in PEPP, ACLS and ITLS)	100%	100%	100%

Performance Measures-ARFF	FY 2013 Actual	FY 2014 Projected	FY 2015 Adopted
Compliance with FAA response time requirements (emergency and time drills)	100%	100%	100%
Compliance with minimum daily staffing of ARFF units as required by FAA	100%	100%	100%
Assigned personnel completed FAA required annual training including live fire	100%	100%	100%

Performance Measures-Fire Investigations	FY 2013 Actual	FY 2014 Projected	FY 2015 Adopted
Reportable Fire Investigations reports completed	100%	100%	100%
Assigned personnel completed the required annual fire investigation training	100%	100%	100%
Reportable Fire Investigations responded to by Fire Investigation Staff	No measurement	No measurement	90%

Performance Measures-Public Education	FY 2013 Actual	FY 2014 Projected	FY 2015 Adopted
Fire and Life Safety Presentations given	115	130	150
Total Audience	5852	6500	6750
Fire Extinguisher Training programs given	14	16	20
Total Trained	380	425	600
CPR/AED Training Sessions given	7	10	12
Total Trained	35	60	84

Fire Operations

- Creation of a long-term plan for traffic signal preemption in the City to provide safety for both responders and the public
- Working with Town of Normal and County agencies on joint use of Automatic Vehicle Location (AVL) technology to allow closest vehicle response to emergencies regardless of jurisdiction
- Add an Engine Company to Station #3 to provide adequate fire protection for core commercial and residential areas of community.
- Consideration of Paramedic Engine/Truck Companies to enhance overall service
- Addition of an Ambulance to HQ Station to handle the heavy call load and reduce response times
- Creating an Emergency Medical Services Coordinator position (civilian) to address increasing training, quality assurance and compliance needs in area of highest response (EMS)
- Adding shift personnel to reduce overtime expenditures and reduce staff workload
- Increasing diversity of the Department workforce through recruitment efforts
- Consideration of long term agreement with Town of Normal for Station locations and staffing to provide adequate coverage for geographical area of both communities

Fire Department Equipment and Facilities

- Completion of necessary renovations to HQ and Station #3
- Completion of necessary renovations to Station #2 and Station #4
- Designated funding to maintain or replace technical equipment and protective wear for Hazardous Materials Response team
- Identifying proper location and facility for Fire Department vehicle maintenance and assign one individual as the Fire Department mechanic
- Moving to 800mhz radio system for outdoor warning siren activations

Fire Department Training

- Expanding training facilities and props at Station #2 to incorporate hands-on training requirements and needs for an all hazards approach
- Development of a Command Training Center to deliver scenario based training in a safe and controlled environment to improve overall emergency scene safety
- Adding a classroom facility at Training Tower location
- Assigning an Assistant to the Training Officer (create training division) to help develop training classes and programs – This individual would also supervise and manage the Training Tower.
- Increasing the capability of personnel in specified areas (such as Technical Rescue Operations, Automobile Extrication Technician, Ice/Water rescue)
- Enabling video conferencing and distance learning capabilities in all Station training rooms
- Establishing computer based training in all stations

- Developing a mechanism to track individual staff training within defined departmental benchmarks

Fire Technology

- Moving to Electronic Patient Care Reporting (EPCR) to increase efficiency and accuracy, and provide better patient care
 - Replacing Information Service representative to maintain critical infrastructure in Department, and to help identify system technology improvements to provide more accurate and reliable data for all operations, including training
 - Enhancing use of GIS to allow routing capability to closest unit technology and assist in future station planning
 - Incorporation of new Computer Aided Dispatch (CAD) technologies for response time calculations, optimal routing for responses and future station location analysis functions.
-

Police and Firefighter Pension Plans

10015111 10015211

Purpose
(Why do these plans exist?)

These plans account for the payment of the annual pension contributions to the Police and Firefighter Pension plans.

Facts

- These single-employer defined benefit pension plans are mandated by Illinois Compiled Statutes (40 ILCS 5/The Illinois Pension Code) and may be amended only by the action of the Illinois Legislature.
 - The plan assets are separately managed by the Police and Fire Pension Boards.
 - The City contributions to the plans are based on actuarially-determined amounts.
 - Police sworn personnel are required by State Statute to contribute 9.91% of their base salary to the plan, while Fire sworn personnel are required to contribute 9.455% of their base salary to the plan.
-

Defined Benefit Plan

Payment of benefits is guaranteed by the employer to an employee at retirement, providing a fixed monthly income for life.

Authorization

-
- Funding for the Police and Firefighter Pension Plans is established by an Ordinance in City Code Chapter 16, Article III, and Section 46.
 - Required funding of Police and Firefighter Pension Plans is mandated by State law under Articles 3 and 4 of the Illinois Pension Code.

Funding Source

Property Taxes 99.87% and Replacement Tax 0.13%

**FY 2013
Funding Status**
(May 1, 2012)

Firefighter Pension

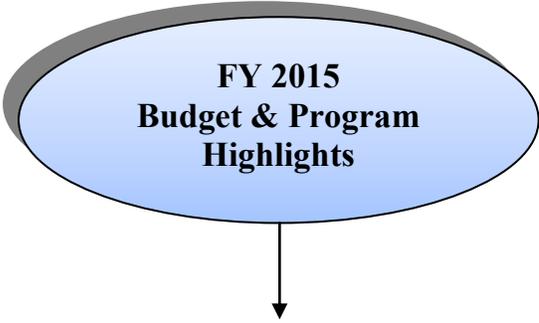

Actuarial Value Assets - \$40,890,039
Actuarial Accrued Liability - \$79,531,884
Underfunded Actuarial Accrued Liability - \$38,641,845

Funded 51.41%

Police Pension

Actuarial Value Assets - \$51,528,363
Actuarial Accrued Liability - \$90,455,617
Underfunded Actuarial Accrued Liability - \$38,927,254

Funded 56.97%

**FY 2015
Budget & Program
Highlights**

Legislation passed in 2011 now requires Police and Firefighter Pension Plans to be funded at 90 % by Fiscal Year 2040. To achieve this goal the State recommends a minimum annual contribution. An analysis of this legislation showed that the annual contributions were minimal in the early years, but would then increase substantially in the last several years. These increases were determined to be unsustainable for the City's finances and would cause an inequitable tax burden on a future generation of taxpayers.

The Finance Department worked with the City Council, Police and Fire Pension Boards, its independent actuary, the Administration and Finance Committee (now the Committee of the Whole), and the public to develop a Pension Funding Policy. After 15 months of input and analysis, an improved approach was identified, resulting in full funding for both Police and Firefighter Pension plans, and over \$68,000,000 in savings compared to the State's Minimum Plan.

Police Pension Tax Levy – The 2013 Tax Levy for the Police Pension Plan increased from \$3,181,581 (2012 Tax Levy) to \$3,763,000.

Firefighter Pension Tax Levy – The 2013 Tax Levy for the Firefighter Pension Plan increased from \$2,908,472 (2012 Tax Levy) to \$3,951,000.

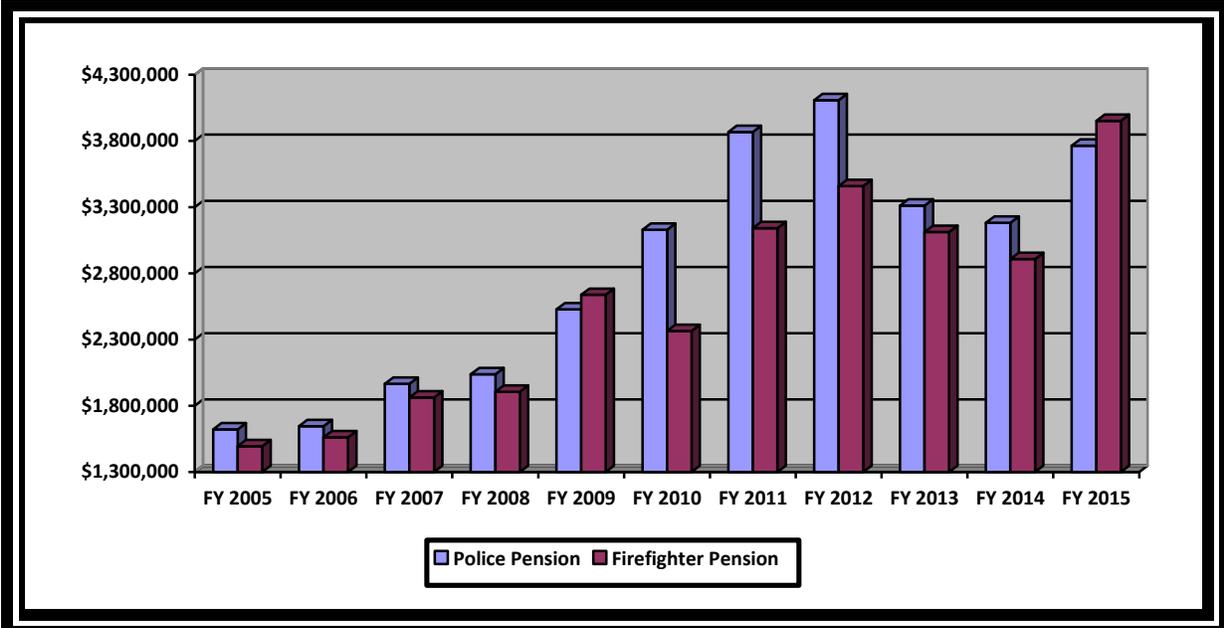

The combined tax levies for the Police and Firefighter Pension Plans total \$7,714,000. These tax levies account for approximately 41.26% of the total City (non-library) Tax Levy of \$18,672,356. These increases were offset by decreases with other portions of the levy (street maintenance) so the overall property tax levy did not increase.

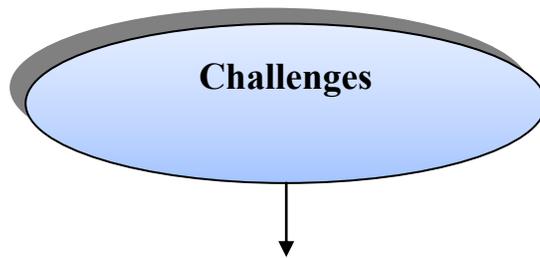

Revenue & Expenditures

	FY 2013 Actual	FY 2014 Approved Budget	FY 2014 Projected	FY 2015 Adopted Budget
Police Pension	\$3,311,122	\$3,186,581	\$3,183,797	\$3,763,000
Firefighter Pension	\$3,115,854	\$2,913,472	\$2,910,808	\$3,951,000

Revenues equal expenditures, reflecting only the dollars received and disbursed to the Police and Firefighter Pension Plans.

As the potential demand for additional City firefighters and police officers increases, pension costs will increase for each position added. As pension contribution costs continue to increase, a growing percentage of the City's property tax revenues must be used to fund the pensions, leaving less property tax money available for City operations and capital projects.

While the Pension Boards manage the investments of the funds, State statutes limit the investment options. The State legislature controls the benefit levels required to be paid to retirees and other beneficiaries of the plans. Both investment returns and changes to benefit structure can significantly impact funding levels.

Building Safety **Division**

10015410

The Building Safety Division focuses primarily on the review and inspection of the built environment. Services include inspection of buildings, plumbing, electrical, heating/ventilating and air-conditioning (HVAC) systems, and fire protection activities. Other programs such as routine fire inspections and mobile home park review and inspections ensure public safety.

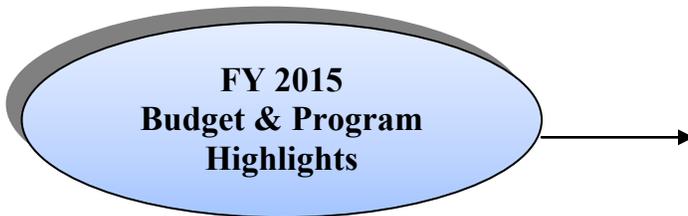

The Building Safety Division also provides for inspection and management of the City's zoning code to protect the public interest by implementing sound comprehensive planning policies, and to protect individual landowners and general neighborhoods from incompatible and detrimental land uses.

Key Services Provided:

- Inspection of new residential buildings, additions, and alterations including single family, duplexes, and apartments to ensure compliance with the minimum life-safety standards and codes as adopted by the City Council
 - Planning the review and inspection of new commercial buildings, building additions, and alterations of office, business, retail and industrial structures to ensure buildings meet the minimum standards for life-safety, health and welfare of building occupants per the codes and standards adopted by the City Council
 - Review, inspection, and complaint resolution of the City's Zoning Ordinance, Chapter 44
 - Operations related to the plumbing Cross Connection Control Program to ensure a clean and sanitary potable water supply
 - Reviewing, permitting and inspections of the mobile home parks ensure minimum standard homes are moved into the parks and that they are properly tied down
-

The City's Cross Connection Program provides safeguards to prevent the contamination of our drinking water by inadvertent and illegal plumbing connections to our water supply. This is done semi-annually by private, qualified inspectors who review commercial buildings and identify sources of possible contamination for correction.

Adoption of the latest edition of national standard construction codes, promulgated by the International Codes Council (ICC) will allow for the most up-to-date standards to be used for inspection services within the City.

-
- The largest challenge for the division this year was the continued implementation of the Munis Permits and Inspections module. This new program will eventually allow for live inspection updates, citizen self-service, improved staff efficiencies, and expanded reporting capabilities.
 - The 2012 editions of the building, fire, property maintenance and related construction codes will be adopted during this fiscal year.
-

² See complaint activity for the Code Enforcement Division, 100115430.

Staffing Level – The Building Safety Division has seen a continuous increase in construction activity over the past year – up about 10-15%. While this is a good sign for the local economy, the workload of the division is becoming unmanageable. Staffing levels will have to be evaluated in the very near future. In addition, there are several pending retirements.

Planning Division

The Planning Division of PACE provides the City's general short-range planning activities including: zoning designations, variations, special use permits, and annexations. The division also provides staff representation to the Planning Commission, Zoning Board of Appeals, and Historic Preservation Commission.

- **Planning Commission** – This Commission hears requests for annexation and zoning action by the City. They also review annexation agreements, planned unit developments and modifications to the City's zoning and subdivision codes. All issues are forwarded with recommendations to the City Council for final action.
- **Zoning Board of Appeals** - This Board hears variation and interpretation requests to the City's Zoning Code, Chapter 44. Additionally, the Board will provide a forum for public input on special use requests, and then make a final recommendation to the City Council.
- **Historic Preservation Commission** – This Commission is made up of Bloomington citizens with a passion for preserving historic buildings in the City of Bloomington. They review exterior remodeling plans for buildings in the S-4 Historic District and examine requests for Eugene D. Funk or Harriet Fuller Rust grant dollars.

The division provides representation to McLean County Regional Planning for all long-range planning activities. These include transportation, planning activities within the mile and a half of the City's corporate boundaries, and development of the City's comprehensive plan.

**FY 2015
Budget & Program
Highlights**

-
- Supportive services will be provided to the City's Economic Development Coordinator.
 - Staff will continue to work with McLean County Regional Planning on the City's Comprehensive Plan. This is anticipated to be an 18- to 24-month project.
 - The division will work with the West Bloomington Revitalization Partnership to provide support as they move forward with the West Bloomington Neighborhood Plan.
-

**What we accomplished
in
FY 2014**

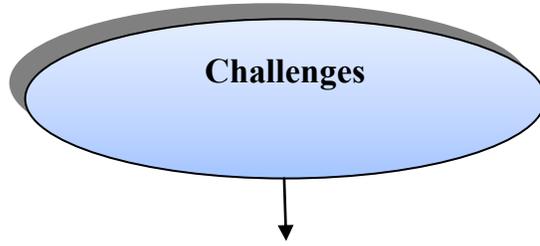

-
- General fund dollars were added to the Harriet Fuller Rust Grant program to provide financial assistance to downtown building owners who need help to preserve the exteriors of their buildings. Infiltration of water into brick, roofing systems and bad flashings or coping is the primary cause of old building failures.
 - A seasonal technical assistant was hired to assist the City Planner with an ever-increasing caseload.
 - Planning staff initiated the process to update the City's Comprehensive Plan.
-

Revenue & Expenditures

Planning Division	FY 2013 Actual	FY 2014 Approved Budget	FY 2014 Projected	FY 2015 Adopted Budget
Expenditures				
Salaries	\$68,557	\$61,114	\$74,527	\$92,851
Benefits	\$33,607	\$32,593	\$34,394	\$39,868
Contractuals	\$14,952	\$46,943	\$11,846	\$17,766
Commodities	\$252	\$3,480	\$3,524	\$2,580
Intergovernmental Expenditures	\$23,239	\$25,000	\$27,868	\$51,000
Other Expenditures	\$162,717	\$220,000	\$350,155	\$125,000

vacations	N/A	N/A	4	5
Historic Preservation Cases Heard:				
Certificates of appropriateness issued	N/A	N/A	12	12
Funk Grants approved	N/A	N/A	8	8
Rust Grants approved	N/A	N/A	12	12

Staffing – With the slow rebound in the economy, the workload for the Planning Division is following the trend and increasing. The addition of a seasonal technical assistant in FY 2014 has improved the processing of informational packets, writing of minutes and fielding phone calls. While the seasonal position is helpful, a full-time person to provide continuity and more in- depth help would be beneficial and the logical next step.

Code Enforcement Division

10015430

Purpose
(Why does this division exist?)

The Code Enforcement Division is primarily responsible for the inspection, maintenance and life-safety of existing homes and commercial buildings throughout the City. The basics include:

- Complaint-driven code enforcement
- Proactive rental housing inspection program
- Periodic fire inspections of commercial structures and occupancies

Note: Our Community Development Grant activities are also considered a part of the Code Enforcement Division but are covered under a separate budget narrative.

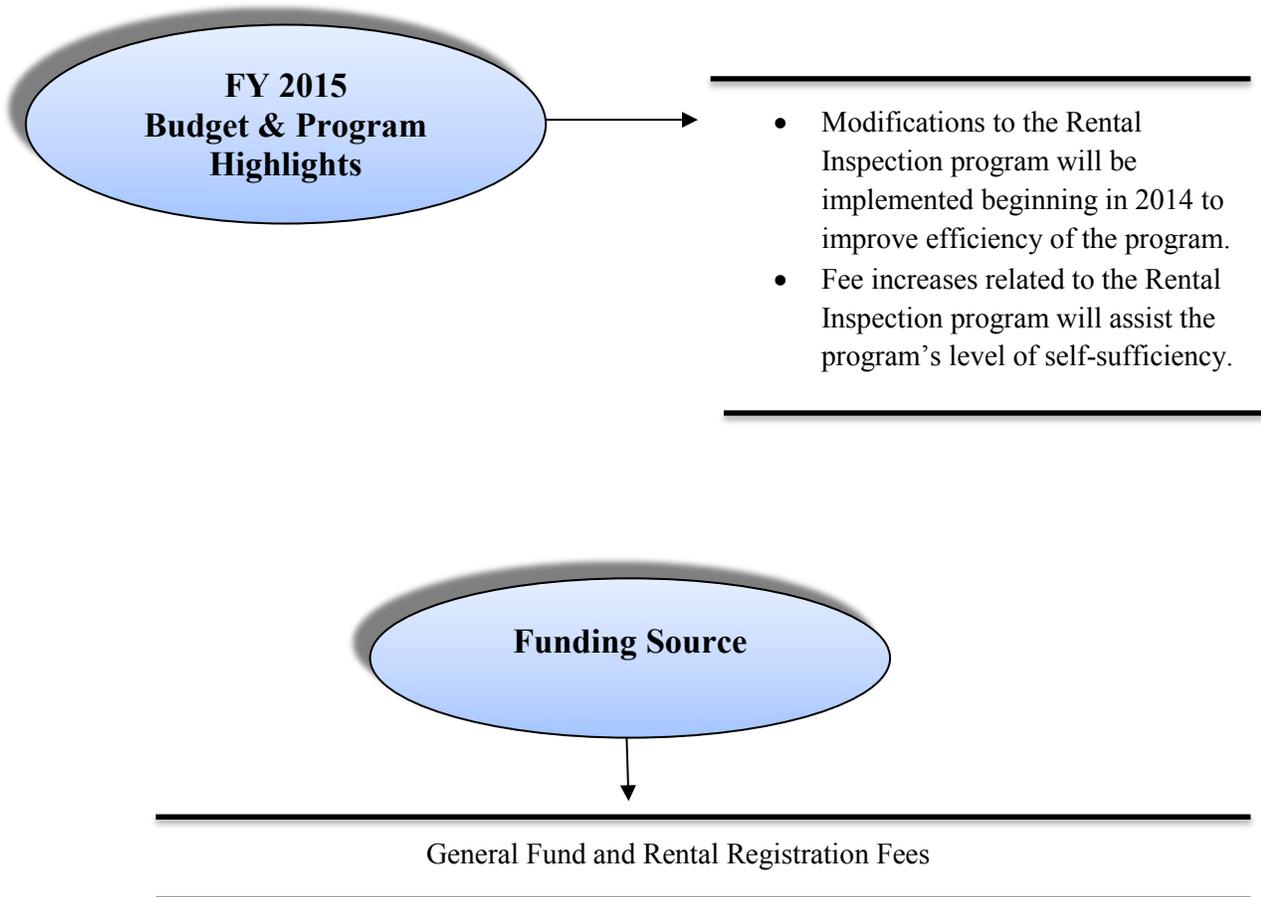

Key Services Provided:

- **Property Maintenance** - Code Enforcement Division receives approximately 1,200 property maintenance cases annually, which generate an estimated 1,600 violations. These complaints can range from weeds and grass to debris and life-safety issues. Our staff takes the complaints, validates them, and works with building owners to resolve any problems in a timely manner. If unsuccessful, our staff will issue tickets and/or follow-up with court action as necessary for compliance. The Building Safety Division handles an estimated 200 cases annually, in addition to those received in Code Enforcement. Building Safety typically responds to zoning, specific mechanical or commercial building complaints.
- **Rental Inspection Program** - The City of Bloomington's rental inspection program addresses approximately 3,000 rental buildings containing approximately 12,000 units. Through this proactive program, the City strives to ensure safe and decent living conditions for its residents, and works to keep blighted conditions from creeping through our neighborhoods.

- **Fire Inspections** – The City of Bloomington inspects commercial properties to ensure fire safety. Approximately 1,000 inspections are completed annually of the estimated 3,000 City of Bloomington businesses.
-

The City’s Code Enforcement Division provides a number of inspection services including but not limited to property maintenance, rental property inspections, and commercial fire inspections.

**What we
accomplished in
FY 2014**

- Proposed changes to the Rental Inspection program were submitted to streamline processes and improve sustainability of the program.
- Grants were provided for income-eligible, single-family, owner-occupied residences to resolve code related issues, i.e. dead tree removal, emergency water services.

**Revenue &
Expenditures**

Code Enforcement Division	FY 2013 Actual	FY 2014 Approved Budget	FY 2014 Projected	FY 2015 Adopted Budget
Expenditures				
Salaries	\$527,257	\$549,316	\$567,999	\$562,258
Benefits	\$251,232	\$251,628	\$257,214	\$262,129
Contractuals	\$43,628	\$49,293	\$68,442	\$97,146
Commodities	\$18,969	\$18,824	\$17,324	\$18,014
Other Expenditures	\$27,166	\$40,150	\$31,000	\$40,000
Department Total	\$868,252	\$909,211	\$941,979	\$979,547
Revenues	\$192,239	\$154,427	\$265,727	\$256,587
General Fund Subsidy	77.86%	83.02%	71.79%	73.81%

Performance Measurements

Code Enforcement	FY 2013 Actual	FY 2014 Approved Budget	FY 2014 Projected	FY 2015 Adopted Budget
Inputs:				
FTEs per 1,000 population	.14	.14	.14	.14
Department Expenditures	\$868,252	\$909,211	\$941,979	\$979,547
Code Enforcement Expenditures per Capita	\$11.33	\$11.87	\$12.30	\$12.79
Outputs:				
Total Cases Received	1,369	1,500	1,200	1,200
Total Violations Received	N/A	N/A	1,600	1,600
Total Tickets Issued	N/A	50	100	100
Complaints per 1,000 Population	17.87	14.24	15.67	15.67

NOTE: "Cases" represents the number of calls for service / the number of "Violations" represents a count of issues per case. Numbers are expected to fluctuate over the next year while our new reporting system settles works through our statistics.

Challenges

-
- **Staffing Level** – The need for the addition of a Code Enforcement Inspector to assist in responding to complaints and / or rental inspections in a more efficient manner.
 - **Succession Planning** - Several of the Code Enforcement staff will be retiring and / or moving to other positions within the next year or two. Succession planning is very important in order to maintain services. This is another reason we are requesting the addition of a Code Enforcement Inspector – to be able to implement training while the division is still fully staffed to allow for a seamless transition.

Facilities Maintenance **Division**

10015480

Purpose
(Why does this division exist?)

A blue oval with a black border contains the text 'Purpose (Why does this division exist?)'. A black arrow points downwards from the bottom center of the oval.

The Facilities Maintenance Division of Planning and Code Enforcement manages building operations, maintenance, and energy consumption for various city owned buildings including:

- City Hall
- City Hall Annex (currently vacant and to be demolished)
- The Police Building
- Public Works Buildings (East Street)
- Water Building (Division Street)
- Records Storage Building (301 E. Jackson)
- Old Engineering Building (S. East St)
- Salt Dome (S. East St.)
- Downtown Parking Facilities (budgeted separately from Facilities Maintenance)

This division also provides support to other departmental buildings and operations (fire stations, parks facilities and the Bloomington Center for the Performing Arts) not necessarily under direct control of the Facilities Maintenance Division.

Key Services Provided:

- Review and payment of utility bills for all City facilities, traffic lights and some street lighting
 - Monitor maintenance of City buildings to ensure regular maintenance is done in a timely manner
 - Provide technical assistance to other departments on building maintenance outside our normal facilities
 - Provide oversight to third-party cleaning contractors
 - Oversee the bidding process for major City maintenance projects
-

**FY 2015
Budget & Program
Highlights**

-
- Facilities will be actively involved in overseeing and helping to facilitate many projects throughout the City including the completion of the re-roofing of City Hall, repairs to the Lincoln Garage and evaluating emergency facility repairs during the year.

**What we
accomplished in
FY 2014**

-
- Phases II and III of work on the Market Street Parking Facility were completed. This will provide an additional 10-15 years of service, presuming continued and necessary maintenance is performed.
 - A long-range facilities plan for approximately 40 of the City's main facilities was completed to address deferred maintenance and future needs. This document will provide an outline of work needs and budget ramifications for the next 10 years.
 - A new roof was installed on the Post Office portion of the Market Street Parking Facility.
 - Specifications, bidding and installation of a new roof for City Hall were completed.
 - The bidding process and hiring of a contractor for the demolition of two dilapidated city buildings on Howard and Jackson Streets was completed.
 - Staff assisted the Library with specifications, requests for proposals and bidding of a new HVAC system.
-

Revenue & Expenditures

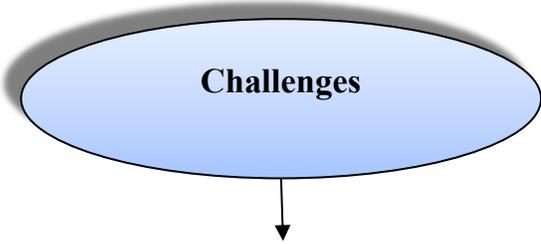

Facilities Maintenance	FY 2013 Actual	FY 2014 Approved Budget	FY 2014 Projected	FY 2015 Adopted Budget
Expenditures				
Salaries	\$138,170	\$152,403	\$138,003	\$159,468
Benefits	\$47,860	\$53,942	\$90,870	\$55,724
Contractuals	\$223,795	\$200,988	\$183,253	\$282,337
Commodities	\$266,192	\$203,214	\$229,340	\$205,736

Performance Measurements

Facilities Maintenance	FY 2013 Actual	FY 2014 Approved Budget	FY 2014 Projected	FY 2015 Adopted Budget
<i>Inputs:</i>				
Department Expenditures	\$744,701	\$703,047	\$733,966	\$707,795

Challenges

- **What is the role of Facilities Maintenance and how should the division be organized?** The Facilities Maintenance division is currently in a state of flux. Many of the current staff will be retiring and the issues brought out in the long-range facility plan and review of Planning and Code Enforcement Department operations point to a need to move in a different direction. This year may end with a very different model from the current operations.

Government Center

10015485

Purpose
(Why does this division exist?)

-
- Located at 115 E. Washington, the Government Center building is shared by both the City and McLean County. The City's Parks and Recreation (Floor 1), PACE (Floor 2), and Public Works (Floor 3) offices are located in this building. The Government Center is a 126,300-square-foot building. The City occupies 63,150 square feet of space.
 - The Government Center is a leased building. The lease runs until November 30, 2022 and is split equally with McLean County who shares the building. The City does not have any direct ownership in the building. The owner is the McLean County Public Building Commission. The lease with McLean County Public Building Commission was entered into on November 20, 2001 and amended on December 12, 2003, October 4, 2005, January 9, 2012 and November 1, 2013. The lease calls for both a rent payment and a maintenance and operations payments to be made to the McLean County Public Building Commission each year.
-

**FY 2015
Budget & Program
Highlights**

-
- The principal, interest and lease payments are based on the bond payments for the purchase and renovation of the building and are split evenly between the City and the County. The payment for FY 2015 is \$429,176.
 - The maintenance and operations payment varies annually. The County operates and maintains the building for the McLean County Public Building Commission. The County determines a budget each year around November or December. The Commission approves this budget and distributes the cost evenly between the County and the City. For FY 2015, the maintenance and operations portion of the lease is budgeted at \$374,209. Maintenance and operation expenses include janitorial service, repairs and utility services in the Government Center.
 - In FY 2015, the City's portion of the annual lease and maintenance and operations payments equates to a cost of \$12.72 per square foot.
-

Parking

10015490

The City of Bloomington began addressing downtown parking needs with parking controls (meters) in the streets and has progressed to construction of parking decks to house the ever-increasing Downtown parking needs. The City currently owns two parking decks and one surface lot. We also manage the Abraham Lincoln Parking Deck for the Public Building Commission.

The Parking budget accounts for operations and maintenance of the Market Street Parking Deck, Pepsi Ice Center Parking Deck and the Major Butler surface lot. These facilities do not have dedicated personnel operating the parking areas on a regular basis as we do at the Abraham Lincoln Parking Deck. This budget accounts for all parking operations and enforcement. Parking attendant expenses, while budgeted here, are supervised by the Police Department.

- **Market Street Parking Deck** – Built in 1974, this 39-year-old facility has 550 parking spaces within the garage, with 492 spaces available for rent on a monthly basis. The City currently rents 474 of those spaces. The condition of this facility was rated poor by the City’s Facility Maintenance division. Carl Walker Inc., a company that specializes in parking facility design, construction and maintenance, recommended approximately one million dollars’ worth of structural repairs. These repairs would extend the useful life of the garage 10 to 15 years. Phase one of the restoration project was completed December 2010 at a cost of \$250,000. The remaining phases have been completed.
- **Pepsi Ice Center Parking Deck** – Built in 2005 in conjunction with US Cellular Coliseum, this seven-year-old facility has 330 parking spaces, 33 of which are available for rent on a monthly basis. The City currently rents approximately 10 spaces. The condition of this facility has been re-rated during the City’s facility study which unearthed serious structural defects which may affect the FY 2014 and 2015 budgets.
- **Major Butler Surface Lot** – There are 71 parking spaces within the lot. Monthly parking was eliminated in January 2011. Due to the failure of parking control equipment, those having monthly parking spaces were given a choice of moving to the Pepsi Ice Center Parking Deck or the Abraham Lincoln Parking Deck. It was determined the cost of repair or replacement was not warranted due to the low number of monthly parking passes issued in this lot. The lot has been converted to two-hour parking.

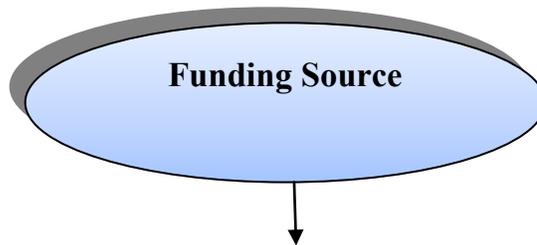

The Parking Division and its related activities have been codified in Chapter 29 of the City Code

The face replacement of the Market Street Parking Facility is estimated to cost between \$8 and \$10 million dollars.

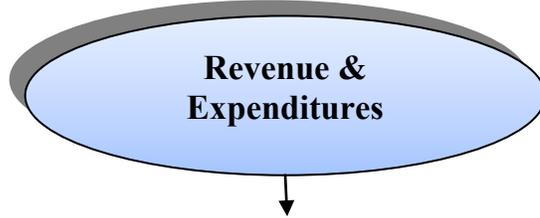

-
- Staff has translated the monthly parking deck software from Scanet to the T2 Parking System. We no longer have an incompatibility issue with operation software.
 - An on-line payment system will be implemented through the T2 Parking Software System which will allow residents and non-residents to pay monthly parking passes on-line in addition to parking violations.
-

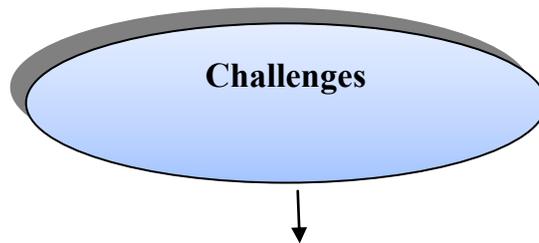

-
- Fees are collected for parking in the parking deck, and fines are assessed for parking violations issued in Downtown Bloomington.
 - The City offers a portion of the Market Street Parking Deck, Pepsi Ice Center Parking Deck, and Major Butler Surface Lot for timed general public parking as well as reserved monthly parking. Monthly parking passes are available to the general public at a current rate of \$50 per month. All facilities are open for general parking on Saturdays and Sundays and after 5:30 on weekdays.
 - Multiple parking spaces in Downtown Bloomington have time limits. Three parking attendants patrol Downtown Bloomington to monitor compliance with regulations, and one parking attendant works in the Lincoln Parking Deck pay booth. The City issues parking violations for vehicles which exceed the time limits. The fines for these infractions range from \$10 to \$20 per violation.
-

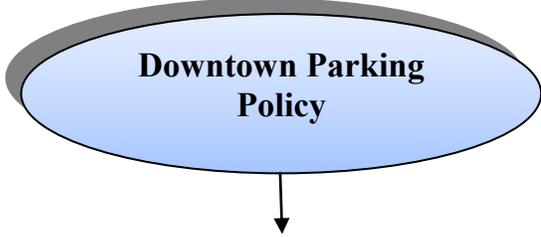

-
- Staff continues to operate the parking decks to provide Downtown residents and facilities a clean and safe place to park their vehicles.
 - Staff continues to pursue the collection of unpaid parking violations through the Legal Department and to explore other methodologies to collect unpaid fines.
 - Phases II and III of the restoration work of the Market Street parking facility have been completed and included a new roof over the area occupied by the Post Office.
-

Revenues	\$542,865	\$493,989	\$539,981	\$539,939

-
- **Aging Infrastructure** – The Market Street Parking facility underwent major repairs in FY 2014. These repairs are estimated to extend the useful life of the facility another 10-15 years, but within 5-10 years, the City will need to consider the long-range viability of the facility and plan for its future in Downtown Bloomington and should be included in the 20 year Capital Plan. Currently no funds have been set aside to fund this venture.
-

Downtown Parking Policy

Downtown Parking Policy: Over the years, parking in downtown (street and parking facilities) has been handled as the perceived need dictated at the time. Length of time on the streets, parking meters and public parking facilities are in a constant state of flux. In early 2010, Farr Associates, as part of their proposed strategic plan for Downtown, provided the City with a parking policy framework (www.downtownbloomington.org/index.php?id=163) to guide an overall plan for parking in the downtown. The plan has three major parts:

1. Shift to an emphasis on public, rather than private, parking in support of a vibrant Downtown
2. Use performance-targets to manage existing parking spaces
3. Convert excess parking revenues into Downtown improvements

This plan awaits Council action.

Public Works Administration

10016110

The Public Works Administration provides the backbone and support for the efforts of the four divisions within Public Works. The Director of the Department works with and responds to the City Council, City Manager, Deputy City Manager and the public. The Director also oversees Division superintendents, an office manager and administrative staff. The division provides:

- Administrative support
- Customer service for all incoming calls and walk-ins
- Budgeting and long-range capital improvement planning
- Making reports for Council consideration
- Management of the public rights-of-way
- Specialized research and analysis

Public Works is an agent of change. The four Divisions in Public Works are: Engineering, Solid Waste, Streets & Sewers and Fleet Management. With the exception of Fleet Management, all are in the midst of major projects, challenges and changes. Fleet is researching the “greening” of the fleet and ways to gain efficiencies citywide.

FY 2015 Budget & Program Highlights

-
- Website content and presentation upgrades will continue as we work to improve transparency and public outreach.

Public Works Administration will provide support and oversight for:

- Enactment of the FY 2014 mid-year Council initiative to add \$10 million in funding for streets and, to a limited extent, sewers
 - Continuation of a comprehensive Solid Waste Management Report and Master Plan
 - Comprehensive Assessment and Strategic Plan for Storm Sewers and Sanitary Sewers
-

What we accomplished in FY 2014

-
- Enacted automated recycle collection by coordinating the efforts of the Council, City Administration, Solid Waste workers and supervisors, administrative staff and the City's recycling cart vendor.
 - Preparations continued for automated trash pickup.
 - Staff worked to create improved educational material to explain Public Works projects to the general public. This was done through pamphlets, mailings, public meetings, and creation of website content.
 - Emphasis continued on street resurfacing and sidewalk improvements.
-

Revenue & Expenditures

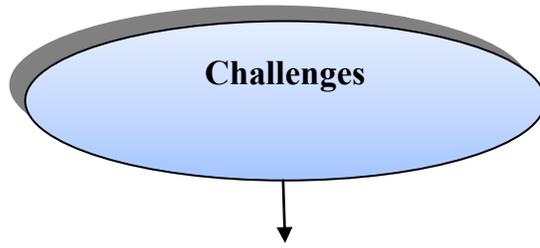

Public Works Administration	FY 2013 Actual	FY 2014 Approved Budget	FY 2014 Projected	FY 2015 Adopted Budget
Expenditures				
Salaries	\$203,942	\$230,013	\$237,264	\$260,947
Benefits	\$79,596	\$84,174	\$76,591	\$103,218
Contractuals	\$51,073	\$100,378	\$39,745	\$36,696
Commodities	\$19,308	\$30,148	\$20,701	\$22,975
Department Total	\$353,919	\$444,713	\$374,301	\$423,836
Revenues				
	\$1	-	-	-
General Fund Subsidy	100%	100%	100%	100%

Performance Measurements

Public Works Administration	FY 2013 Actual	FY 2014 Approved Budget	FY 2014 Projected	FY 2015 Adopted Budget
Inputs:				
Number of Full Time Employees	3	3	3	3
Department Expenditures	\$353,919	\$444,713	\$374,301	\$423,836
Effective Measures:				
Department Expenditures per Capita	\$4.62	\$5.80	\$4.89	\$5.53

-
- The Public Works Department continues to run very lean and many divisions are still operating at reduced levels. We have accomplished many Council directives while keeping up with daily operations. We are cognizant of budgetary issues. However, to continue to keep up with public demand and achieve city directives, more staff will be required.

Street Maintenance

10016120

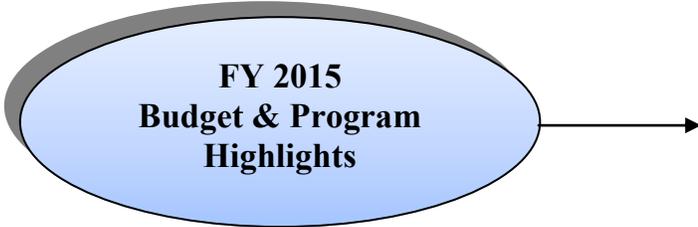

Purpose
(Why does this division exist?)

Street Maintenance provides general street upkeep, which includes pothole repairs and street repairs after excavation to work on water or sewer lines. Street Maintenance is part of the Streets & Sewers Division within the Public Works Department. The Division also assists with certain aspects of special events, traffic line painting and other traffic control-related work. Personnel in this division may also be assigned to work in Sewer Maintenance, Storm Water Management or Snow and Ice removal on an as needed basis.

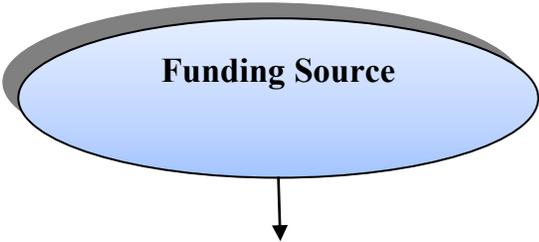

The night paint crew completed what the Public Works Department considers to be a monumental achievement. Through a determined effort, and aided by a new paint truck (illustrated here), the crew repainted all street lines and arrows for all City streets within a calendar year.

Street Maintenance strives for efficiency and safety through its work methods and purchase and use of equipment.

- “Permanent patching” has become a valued piece of the pavement preservation initiative. An asphalt spreader purchased in the early autumn adds efficiency and safety to the process. It reduces the amount of asphalt being manually shoveled, thereby reducing injury risk.
- A new skid steer and milling attachment, requested at an approximate cost of \$70,000, would add productivity and efficiency. The skid steer has multiple uses: detention basin repair, ground grading, seeding, and powering a milling machine, to name four. The milling attachment, called a planer, would increase the Division’s milling efficiency. The current planer has a maximum width of 24 inches. The desired machine has a maximum width of 40 inches, which would be ideal for permanent patches. Permanent patches involve milling and paving a wider area of roads than is commonly associated with street patching.

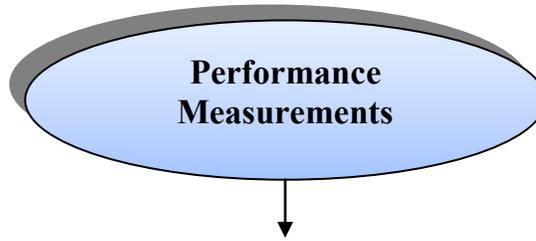

General Fund 85.97%, and funds dedicated for Pavement Repair, Street Maintenance plus other fees and penalties make up the remaining 14.03%

**What we accomplished
in FY 2014**

- A Traffic Line Paint Vehicle, bought in 2012, has proven to be safe and efficient. This vehicle is a main reason the night paint crew was able to re-paint all street lines and arrows throughout the City in one year.
- The purchase of a Falcon Asphalt Recycler (Hotbox) in 2012 has provided a more effective solution to the pothole repair process, as has the Odell Model 900 Asphalt Spreader purchased midway through the 2013-14 fiscal year. This also frees staff for other work.
- Coordination between the Engineering Division and the Streets & Sewers Division extends the range and lifetime of a street before it has to be completely resurfaced by a contractor working with the Engineering Division. Major resurfacing is undertaken by contractors paid out of the Capital Improvement Fund.
- A street sign inventory was undertaken to produce a plan, as required by federal law. The objective is to ensure that signs have retro-reflectivity (for nighttime visibility).

**Revenue &
Expenditures**

* N/A represents measures that will be tracked in future Fiscal Years

- Deteriorating road conditions cause large increases in impromptu care and reactive adjustment, stressing manpower and equipment resources. Sewer collapses also cause expensive emergency street repairs as part of the emergency response, something City staff is mindful of as it addresses sewer issues.
 - The City Council's increased commitment to street resurfacing is making a difference in bringing overall street conditions to a more acceptable level. This commitment is combined with a Staff-Council commitment to stretching dollars and extending the life of streets through pavement preservation measures. City crews perform permanent patching, and contractors have been hired to use three other methods: CRF overlay, Reclamite overlay and micro-surfacing. These measures combined have the potential to save millions of dollars. Patching comes out of Street Maintenance while Reclamite, CRF and micro-surfacing comes out of Capital Improvement.
-

- **Street Maintenance** – Funding for Street Maintenance is used to maintain approximately 320 centerline miles of street pavement. It includes pavement repairs resulting from the work of contractors or the Water Department performing utility repairs. Typically, two crews with three employees each perform street maintenance during the normal construction season (May 1 to November 1). For the remainder of the year, the number of employees on specific duties, including snow plowing, varies depending on need. Usually, three two-person crews work on pothole patching operations during the winter months.
- Street Maintenance also performs work on urban sections of state highways and receives reimbursement through the Illinois Department of Transportation (IDOT).

- **Sign Shop** –The Street Maintenance budget provides funding for the following Sign Shop activities:
 - Maintenance and repair of approximately 25,000 traffic control signs located along the 320 centerline miles of pavement within the City of Bloomington.
 - Purchase of equipment used either directly by the City of Bloomington employees or loaned out to other groups for special events such as the Park to Park Run, the annual Labor Day Parade and other similar events.
 - Field auditing of the installed signs once every 10 years to comply with federal retro-reflectivity requirements.
 - Replacement of damaged traffic control signage.
 - Traffic Line Painting - The Street Maintenance budget funds the traffic line painting program.

Snow & Ice Removal

10016124

Snow & Ice Removal operations entail all plowing and salting of the City streets and alleys to maintain safe roadways for residents and to keep commerce moving. During snow events, personnel also are responsible for plowing/salting all City owned parking lots, Fire stations, the library parking lot and the Lincoln parking lot across from the Government Center.

Snow/Ice response involves personnel from the Streets & Sewers and Solid Waste divisions. Division supervisors rotate management. Parks & Recreation Department employees assist when snow events last for multiple days. Only properly licensed employees from AFSCME local 699 operate snow- and ice-removal equipment.

Fleet Management provides maintenance and repairs and switches to 12-hour shifts to provide 24-hour coverage during major snow/ice events.

The City had 17 snow events during the winter of 2013 defined as: employees are out salting and/or plowing city streets.

**FY 2015
Budget & Program
Highlights**

-
- The new Snocrete machine will speed snow removal from Downtown, because it can quickly load snow onto dump trucks.
 - City staff typically prepares for an average of thirty snow events per year.
-

**What we accomplished
in FY 2014**

-
- Re-roofed the salt storage dome.
 - The City purchased a Fair Snocrete (a snow blower attachment) for \$68,965. The machine will blow snow over high masses of snow lining the sides of roads during major snow events.
-

Performance Measurements

Snow & Ice Removal	FY 2013 Actual	FY 2014 Approved Budget	FY 2014 Projected	FY 2015 Adopted Budget
Inputs:				
Number of Full Time Employees	-	-	-	-
Department Expenditures	\$647,264	\$755,041	\$796,340	\$1,008,078
Cost of Salt per Ton	N/A	\$53.34	\$53.34	\$56.00
Outputs:				
Number of Snow Events	30	30	30	30
Tons of Salt used (@\$53.34/ton)	N/A	5,800	6,960	9,000
Overtime	N/A	\$75,000	\$350,000	\$175,000+

+FY 2015 Budget also includes \$20,000 in Fulltime Salaries

- An additional salt dome needs to be considered, preferably at a satellite location on the east side of Bloomington. The east-side satellite would improve productivity and service by eliminating long drives from the east side to the Public Works salt dome to reload. It also would add desired capacity; the existing salt dome only provides 75% of average annual usage.
 - Vehicle storage is becoming very tight at the Public Works garage because newer, large pieces of equipment must be stored inside during cold weather. This translates to slower snow response because fewer dump trucks can be preloaded with salt in anticipation of a storm. Salt can only be pre-loaded if the trucks can be kept inside. Connect Transit currently allows the City to use the old “bus barn” at Oakland and Main streets and that also serves as a storm staging area with indoor space.
-

For snow and ice operations, the Solid Waste and Streets & Sewers divisions combine resources, and the four supervisors from the divisions take joint responsibility for directing the workforce. A "snow event" response starts with a supervisor's determination that work is required. He initiates the call-in process. For a minimal snow, the City typically uses 25 full-time employees -- one operator and 24 truck drivers. Icing or a more serious snow accumulation means the entire City must be served and an additional 15-18 employees will be called in. Each snow and ice event must be evaluated by a supervisor. As few as four employees may work to check bridges and assess primary routes of travel and Downtown.

Engineering

10016210

Engineering provides design services, contract administration, plan reviews, construction inspection and record drawings, and works with the other divisions within Public Works to facilitate infrastructure maintenance activities. The Engineering Division provides the following functions:

- Maintenance of the City's Geographic Information System (GIS), the vital record information of City infrastructure assets as well as political and jurisdictional boundaries
- Engineering design services
- Construction inspection of public improvements being made by private developers
- Oversight of Design and Construction contract administration
- Oversight of compliance with city, state and federal regulations including but not limited to: erosion control, detention, combined sewer overflow, flood plain management, and National Pollution Discharge Elimination regulations
- Traffic Engineering Services including but not limited to: traffic signal timing, traffic signal clearance intervals, traffic counts, speed studies, traffic calming studies, sight distance investigations, signing layouts and work orders, pavement marking layouts and work orders, school walking routes, high crash location analysis, truck restriction, parking restrictions, handicap parking requests, traffic control permits, trash bin ("Dumpster") permits, over-dimension permits, and citizen requests
- Maintenance of traffic signals, flashers, emergency sirens, and streetlights that are not owned by an electric utility
- Maintenance for all pump stations (both water and sewer) and the water treatment plant electrical and control systems

- Inspections and reports on all bridges and dams owned and operated by the City
- Management of the City's streets through a GIS-based pavement-rating system and administration of the annual Pavement Program, which includes resurfacing, street and alley repair, and preventive maintenance
- Administration of annual sidewalk programs including 50/50 replacement program, ADA ramp upgrades and other sidewalk repairs
- Review of site plans and other submittals for compliance with City standards
- Issuance of excavation, curb cut and erosion control permits
- Response to customer service calls and walk-ins
- Management of the public right-of-way
- Specialized research and analysis

The Engineering Division designed the City's first designated bike lanes and shared bike-vehicle lanes in FY 2014. In FY 2015, the division will work with the League of Illinois Bicyclists to develop citywide bike routes.

- With completion of the Stormwater and Sanitary Sewer Master Plans, the Council and Administration face decisions on how to act on that plan. Engineering will play a crucial role in the enactment of those decisions.
- The approval of the \$10 million dollar Street and Sewer Bond in FY 2014 will require Engineering to effectively plan a large number of street projects to be completed in FY 2015. This will include the bidding process and managing the projects to ensure a high quality of work is being done by the contractors.
- Sewer mapping will continue using a standardized rating system.
- Collaboration will continue with Streets & Sewers to televise and evaluate aging sewers.

Funding Source

General Fund 92.71%, Maintenance and Fees 7.29%

**What we accomplished
in FY 2014**

- An Assistant City Engineer was added to the staff.
 - Sharrow (shared vehicle and bike) lanes and bike lanes were developed to connect the Constitution Trail, Downtown and Illinois Wesleyan University.
 - Intensive planning went into the creation of the Stormwater and Sanitary Sewer Master Plans. The studies encompassed asset inventory including GPS mapping, a citizen survey on flooding and flood ratings, stormwater modeling with analysis of various trouble spots and potential trouble spots. Bloomington now rates its sewer pipes by a more standardized and sophisticated method called the Pipeline Assessment Certification Program (PACP). Among the benefits, these comprehensive plans will enable the Administration and Council to use "consequence of failure" data rather than simply rating a given sewer's physical condition when setting priorities; the analyses will take into account the effects on a specific area and other neighboring areas should a sewer problem occur.
 - The Engineering Division and Public Works Administration conducted a major stakeholder outreach process prior to the decision to reconfigure Washington Street through downtown in an effort to improve pedestrian safety.
 - Despite controversy and residential opposition, the Division enacted a safety plan at the Bunn and Lincoln intersection that should reduce traffic accidents. Lincoln traffic used to stop for Bunn traffic. Because of shifting driving patterns, Bunn Street traffic must now stop for Lincoln Street traffic.
-

-
- The City’s accelerated street paving program, combined with a rebounding housing market, puts added burden on engineers and technicians to oversee projects and ensure quality work.
 - Current staffing levels are less than in 1990, even though workload, program, federal/state requirements, and the population have all increased significantly. Jobs cut in 2009 during a budget crunch have not been replaced. This forces the City to hire out engineering jobs formerly handled in-house and to rely on consultants.

Fleet Management

10016310

Fleet Management develops specifications for vehicles and equipment, and makes recommendations to Council for new purchases. The division also purchases all items for equipment fitting, maintenance and repair. The division purchases all fuels for the mobile fleet through the bid process, Joint Purchasing Contracts or negotiations (depending on the anticipated purchase cost). While the Fleet Management Division does not operate equipment during snow events, its staff provides the maintenance services that keep this equipment on the road. During major snow events, Fleet operates over two 12-hour shifts.

The Division oversees most repairs plus routine maintenance for more than 500 pieces of equipment, including 329 motorized vehicles with an estimated replacement value of \$30,012,491. It outsources only transmission, body work and repair/replacement of tires.

**FY 2015
Budget & Program
Highlights**

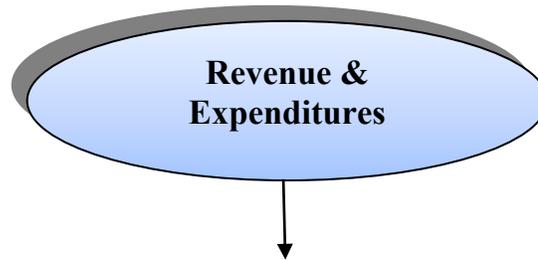

The addition of an Assistant Superintendent of Fleet Management would add day-to-day oversight capabilities while enabling management to spend more time researching efficiencies.

Fleet will continue to explore “greening” options for City vehicles.

**What we accomplished
in FY 2014**

-
- **Online sale of surplus vehicles and equipment has maximized the return on investments.** To date, Fleet Management has sold a total of 51 units, resulting in total revenue of \$226,751.34 for the City.
 - We have continued our **Risk Management Fuel strategy**. We pooled 50% of the City’s diesel fuel purchases with other entities so future contracts could be bought at a time of year when fuel costs are historically at their lowest. This limits the risk of fuel costs exceeding budgeted amounts and could result in cost savings. We also purchased 50% of our no-lead fuel on future contracts.
 - **Onsite repairs eliminated cost overruns, appointments and service calls for routine repairs.** This included more costly services that were routinely sent out. Our technicians are now making repairs in-house at a lower cost. This does require a higher level of technical expertise, and the technicians need to work harder to complete these repairs while still meeting other daily workload goals.

- A miscellaneous technician (non-mechanic) was added to assist with basic office operations.
- Staff made timely repairs of City service vehicles and serviced vehicles during out-of-service hours to reduce the need for additional units.
- Motor Pool vehicles were provided to all Departments to reduce the number of units in the fleet while making vehicles available for out-of-town travel.

Challenges

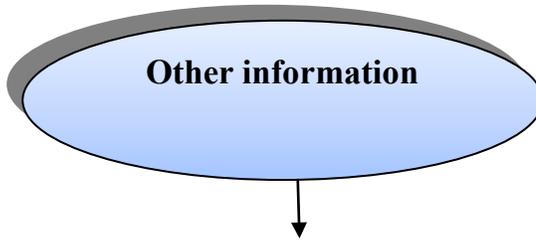

-
- Management of fleet maintenance in a competitive market
 - Strategic timing of the replacement of City vehicles
 - Enhanced technological training for staff to be able to work on new vehicles
 - The need to upgrade the aging Fleet Facility
-

Vehicle/equipment type	Number in category
Marked Police Squad Cars	38
Fire-Rescue Trucks	15

Light Equipment/Off Road*	212
Total Vehicles and Equipment in the City Fleet	543

*Mowers, trailers, Zambonis, generators, saws, compressors, plows and spreaders, loader buckets, other attachments, skid loaders, leaf vacuums)

Fleet Labor Rate

- Fleet Management functions in much the same way as an automobile, truck dealership, or an independent repair shop. Fleet's labor rate is calculated by taking the total expense to operate the Fleet Management Division and subtracting revenues, then dividing the total by the available billable hours for the year. **The current labor rate is \$53.00 an hour which has not been raised since 2005.** The division's labor rate is 15% to 45% lower than other repair facilities in the area (reference upon request).
- Fleet Management Division can handle most types of repairs. These include servicing of marked police patrol cars, repairing Zamboni ice refinishers at the US Cellular Coliseum, welding repairs on an end loader bucket, repairing the salt conveyor at the salt dome, repairs to mowers, electrical and hydraulic system repairs on all makes and models of vehicles and equipment, as well as the repair of camera, computer, and emergency equipment in police and fire units. In-house preventive maintenance on City vehicles also saves time and expense.

Fuel

- In addition to repairs, Fleet Management also is responsible for fuel purchases and the maintenance and repair of the fuel dispensing equipment. The division also bills and reports fuel usage to all departments within the City. In the spirit of intergovernmental cooperation and the desire to keep cost down for the residents of McLean County, Fleet Management also sells fuel to McLean County agencies at a slightly increased cost to cover the expenses for this service.

Contingency

10019110

A contingency organization is simply set aside to handle unexpected expenses outside the range of the usual operating budget. This can serve as protection against possible loss in the event of an emergency situation, such as a disaster, or against potential loss of income from taxes and other revenue sources. When this is the case, the government can draw upon the contingency account to cover shortfalls in operational costs, keeping key public services such as law enforcement and city services functioning.

As of 2012, Bloomington's population is 77,071 residents. Since 2000, our city has had a population growth of 18.93 percent.

-
- The use of the contingency funds within FY 2015 would **not** require the City to increase the budget of the General Fund because these funds are included as part of the original budget.
 - The recommended budget has placed \$50,000 within the General Fund contingency line item account. Any funds not used within the fiscal year will be considered a portion of the General Fund's unrestricted fund balance.
-

Sister City Committee

10019160

The purpose of the Bloomington-Normal Sister City Committee, also known as Sister Cities Committee, is to further international relations and good will between the Bloomington-Normal Community and Asahikawa, Japan.

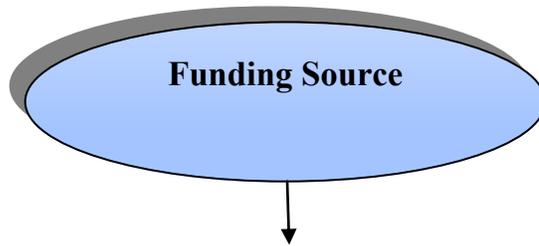

-
- This relationship is in pursuant of the People to People program instituted by the United States State Department (original ordinance 1982-91).
-

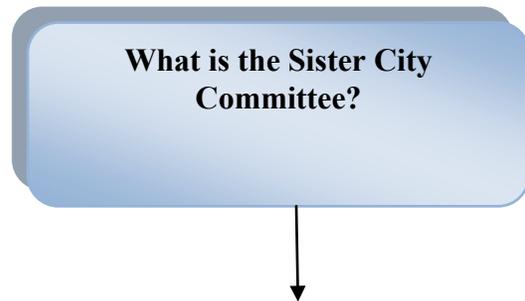

Asahikawa is the second-largest city on the northern island of Hokkaido, Japan. It is located at the confluence of four rivers and is surrounded by hills.

-
- The City's General Fund will transfer \$12,101 to support the operations of the Sister City Committee in FY 2015.
 - The Town of Normal will transfer \$12,100 to support the operations of the Sister City Committee in FY 2015.
-

The City of Bloomington and Town of Normal provide funds for this organization in addition to private donations.

The Sister City Committee is responsible for preparing an annual budget for its operations and presenting the budget to the City Council on an annual basis.

The Committee consists of twenty (20) members, ten (10) approved by the Mayor and Council of each community.

**What we accomplished
in
FY 2014**

- The Committee hosted 15 junior high students “from” Asahikawa who toured Bloomington/Normal while staying with American host families.
- 4 junior high students traveled “to” Asahikawa staying with Japanese host families for a short-term exchange program.
- 2 students from Asahikawa and 2 students from Bloomington/Normal participated in a high school exchange program which lasted for the entire academic year.

**Revenue &
Expenditures**

Sister City	FY 2013 Actual	FY 2014 Approved Budget	FY 2014 Projected	FY 2015 Adopted Budget
Expenditures				
Contractuals	(\$3,771)	\$10,000	\$10,000	\$10,000
Commodities	\$3,780	\$1,600	\$1,600	\$1,600
Other Expenditures	\$82,339	\$15,601	\$15,601	\$15,601
Department Total	\$82,348	\$27,201	\$27,201	\$27,201

General Fund Subsidy	\$17,101	\$12,101	\$12,101	\$12,101

Upcoming Changes

There are no planned changes with the Sister Cities Committee during the next fiscal year. Discussions are currently in process to potentially offer new short-term exchange programs with Asahikawa in the future. There are also plans to increase awareness of the unique opportunities to visit Japan for junior high and high school students in Bloomington/Normal.

Economic Development

10019170

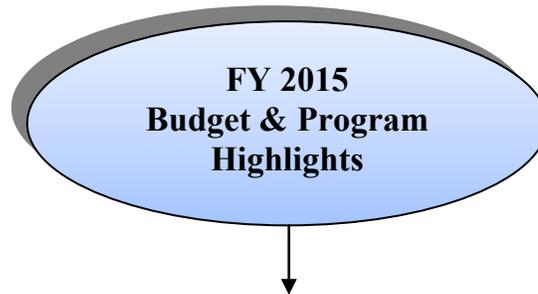

The purpose of local economic development is to build up the economic capacity of the City of Bloomington to improve its economic future and the quality of life for all. It is a process by which public, business and nongovernmental sector partners work collectively to create better conditions for economic growth and employment.

The City of Bloomington Economic Development Office and its related activities are part of the City Council's Strategic Plan.

The Economic Development Coordinator addresses the City's goal of improving the local economy through the retention and expansion of current local businesses and the attraction of new, targeted businesses. These efforts help foster the revitalization of older commercial areas, the expansion of retail business and the improvement of working relationships with businesses and economic development agencies.

This division will continue to:

- Work with City-wide stakeholders to attract retail, commercial, and other business to the City of Bloomington
 - Coordinate with the Economic Development Council of the Bloomington-Normal Area to present one to two major City projects for consideration for State and/or Federal funding as part of the One Voice Program
 - Identify underutilized retail space and work with various stakeholders to fill the retail space
-

**What we accomplished
in
FY 2014**

As part of the commitment to sustainable economic development, the City hired an Economic Development Coordinator in FY 2012 to develop and establish economic development programs and practices to encourage private sector projects in the City of Bloomington. These efforts have resulted in capital investment, job creation, expanded tax base, creative and niche development, recreation and entertainment venues and other developments.

A few highlights of those efforts during FY 2014 include:

- Assistance with business openings and developments in Bloomington and initiating projects within the community:
 - Green Building LLC – 115 East Monroe redevelopment project
 - Fleet Feet – retail location opened at 105 Krispy Kreme Drive
 - Sport Clips – retail location opened at 1407 North Veterans Parkway
 - Sugar Mama Bakery – retail location opened at 405 North Main Street
 - Expansion of the Enterprise Zone to Downtown Bloomington
 - \$2,299,825 in new investment has been initiated since the zone was expanded
 - Generation of a retail request page on the City of Bloomington website
 - More than 3,100 requests were submitted within the first month of going live
 - Creation of a national webinar presentation given in cooperation with ICMA
 - Continuation of a partnership with the National Development Council for financial review and advisement on development projects, incentive applications and special projects as assigned
 - Creation of City of Bloomington Economic Development marketing materials including:
 - Demographic profile Z card
 - Bloomington-Normal retail guide (collaboration with Town of Normal staff)
 - Downtown Bloomington demographic guide
 - City of Bloomington incentive guide
 - Attendance at the following professional association events:
 - International Council of Shopping Centers annual REC on event
 - International Council of Shopping Centers annual Retail Connection event
 - International Council of Shopping Centers downstate alliance luncheon
 - International Council of Shopping Centers Central Illinois luncheon
 - International Economic Development Council annual conference
 - International Economic Development Council Basic Economic Development Course
 - Illinois Tax Increment Association Fall Conference
 - Exhibition at the International Council of Shopping Centers Chicago Deal Making Conference
-

General Fund Subsidy	94.71%	96.19%	96.18%	96.49%

Payments to Outside Agencies

- Funding for economic development activity was established with the FY 2011 Budget. The funds were drawn from multiple department budgets to improve the use of resources for those departments and to the City as a whole. Outside agencies that currently receive payments from these funds include:
- **Bloomington-Normal Area Convention & Visitors Bureau (CVB)** - The mission of the CVB is to “Enhance the economy of McLean County through the promotion, attraction, and retention of events, conventions and tourism.” The City commits a portion of the Hotel/Motel Tax revenue to the CVB each year. For FY 2015, the City has budgeted \$575,000 to assist the CVB in reaching their goal, an amount that represents approximately 2% of total Hotel /Motel Tax revenue generated each year.
- **Economic Development Council of the Bloomington-Normal Area (EDC)** - The EDC is a leadership organization that helps businesses in McLean County grow and works to attract new businesses to the area. By investing in McLean County’s assets, we can improve the community’s prosperity and quality of life. The FY 2015 budget recommends contributing \$100,000 to the EDC.

- **Town of Normal** - The City and the Town of Normal entered into an Intergovernmental Agreement in January 1986 to develop a Metro Zone as part of the Bloomington-Normal / McLean County Enterprise Zone. Part of this agreement called for all revenues and all expenses to be shared between the two municipalities. This promoted development in the area without the worry of the two municipalities competing against each other when attracting businesses. The Metro Zone is bordered by Route 9 West, Mitsubishi Motorway, College Avenue, and Wylie Drive (see attached map). This area was previously undeveloped, but now is home to Wal-Mart, Wehrenberg Theatres, and other retail businesses, hotels and restaurants. Each year the City forwards to the Town of Normal half of all revenues generated from this area, including Sales Taxes, Property Taxes and Food & Beverage Taxes. The budgeted expenditure amount for FY 2015 is \$1,238,295.

- **Downtown Bloomington Association (DBA)** – The DBA is dedicated to improving the Downtown area by attracting business, residential and commercial real estate investment, and retail opportunities to the Downtown area. An agreement with the DBA was approved July 2008 and is re-evaluated on an annual basis. For FY 2015 the contribution to the DBA is budgeted at \$90,000, which is equal to the subsidy provided by the City in FY 2014.

- **Rebates to Developers (Interchange City West/Truckers Lane/Main & Veterans)**
 - **Truckers Lane** - An agreement between the City and Bloomington PB LLC was approved by the Council April 24, 2006. The agreement called for the developer to extend Truckers Lane 1,200 feet to the north, to allow for the development of a Peterbilt dealership. The cost of the extension was \$325,628 and per the agreement, the City is required to pay for half of this improvement, as well as 7% interest on the outstanding balance until the funds are repaid. Repayment of the road improvement comes from the Property and Sales Taxes generated from the property. As of January 2014, the outstanding principal balance on this agreement was \$159,143. For FY 2015, the budgeted obligation is projected to be \$74,000 and it is anticipated that this agreement will be paid off by FY 2017.

- **Township payments** – State law requires the City to pay a portion of property taxes they receive from newly annexed properties to the Townships and Fire Districts that represented the property prior to annexation. The property tax sharing is required for 5 years after annexation on a declining scale and is meant to help offset the losses incurred by the Townships and Fire Districts due to the annexation. Beyond the normal property taxes that must be distributed due to annexation, the City distributes \$50,000 per year to Bloomington Township, as part of a 2008 lawsuit settlement. The settlement resolved all amounts due in relation to the annexation of a particular group of properties. The settlement calls for \$50,000 per year to be paid through FY 2015. The budgeted amount for all township payments related to these annexations for FY 2015 is \$100,000.

- **To Bruegge & Co., Inc. (Ashley Furniture HomeStore)** – An agreement between the City and Bruegge & Co (Ashley Furniture HomeStore) was approved by the Council June 19, 2012. The agreement called for the developer to enter into a lease for a term of no less than ten (10) years, commence operation of retail furniture and home furnishings and decor business on or before January 1, 2013, and employ no less than fifteen (15) full-time and no less than four (4) part-time positions throughout the term of the agreement. The City will annually reimburse the Developer fifty percent (50%) of Municipal Use and Occupation Taxes generated from the retail operation of the Developer commencing January 1, 2013. Payment will be made to the Developer annually starting on March 1, 2014 and on March 1 each year thereafter until (i) the Developer has received a total of \$150,000; or, (ii) March 1, 2018. For FY 2015 the budgeted obligation is projected to be \$30,000.
-

- **Current staffing levels** will limit our ability to properly address all projects, requests and assignments provided by the City Council in pursuit of the goals of the Strategic Plan.
 - **Future access to funding and development-related incentive programs** will be a critical factor for the Economic Development office and will impact its ability to effectively assist businesses.
-

The Economic Development office serves the community by improving the economic future and quality of life for everyone in Bloomington. In accordance with Council guidelines, this division also contributes to the effort to create a diverse local economy with choices for entertainment and a vital downtown through the following activities:

- Providing the business community with access to information and resources
- Offering professional assistance and access to financial institutions and programs
- Helping to attract new business ventures and job opportunities
- Diversifying the tax base to relieve the burden on individual taxpayers
- Promoting positive working relationships with local businesses and organizations

General Fund Transfers

10019180

General Accepted Accounting Principles (GAAP) define inter-fund transfers as a “flows of assets (such as cash or goods) without equivalent flows of assets in return and without a requirement for repayment.” In connection with the City’s financial statements, the term transfer is used exclusively in connection with inter-fund activities, which are, activities between funds of the primary government. Transactions between the primary government and parties outside the financial reporting entity should be reported as revenues and expenses/expenditures rather than transfers.

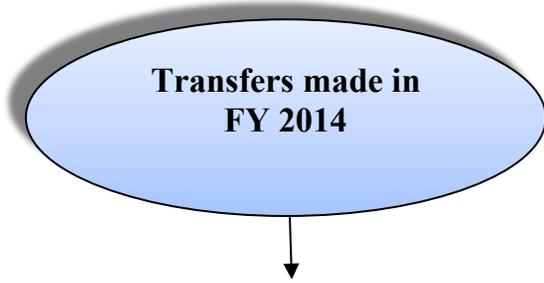

-
- The City Manager and Finance Department recommend the budgetary practice of inter-fund transfers in the City’s annual budget.
-

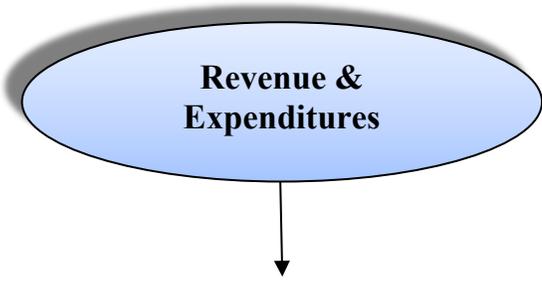

**FY 2015
Budget & Program
Highlights**

-
- The General Fund will be reimbursed \$1,649,237 from the Enterprise funds for services provided to these funds by General Fund departments.
 - The General Fund will transfer \$1,832,750 to the Capital Improvement Fund to allocate resources for Capital Projects.
 - The General Fund will transfer a total of \$3,265,686 between the General Bond & Interest Fund and 2004 Variable Bond Redemption Fund for debt service payments.
 - The General Fund will transfer \$1,159,000 to subsidize the Solid Waste Enterprise Fund.
 - The General Fund will transfer \$76,090 to fund capital projects in the Coliseum Enterprise Fund.
 - The General Fund will transfer \$12,101 to continue the City's support of the Sister City program.
-

**Transfers made in
FY 2014**

-
- The General Fund was reimbursed \$1,132,863 from the Enterprise funds for services provided to these funds by General Fund departments.
 - The General Fund was reimbursed \$56,609 from the Library and John M. Scott funds for cost incurred by through the City's Early Retirement Incentive Program.
 - The General Fund transferred \$4,746,000 to the Capital Improvement Fund to allocate resources for Capital Projects.
 - The General Fund transferred \$1,700,331 to Debt Service Funds.
 - The General Fund transferred \$4,687,353 to subsidize Enterprise Fund(s).
-

Public Transportation

10019190

The City established the Public Transportation division to account for the subsidy provided to **Connect Transit**, a joint venture between the City of Bloomington and the Town of Normal whose purpose is to engage in a wide variety of activities necessary for the operation of a transit system within the corporate limits of the two governmental entities.

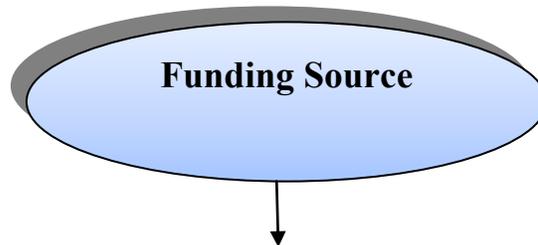

Connect Transit operates 35 fixed route buses and 13 para-transit buses. In FY 2013, 2,067 million passengers used this system. The ordinance (1972-69) approved in 1972 by the respective communities sets forth a formula to determine the contribution the City and Town will make to the Transit System to purchase capital equipment. The calculation of this weighted average has led the City's portion used to purchase capital equipment to decrease from 67.8% to 62.4% (the capital equipment cost will vary from year to year). The Connect Transit fiscal year does not coincide with the timeframe of the City's FY 2015 budget. As a result, the contribution amount to the City's budget is calculated by including two months of the prior year contribution (Connect Transit FY 2014 budget) and ten months (Connect Transit FY 2015 budget) of the current contribution.

The Bloomington-Normal Public Transit System Board is composed of seven members. The City of Bloomington appoints four trustees and the Town of Normal appoints three trustees. Connect Transit gives a monthly report of its activities to the City Manager. Connect Transit is funded primarily through federal and state governmental assistance. Other revenue sources include fares and contractual fees. The City's annual subsidy will be paid from this newly created division of the budget.

The Connect Transit operates on Fiscal Year of July 1 to June 30. The budgeted transit subsidy for FY 2015 is \$574,029, which includes \$9,000 for the Wheels to Work Program.

Connect Transit offers a collaborative transportation option coordinated by the YWCA McLean County to provide transportation to and from work for residents in areas the Connect Transit does not offer a fixed route and on Sundays when the transit does not offer bus service. The City of Bloomington and the Town of Normal both support this initiative.

Connect Transit is funded primarily through federal and state governmental assistance. The City of Bloomington and the Town of Normal subsidize deficits of the system in accordance with a prescribed formula.

Revenue & Expenditures

Public Transportation	FY 2013 Actual	FY 2014 Approved Budget	FY 2014 Projected	FY 2015 Adopted Budget
Bus Subsidy	\$552,967	\$563,163	\$543,500	\$565,029
Wheels to Work	\$9,000	\$9,000	\$9,000	\$9,000
